contribute and perform Invisible Scars Meghan Fitzpatrick, 2017-07-25 The Korean War 1950-53 was a ferocious and brutal conflict that produced over four million casualties in the span of three short years. Despite this, it remains relatively absent from most accounts of mental health and war trauma. *Invisible Scars* provides the first extended exploration of Commonwealth Division psychiatry during the Korean War and examines the psychiatric care systems in place for the thousands of soldiers who fought in that conflict. Fitzpatrick demonstrates that although Commonwealth forces were generally successful in returning psychologically traumatized servicemen to duty and fostering good morale, they failed to compensate or support in a meaningful way veterans returning to civilian life. This book offers an intimate look into the history of psychological trauma. In addition, it engages with current disability pensions and compensation issues that remain hotly contested and reflects on the power of commemoration in the healing process. **Developing Public Service**

Leaders Mike Wallace, Michael Reed, Dermot O'Reilly, Michael Tomlinson, Jonathan Morris, Rosemary Deem, 2022-11-10 *Developing Public Service Leaders* examines why and how governments and representative bodies in public service organizations have mounted major interventions over the last two decades to develop senior staff as leaders. A critical explanation is developed of the foundational contribution made by national leadership development interventions in the 2000s to the emergence, proliferation, and normalization of leadership development provision. Through carrying out qualitative research in England, the authors investigate the national leadership development interventions for school, education, healthcare, and higher education. Whilst also looking at the contemporary legacy of these interventions within a global scale, examining the growing international movement and comparing interventions across the world. The book looks at new ways to approach leadership development, adopting a novel perspective on leadership as a metaphorical concept and coining the concept of leaderism and exploring how, although senior staff may be widely acculturated as leaders, they may not necessarily be committed to acting as government change agents. Leadership development makes a diffuse contribution towards the ongoing neoliberalization of public services. *Developing Public Service Leaders* is a comprehensive and essential read for a researcher or policymaker striving for an in-depth understanding of the field and its ramifications. **Employer**
