Developmental Pathogenesis And Treatment Of Borderline And Narcissistic Personalities:

Developmental Pathogenesis and Treatment of Borderline and Narcissistic Personalities Donald B. Rinsley, 1989

This carefully crafted work on the development and treatment of borderline and narcissistic disorders reflects the sweeping changes that have taken place in psychoanalytic theory and practice. Written by Dr Donald Rinsley, considered among the foremost of psychoanalytic teachers, clinicians, and writers, it is succinct yet comprehensive, integrating classical and object relations concepts with Mahler's developmental phase theory and the contributions of Klein, Kernberg, Kohut, and others. Excerpts from actual therapy sessions demonstrate Rinsley's disciplined and compassionate expertise as an analytic therapist.

, **James F. Masterson** Loray Daws, 2024-02-01 In this volume, Loray Daws traces the life and work of Dr James F. Masterson with a focus on the scientific development and later expansion of the six developmental stages of the Masterson Method. Exploring more than 15 of Masterson's volumes as well as countless articles, Daws shows how Masterson's approach to Object Relations and the developmental self can serve clinicians in both conceptualizing and treating borderline, narcissistic, and schizoid disorders of self. Considering the pioneering and innovative nature of Masterson's work, Daws looks at how he creatively expanded on Freud's theories on repression, successfully developing therapeutically sound ways to touch and transform developmental trauma and trauma reflected in a deep abandonment depression. James F. Masterson: A Contemporary Introduction will be of interest to students in psychology, psychiatry, and psychiatric nursing as well as psychoanalytically orientated psychotherapists, psychoanalysts, and those specializing in the ever-growing field of the treatment of the disorders of the self.

Management of Countertransference with Borderline Patients Glen O. Gabbard, Sallye M. Wilkinson, 2000 Management of Countertransference with Borderline Patients is an open and detailed discussion of the emotional reactions that clinicians experience when treating borderline patients. This book provides a systematic approach to managing countertransference that legitimizes the therapist's reactions and shows ways to use them therapeutically with the patient.

The Borderline Psychotic Child Trevor Lubbe, 2003-09-02 The Borderline Psychotic Child reviews the history and evolution of the borderline diagnosis for children, both in the USA and the UK, bringing the reader up to date with current clinical opinion on the subject. Using a range of clinical case studies, the book attempts to harmonise US and UK views on borderline diagnosis in the light of new developments in theory. At The Menninger Clinic, The Anna Freud Centre, and The Tavistock Clinic, providing an introduction to the borderline concept and a systematic overview of current theoretical thinking and clinical practices from leading practitioners in the field, The Borderline Psychotic Child will make informative reading both for professionals and students in the field of child analysis.

The Legacy of Fairbairn and Sutherland Jill Savege Scharff, David E. Scharff, 2005 In this book, international contributors re-examine Fairbairn and Sutherland's concepts in the light of current clinical experience, illuminate their concepts with contemporary psychoanalytic theories, and apply them in psychotherapy.

The Klein-Winnicott Dialectic Susan Kavalier-Adler, 2018-05-01 The Klein Winnicott Dialectic Transformative New Metapsychology and Interactive Clinical Theory brings together the theories of Melanie Klein and Donald W Winnicott two giants and geniuses of the British school of object relations clinical and developmental theory and psychoanalytic technique In this book The author attempts to integrate the theories of Klein and Winnicott rather than polarising them as has been done often in the past This book takes the best of Klein and Winnicott for use by clinicians on an everyday basis without having the disputes between their followers interfere with the full and rich platter of theoretical offerings they each of them provided In addition this book looks at the biographies of Klein and Winnicott to show how their theories were inspired by their contrasting lives and contrasting parenting and developmental dynamics By examining their theories in relation to their biographies one can see why their dialectical theoretical focuses emerged highly contrasted in their major emphasis and yet highly complementary when applied together to clinical work
