(Annotated) John Donne, 2020-07-19 Differentiated book. It has a historical context with research of the time. This book contains a historical context where past events or the study and narration of these events are examined. The historical context refers to the circumstances and incidents surrounding an event. This context is formed by everything that in some way influences the event when it happens. A fact is always tied to its time; that is, to its time. Therefore, when analyzing events that took place tens, hundreds, or thousands of years ago, it is essential to know the historical context to understand them. Otherwise, we would be analyzing and judging what happened in a totally different era with a current perspective. John Donne (1572-1631) is one of the great English metaphysical poets and religious preachers. Love, religion, and death are characteristic themes of his work and his memorable eloquence. In Spain, two volumes have just been published that recall his teaching and his great influence throughout these four centuries. This is the first full edition of *Devotions and Mourning for Death*, the latter being the sermon he gave to the king two months before he died and considered his anticipated funeral sermon. This edition includes a preface by Carlos Zanón, a prologue by Andrew Motion, and an appendix with *The Life of John Donne*.

Devotions Upon Emergent Occasions; Together with Death's Duel John Donne, 2019-11-20 In *Devotions Upon Emergent Occasions Together with Death's Duel*, John Donne explores profound themes of mortality, illness, and the human condition through a series of meditative reflections written during a period of personal crisis. Donne's literary style is characterized by its rich metaphysical imagery and intricate syntax, drawing the reader into an intimate dialogue between the self and the divine. The work is steeped in the context of the Jacobean era's burgeoning interest in existential questions, influenced by the period's medical uncertainties and spiritual contemplation, making it a pivotal text for understanding early modern existential thought. John Donne, a prominent figure of metaphysical poetry, was not only an accomplished poet but also a devout cleric whose life experiences, ranging from personal losses to bouts with illness, deeply inform his theological and philosophical inquiries. His intimate knowledge of death and suffering, alongside his role as Dean of St Paul's Cathedral, led him to grapple with the complexities of faith and doubt, which resonate throughout this work. *Devotions Upon Emergent Occasions* is highly

recommended for readers seeking a profound engagement with themes of life death and spirituality Its contemplative nature and emotional depth invite both scholarly analysis and personal reflection making it an essential read for those interested in metaphysical poetry and the complexities of human existence **Devotions Together with Death's Duel** John

Issues of Death Michael Neill, 1999-01-07 Death like most experiences that we think of as natural is a product of the human imagination all animals die but only human beings suffer Death and what they suffer is shaped by their own time and culture Tragedy was one of the principal instruments through which the culture of early modern England imagined the encounter with mortality The essays in this book approach the theatrical reinvention of Death from three perspectives Those in Part I explore Death as a trope of apocalypse a moment of unveiling or discovery that is figured both in the fearful

nakedness of the Danse Macabre and in the shameful openings enacted in the new theatres of anatomy Separate chapters explore the apocalyptic design of two of the periods most powerful tragedies Shakespeare's Othello and Middleton and Rowley's The Changeling In Part 2 Neill explores the psychological and affective consequences of tragedy's fiercely end-driven narrative in a number of plays where a longing for narrative closure is pitched against a particularly intense dread of ending The imposition of an end is often figured as an act of writerly violence committed by the author or his dramatic surrogate Extensive attention is paid to Hamlet as an extreme example of the structural consequences of such anxiety The function of revenge tragedy as a response to the radical displacement of the dead by the Protestant abolition of purgatory one of the most painful aspects of the early modern reimagining of death is also illustrated with particular clarity Finally Part 3 focuses on the way tragedy articulates its challenge to the undifferentiating power of death through conventions and motifs borrowed from the funereal arts It offers detailed analyses of three plays Shakespeare's Antony and Cleopatra Webster's The Duchess of Malfi and Ford's The Broken Heart Here funeral is rewritten as triumph and death becomes the chosen instrument of an heroic self-fashioning designed to dress the arbitrary abruptness of mortal ending in a powerful aesthetic of closure
