Dharma Rain Stephanie Kaza, Kenneth Kraft, 2000-02-08 A comprehensive collection of classic texts contemporary interpretations guidelines for activists issue specific information and materials for environmentally oriented religious practice Sources and contributors include Basho the Dalai Lama Thich Nhat Hanh Gary Snyder Ch gyam Trungpa Gretel Ehrlich Peter Mathiessen Helen Tworckov editor of Tricycle and Philip Glass

Zen Buddhism and Environmental Ethics Simon P. James, 2017-03-02 Zen Buddhism and Environmental Ethics explores the implications of Zen Buddhist teachings and practices for our moral relations with the natural world At once an accessible introduction to Zen and an important contribution to the debate concerning the environmental implications of the tradition this book will appeal both to readers unfamiliar with East Asian thought and to those well versed in the field In elucidating the philosophical implications of Zen the author draws upon both Eastern and Western philosophy situating the Zen understanding of nature within the Buddhist tradition as well as relating it to the ideas of key Western philosophers such as Aristotle Kant and Heidegger These philosophical reflections on Zen are used to shed light on some prominent debates in contemporary environmental ethics concerning such issues as the intrinsic value of nature

Water, Environmental and Corporeal Traditions in Buddhism Anand Singh, 2025-06-27 This book examines ancient Buddhist traditions centered around water It studies the sustainability and conservation practices of Buddhist monastics and examines how these early practices and ethos are applicable in the contemporary world The author draws on literary and archaeological sources across cultures and religions to trace the different socio economic and cultural traditions that utilise water to formulate a pathway to save water in its purest form A unique contribution this book will be an essential read for scholars and researchers of environmental studies climate change sustainable development religious studies and Buddhist history It will also be useful to environmentalists and policymakers

Zen Ecology Christopher Ives, 2025-03-11 Discover a way of living that can help you slow down and stay grounded and at the same time reduce your ecological impact and engage more fully with the climate crisis It may seem as though living ecologically and engaging in activism sacrifices our own enjoyment and happiness on the altar of doing the right thing In this book professor naturalist and Buddhist author Christopher Ives offers an alternative a way of living that can actually be more fulfilling than the modern consumerist lifestyle Rather than deprivation it can bring us richness In Zen Ecology Chris outlines his environmental ethic as a series of concentric circles beginning with ourselves and then moving outward into our communities all the while focusing on spaciousness mindfulness generosity and contentment At the individual level we deal with distraction clutter and ecological

harm Here Chris offers ways to help us pay attention simplify our lives and lower our impact Then we explore how to envision our home as a place of the Way with Zen monastic life as a model for this without having to be a monk Next we realize our embeddedness in nature and emplace ourselves in community with others including other forms of life Finally we build on this basis to engage in activism to create a world that is more supportive of ecological health and spiritual fulfillment In this way we avoid the two extremes of apathy and burnout and uncover a way of living that is simple joyful embedded in nature connected to others in community and supportive of collective action Buddhism, Virtue and Environment David E. Cooper, Simon P. James, 2017-07-05 Buddhism one increasingly hears is an eco friendly religion It is often said that this is because it promotes an ecological view of things one stressing the essential unity of human beings and the natural world Buddhism Virtue and Environment presents a different view While agreeing that Buddhism is in many important respects in tune with environmental concerns Cooper and James argue that what makes it green is its view of human life The true connection between the religion and environmental thought is to be found in Buddhist accounts of the virtues those traits such as compassion equanimity and humility that characterise the life of a spiritually enlightened individual Central chapters of this book examine these virtues and their implications for environmental attitudes and practice Buddhism Virtue and Environment will be of interest not only to students and teachers of Buddhism and environmental ethics but to those more generally engaged with moral philosophy Written in a clear and accessible style this book presents an original conception of Buddhist environmental thought The authors also contribute to the wider debate on the place of ethics in Buddhist teachings and practices and to debates within virtue ethics on the relations between human well being and environmental concern

An Introduction to Engaged Buddhism Paul Fuller, 2021-08-12 This textbook introduces and explores the ideas practices and philosophy of engaged Buddhism The movement holds that suffering is not just caused by the cravings of the mind but also by political and social factors therefore engaged Buddhists engage with social issues to achieve liberation Paul Fuller outlines the movement's origins and principles He then offers a comprehensive analysis of the central themes and issues of engaged Buddhism offering new insights into the formation of modern Buddhism The range of issues covered includes politics gender environmentalism identity blasphemy and violence These are illustrated by case studies and examples from a range of locations where Buddhism is practised Discussion points and suggested further reading are provided at the end of each chapter which will further enrich undergraduates grasp of the topic **Ecological Solidarities** Krista E. Hughes, Dawn B. Martin, Elaine Padilla, 2019-10-30 Operating on the premise that our failure to recognize our interconnected relationship to the rest of the cosmos is the origin of planetary peril this volume presents academic activist and artistic perspectives on how to inspire reflection and motivate action in order to construct alternative frameworks and establish novel solidarities for the sake of our planetary home The selections in this volume explore ecologies of interdependence as a frame for religious theological and philosophical analysis and practice Contributors examine questions

of justice climate change race class gender and coloniality and discuss alternative ways of engaging the world in all its biodiversity Each essay poem reflection and piece of art contributes to and reflects upon how to live out entangled differences toward positive global change Constructive and practical global and local communal and personal Ecological Solidarities is an innovative contribution to the discourses on relational and liberative thought and practice in religion philosophy and theology It will be welcomed by scholars of World Christianity and theology as well as seminary students activists and laity interested in issues of justice and ecology

Encyclopaedia of the History of Science, Technology, and Medicine in Non-Western Cultures Helaine Selin, 2008-03-12 Here at last is the massively updated and augmented second edition of this landmark encyclopedia It contains approximately 1000 entries dealing in depth with the history of the scientific technological and medical accomplishments of cultures outside of the United States and Europe The entries consist of fully updated articles together with hundreds of entirely new topics This unique reference work includes intercultural articles on broad topics such as mathematics and astronomy as well as thoughtful philosophical articles on concepts and ideas related to the study of non Western Science such as rationality objectivity and method You ll also find material on religion and science East and West and magic and science

Spiritual Ecology Leslie E. Sponsel, 2012-07-19 A prominent scientist and scholar documents and explains the thoughts actions and legacies of spiritual ecology s pioneers from ancient times to the present demonstrating how the movement may offer the last chance to restore a healthy relationship between humankind and nature An internet search for Spiritual Ecology and related terms like Religion and Nature and Religion and Ecology reveals tens of millions of websites Spiritual Ecology A Quiet Revolution offers an intellectual history of this far reaching movement Arranged chronologically it samples major developments in the thoughts and actions of both historic and contemporary pioneers ranging from the Buddha and St Francis of Assisi to Wangari Maathai s Green Belt Movement and James Cameron s 2010 epic film Avatar This foundational book is unique in that it provides a historical cross cultural context for understanding and advancing the ongoing spiritual ecology revolution considering indigenous and Asian religious traditions as well as Western ones Most chapters focus on a single pioneer illuminating historical context and his her legacy while also connecting that legacy to broader concerns Coverage includes topics as diverse as Henry David Thoreau and the Green Patriarch Bartholomew s decades long promotion of environmentalism as a sacred duty for more than 250 million members of the Orthodox Church worldwide For more information visit www.spiritualecology.info

This Sacred Earth Roger S. Gottlieb, 2003-11-07 Updated with nearly forty new selections to reflect the tremendous growth and transformation of scholarly theological and activist religious environmentalism the second edition of This Sacred Earth is an unparalleled resource for the study of religion s complex relationship to the environment

Roaming Free Like a Deer Daniel Capper, 2022-03-15 By exploring lived ecological experiences across seven Buddhist worlds from ancient India to the contemporary West Roaming Free Like a Deer provides a comprehensive critical and innovative examination of the theories

practices and real world results of Buddhist environmental ethics Daniel Capper clarifies crucial contours of Buddhist vegetarianism or meat eating nature mysticism and cultural speculations about spirituality in nonhuman animals Buddhist environmental ethics often are touted as useful weapons in the fight against climate change However two formidable but often overlooked problems with this perspective exist First much of the literature on Buddhist environmental ethics uncritically embraces Buddhist ideals without examining the real world impacts of those ideals thereby sometimes ignoring difficulties in terms of practical applications Moreover for some understandable but still troublesome reasons Buddhists from different schools follow their own environmental ideals without conversing with other Buddhists thereby minimizing the abilities of Buddhists to act in concert on issues such as climate change that demand coordinated large scale human responses With its accessible style and personhood ethics orientation *Roaming Free Like a Deer* should appeal to anyone who is concerned with how human beings interact with the nonhuman environment *Engaged Buddhism in the West*

Christopher S. Queen, 2012-11-12 Engaged Buddhism is founded on the belief that genuine spiritual practice requires an active involvement in society Engaged Buddhism in the West illuminates the evolution of this new chapter in the Buddhist tradition including its history leadership and teachings and addresses issues such as violence and peace race and gender homelessness prisons and the environment Eighteen new studies explore the activism of renowned leaders and organizations such as Thich Nhat Hanh Bernard Glassman Joanna Macy the Buddhist Peace Fellowship and the Free Tibet Movement and the emergence of a new Buddhism in North America Europe South Africa and Australia *The Oxford Handbook of Contemporary Buddhism*

Michael K. Jerryson, 2017 The Oxford Handbook of Contemporary Buddhism offers a comprehensive collection of work by leading scholars in the field They examine the historical development of Buddhist traditions throughout the world from traditional settings like India Japan and Tibet to the less well known regions of Latin America Africa and Oceania **Teaching Buddhism** Todd Lewis, Gary Delaney DeAngelis, 2017 Buddhist studies is a rapidly changing field of research constantly transforming and adapting to new scholarship This creates a problem for instructors both in a university setting and in monastic schools as they try to develop a curriculum based on a body of scholarship that continually shifts in focus and expands to new areas Teaching Buddhism establishes a dialogue between the community of instructors of Buddhism and leading scholars in the field who are updating revising and correcting earlier understandings of Buddhist traditions Each chapter presents new ideas within a particular theme of Buddhist studies and explores how courses can be enhanced with these insights Contributors in the first section focus on the typical approaches figures and traditions in undergraduate courses such as the role of philosophy in Buddhism Nagarjuna Yogacara Buddhism tantric traditions and Zen Buddhism They describe the impact of recent developments like new studies in the cognitive sciences on scholarship in those areas Part Two examines how political engagement and ritual practice have shaped the tradition throughout its history Focus then shifts to the issues facing instructors of Buddhism dilemmas for the scholar practitioner in the academic and monastic

classroom the tradition's possible roles in teaching feminism and diversity and how to present the tradition in the context of a world religions course In the final section contributors offer stories of their own experiences teaching paying particular attention to the ways in which American culture has impacted them They discuss the development of courses on American Buddhism using course material on the family and children the history and trajectory of a Buddhist Christian dialog and Buddhist bioethics environmentalism economic development and social justice In synthesizing this vast and varied body of research the contributors in this volume have provided an invaluable service to the field

Emerson and Environmental Ethics Susan Dunston, 2018-09-15 At the core of Emerson's philosophy is his view as a naturalist that we are made of the same atoms as the world is In counterpoint to this identity he noted the fluid evolution and diversity of combinations and configurations of those atoms Thus he argued our relation and connection to the world are not occasional or recreational but everywhere and always and also reciprocal ongoing and creative He declared he would be a naturalist which for him meant being a knowledgeable lover of nature Emerson's famous insistence on an original relation to the universe centered on morally creative engagement with the environment It took the form of a nature literacy that has become central to contemporary environmental ethics The essential argument of this book is that Emerson's integrated philosophy of nature ethics and creativity is a powerful prototype for a diverse range of contemporary environmental ethics After describing Emerson's own environmental literacy and ethical aesthetic and creative practices of relating to the natural world Dunston delineates a web of environmental ethics that connects Emerson to contemporary eco feminism living systems theory Native American science Asian philosophy and environmental activism

The Spirit of Sustainability Willis Jenkins, Whitney Bauman, 2009-11-01 The Spirit of Sustainability helps readers navigate the moral worlds and ethical concepts and social and religious practices related to sustainability In collaboration with the Forum on Religion and Ecology an established network of leading scholars it explores a wide range of topics and perspectives from the promise and problems of approaching sustainability through global and indigenous religions to major theories in philosophy and environmental ethics and professional practices and social movements This volume presents the various goals of sustainability ecological integrity economic health human dignity fairness to the future and social justice and provides a framework for reasoning through many interrelated environmental challenges for both current and future generations

The Oxford Handbook of Religion and Ecology Roger S. Gottlieb, 2006-11-09 Ecologically oriented visions of God the Sacred the Earth and human beings The proposed handbook will serve as the definitive overview of these exciting new developments Divided into three main sections the book's essays will reflect the three dominant dimensions of the field Part I will explore

Constructing a Relational Cosmology Paul O. Ingram, 2006-08-01 This collection of five essays is both a dialogical engagement with and critical assessment of Nancy R Howell's book *Constructing a Relational Cosmology* The collection includes three essays written from a Whiteheadian process perspective by Marit A Trelstad Kathlyn A Breazeale and Marjorie Hewitt Suchocki one from the

perspective of narrative theology Lisa Stenmark and one from the Soto Zen Buddhist perspective Stephanie Kaza Howell responding as a Whiteheadian feminist philosopher of religion takes the critiques and suggestions of her dialogical partners with the utmost seriousness as her foundation for suggesting new directions for ecofeminist thought an example of what Whiteheadians call the process of creative transformation **Connecting Ecologies** Patrick Riordan, Gavin

Flood, 2024-06-03 **Connecting Ecologies** focuses on the environmental aspects of Pope Francis encyclical *Laudato Si* and the challenge to care for our common home It considers how best to devise and implement the new societal models needed to tackle the ecological problems facing the world today The book addresses the need for and complexity of an integral ecology one that looks not only at physical and biological processes but also allows for the contributions of theology philosophy spirituality and psychology including the implications for the human and social sciences The contributions document four categories of resonances resources requirements and responses evoked by a reading of *Laudato Si* and include consideration of other faith traditions They reflect on how care for our common home motivates people in different places cultures and professions to cooperate for myriad goods in common The volume is particularly relevant for scholars working in religious studies and theology with an interest in ecology the environment and the Anthropocene
