Democracy And Tradition Democracy And Tradition:

Democracy and Tradition Jeffrey Stout, 2004 Asking how the citizens of modern democracy can reason with one another this book carves out a controversial position between those who view religious voices as an anathema to democracy and those who believe democratic society is a moral wasteland because such voices are not heard

Law, Religion and Tradition Jessica Giles, Andrea Pin, Frank S. Ravitch, 2018-09-27 This book explores different theories of law religion and tradition from both a secular and a religious perspective It reflects on how tradition and change can affect religious and secular legal reasoning identifying the patterns of legal evolution within religious and secular traditions It is often taken for granted that even in law change corresponds and correlates to progress that things ought to be changed and they will necessarily get better There is no doubt that legal changes over the centuries have made it possible to enhance the protection of individual rights and to somewhat contain the possibility of tyranny and despotism But progress is not everything in law stability and certainty lie at the core of the rule of law Similarly religions and religious laws could not survive without traditions and yet they still evolve and their evolution is often intermingled with secular law The book asks and in some ways answers the questions What is the role of tradition within religions and religious laws What is the impact of religious traditions on secular laws and vice versa How are the elements of tradition to be identified Are they the same within the secular and the religious realm Do secular law and religious law follow comparable patterns of change Do their levels of resilience differ significantly How does the history of religion and law affect changes within religious traditions and legal systems The overall focus of the book addresses the extent to which tradition plays a role in shaping and re shaping secular and religious laws as well as their mutual boundaries

The Political Problem of Religious Pluralism Thaddeus J. Kozinski, 2012-07-10 In contemporary political philosophy there is much debate over how to maintain a public order in pluralistic democracies in which citizens hold radically different religious views The Political Problem of Religious Pluralism deals with this theoretically and practically difficult issue by examining three of the most influential figures of religious pluralism theory John Rawls Jacques Maritain and Alasdair MacIntyre Drawing on a diverse number of

sources Kozinski addresses the flaws in each philosopher's views and shows that the only philosophically defensible end of any overlapping consensus political order must be the eradication of the ideological pluralism that makes it necessary. In other words a pluralistic society should have as its primary political aim to create the political conditions for the communal discovery and political establishment of that unifying tradition within which political justice can most effectively be obtained. Kozinski's analysis though exhaustive and rigorous still remains accessible and engaging even for a reader unversed in the works of Rawls, Maritain and MacIntyre. Interdisciplinary and multi thematic in nature it will appeal to anyone interested in the intersection of religion, politics and culture.

Democracy's Education Harry C. Boyte, 2021-04-30 Today Americans feel powerless in the face of problems on every front. Such feelings are acute in higher education where educators are experiencing an avalanche of changes: cost cutting, new technologies and demands that higher education be narrowly geared to the needs of today's workplace. College graduates face mounting debt and uncertain job prospects and worry about a coarsening of the mass culture and the erosion of authentic human relationships. Higher education is increasingly seen and often portrays itself as a ticket to individual success, a private good not a public one. Democracy's Education grows from the American Commonwealth Partnership, a year-long project to revitalize the democratic narrative of higher education that began with an invitation to Harry Boyte from the White House to put together a coalition aimed at strengthening higher education as a public good. The project was launched at the beginning of 2012 to mark the 150th anniversary of the Morrill Act which created land grant colleges. Beginning with an essay by Harry C. Boyte, *Reinventing Citizenship as Public Work*, which challenges educators and their partners to claim their power to shape the story of higher education and the civic careers of students, the collection brings world famous scholars, senior government officials and university presidents together with faculty, students, staff, community organizers and intellectuals from across the United States and South Africa and Japan. Contributors describe many constructive responses to change already taking place in different kinds of institutions and present cutting edge ideas like civic science, civic studies, citizen professionalism and citizen alumni. Authors detail practical approaches to making change from new faculty and student roles to changes in curriculum and student life and strategies for everyday citizen empowerment. Overall the work develops a democratic story of education urgently needed to address today's challenges from climate change to growing inequality.

Tradition and Modernity Kwame Gyekye, 1997-08-28 In this important and pioneering book, Kwame Gyekye examines postcolonial African experience from a viewpoint receptive to aspects of both traditional African cultures and Western political and moral theory. African people, in their attempt to evolve ways of life compatible with an increasingly globalized world, cultural, intellectual, and political scene, face a number of unique societal challenges. Some, stemming from traditional African values and practices, others representing the legacy of European colonialism. Enlisting Western political and philosophical concepts to clear comparative advantage, Gyekye addresses a wide range of concrete problems afflicting postcolonial African states, such as ethnicity and nation building, the relationship of tradition to modernity, the relationship of the nation state to

community the nature of political authority and political legitimation political corruption and the threat to traditional moral and social values practices and institutions in the wake of rapid social change With striking flexibility and rare insight Gyekye assesses the value of both traditional and non African cultural components for the future of African societies and proposes alternative social and political models capable of forging a modernity appropriate for Africa The resulting book Tradition and Modernity Philosophical Reflections on the African Experience is a brilliant new contribution to postcolonial theory and will be of deep interest to scholars of political and moral philosophy cultural studies and African philosophy and politics and to anyone else concerned with the efforts of non Western societies to properly modernize

 Sang-Jin, 2017-11-08 The book is a collection of texts by the late former President of the Republic of Korea and Nobel Peace

 relationship with Kim as well as expert scholarly understanding of its academic and philosophical value The Black
 Humanist Tradition in Anti-Racist Literature Alexandra Hartmann, 2023-05-13 This book presents an intellectual history and
 theoretical exploration of black humanism since the civil rights era Humanism is a human centered approach to life that
 considers human beings to be responsible for the world and its course of history Both the heavily theistic climate in the
 United States as well as the dominance of the Black Church are responsible for black humanism s existence in virtual
 oblivion For those who believe the world to be one without supernatural interventions human action matters greatly and is
 the only possible mode for change Humanists are thus committed to promoting the public good through human effort rather
 than through faith Black humanism originates from the lived experiences of African Americans in a white hegemonic society
 Viewed from this perspective black humanist cultural expressions are a continuous push to imagine and make room for
 alternative life options in a racist society Alexandra Hartmann counters religion s hegemonic grasp and uncovers black
 humanism as a small yet significant tradition in recent African American culture and cultural politics by studying its impact
 on African American literature and the ensuing anti racist potentials The book demonstrates that black humanism regards
 subjectivity as embodied and is thus a worldview that is characterized by a fragile hope regarding the possibility of progress

A Thicker Jesus Glen Harold Stassen,2012-10-25 Why have some Christians such as Dietrich Bonhoeffer and Martin Luther King Jr been able to speak truth to power at great personal cost while others readily capitulate to injustice In this magnum opus Christian ethicist Glen Stassen argues that such robust Christianity stems from believing in a thicker Jesus who is Lord over the whole of life and not just one compartment of it Belief in this thicker Jesus results in incarnational discipleship and can help Christians deal with the challenges of what Charles Taylor has identified as a secular age Stassen elegantly weaves the characteristics of incarnational discipleship as correctives to secularism

around the ubiquitous African practice of public deliberation a widely accepted means to resolve legal matters reconcile feuding groups and reestablish harmony In cities hometown associations and voluntary organizations carry out the task of fostering deliberation among African groups for different reasons In some instances the deliberation aims to settle disputes In others the aim is to decide the best action to take to address unfortunate incidents such as death Through a measured comparative analysis Deliberative Agency argues that the best way to reimagine and harness the idea of public deliberation based on current experiences in Africa is to see it as performance of agency Building a new political center around the practice places agency at the core of a new political life in Africa
