## **Democratic Rights Democratic Rights:**

**The Charter of Rights and Freedoms** Ian Greene, 2014-11-18 Canadas Charter of Rights and Freedoms has transformed Canadian life since it was adopted as part of the Canadian constitution in 1982 The Charter requires judges to make decisions on a wide range of issues that affect all Canadians In doing so the courts play a major role in citizens lives Because of the Charter The law against prostitution was struck down The Harper governments treatment of child soldier Omar Khadr was found to violate his rights Vancouvers Insite safe injection site was kept open overriding a federal government decision requiring it to shut down Ian Greene is a political scientist and his focus in this book is to highlight the many significant ways the Charter shapes Canadian life After providing background on the creation and implementation of the Charter he describes its impact on a wide range of issues aboriginal affairs voting rights freedom of religion the right to strike and language rights among others Greene describes key decisions in these areas and comments on the often conflicting views of the judges deciding them Even though the Charter is a legal document debated by lawyers and decided by judges Greene approaches his subject with an eye on the political impact the Charter has on governments and ordinary citizens Public discussion of the Charter is often framed around the question of who should make these important decisions elected politicians or unelected judges This book provides a clear understanding of how the Charter works and how ordinary citizens have succeeded or failed to win change from the courts It offers information that people on every side of public discussion can use regarding the role of the Charter in Canadian life

Democracy after Virtue Sungmoon Kim, 2018-05-11 Is Confucianism compatible with democracy Ongoing debates among political theorists revolve around the question of whether the overarching goal of Confucianism serving the people s moral and material well being is attainable in modern day politics without broad democratic participation and without relying on a one person one vote system One side of the debate voiced by traditional Confucian meritocrats argues that only certain people are equipped with the moral character needed to lead and ensure broad public well being They emphasize moral virtue over civic virtue and the family over the state as the quintessential public institution Moreover they believe that a system of rule headed by meritorious elites can better handle complex modern public affairs than representative democracy The other side voiced by Confucian democrats argues that unless all citizens participate equally in the public sphere the kind of moral growth Confucianism emphasizes cannot be fully attained Despite notable differences in political orientation scholars of both positions acknowledge that democracy is largely of instrumental value for realizing Confucian moral ends in modern society It would seem that Confucians of both types have largely dismissed democracy as a political system that can mediate clashing values and political views or even that Confucian democracy is a system marked by pluralism In this book Sungmoon Kim lays out a normative theory of Confucian democracy pragmatic Confucian democracy to address questions of the right to political participation instrumental and intrinsic values of democracy democratic procedure and substance punishment and criminal justice social and economic justice and

humanitarian intervention As such this project is not only relevant to the much debated topic of Confucian democracy as a cultural alternative to Western style liberal democracy in East Asia but it further investigates the philosophical implications of the idea and institution of Confucian democracy in normative democratic theory criminal justice distributive justice and just war Ultimately Kim shows us that the question is not so much about the compatibility of Confucianism and democracy but of how the two systems can benefit from each other **Contemporary Moral and Social Issues** ,2014-04-15

Contemporary Moral and Social Issues is a uniquely entertaining introduction that brings ethical thought to life It makes innovative use of engaging topically oriented original short fiction together with classic and influential readings and editorial discussion as a means of helping students think philosophically about ethical theory and practical ethical problems Introduces students to ethical theory and a range of practical moral issues through a combination of key primary texts clear editorial commentary and engaging original fiction Includes discussion of topics such as world poverty abortion animals the environment and genetic engineering containing Facts and Factual Issues for each topic to give students an up to date understanding of related factual issues Uses immersive original short works of fiction as a means to engage students to think philosophically about serious ethical issues Sample Course Framework available *Universal Human Rights* David A. Reidy,Mortimer N. S. Sellers,2005-07-21 *Universal Human Rights* brings new clarity to the important and highly contested concept universal human rights The Charter of the United Nations commits nearly all nations of the world to promote to realize and take action to achieve human rights and fundamental freedoms for all yet this formal consensus masks an underlying confusion about the philosophical basis and practical implications of rights in a world made up of radically different national communities This collection of essays explores the foundations of universal human rights in four sections devoted to their nature application enforcement and limits concluding that shared rights help to constitute a universal human community which supports local customs and separate state sovereignty Rights protect the benefits of cultural diversity while recognizing the universal dignity that every human life deserves The eleven contributors to this volume demonstrate from their very different perspectives how human rights can help to bring moral order to an otherwise divided world

**Ethics and Social Survival** Milton Fisk,2016-05-20 When speaking of society s role in ethics one tends to think of society as regimenting people through its customs Ethics and Social Survival rejects theories that treat ethics as having justification within itself and contends that ethics can have a grip on humans only if it serves their deep seated need to live together It takes a social survival view of ethical life and its norms by arguing that ethics looks to society not for regimentation by customs but rather for the viability of society Fisk traces this theme through the work of various philosophers and builds a consideration of social divisions to show how rationalists fail to realize their aim of justifying ethical norms across divisions The book also explores the relation of power and authority to ethics without simply dismissing them as impediments and explains how personal values such as honesty modesty and self esteem still retain ethical

importance Finally it shows that basing ethics on avoiding social collapse helps support familiar norms of liberty justice and democracy and strives to connect global and local ethics

**The Elections in Israel 2013** Michal Shamir, 2017-09-08 The elections for Israel's nineteenth Knesset were held on January 22 2013 This volume offers an in depth analysis of Israel's 2013 elections from various perspectives It presents an up to date picture of the complexity of Israeli democracy and its challenges achievements and failures The chapters in this collection shed light on different facets of Israeli democracy Yaron Ezrahi provides a sceptical perspective on prospects for democracy Gayil Talshir explains the party system's slowness to respond to citizen demands and to social movements Michal Shamir and Keren Weinshall Margel explore the politics of the right to be elected to the Knesset Nir Atmor and Chen Friedberg highlight the decline in participation in Knesset elections in the Periphery versus the Center Assaf Shapira and Gideon Rahat reveal the complexity of inter party democracy Dganit Ofek analyses the stability of government coalitions Gal Levy examines Mizrahi Jews and the Shas Party Mtanes Shihadeh discusses the voting patterns of Israeli Arabs Asher Cohen focuses on religious Zionism and the success of the renewed Jewish Home Party Michal Shamir and Einat Gedalya Lavy document a gender gap in voting Elections in Israel 2013 analyses the give and take between the public and its leaders that is at the heart of elections In doing so it illuminates the role of elections in providing representation for different groups in Israeli society and in giving voice to their political choices

*Indigenous Peoples and Constitutional Reform in Australia* Bede Harris, 2023-12-01 This book examines whether Australia's constitution should be reformed so as to enable the country to fulfil its obligations under the United Nations Declaration on the Rights of Indigenous Peoples which it ratified in 2009 The book surveys the history of the constitutional status of Australia's Indigenous peoples from the time of colonisation through to the current debate on Indigenous constitutional recognition However it argues that the term Indigenous constitutional recognition implying that mere acknowledgement of the existence of Indigenous peoples is sufficient to meet their legitimate expectations misrepresents the nature of the project the country needs to engage in The book argues that Australia should instead embark upon a reform programme directed towards substantive and not merely symbolic constitutional change It argues that only by the inclusion in the constitution of enforceable constitutional rights can the power imbalance between Indigenous Australians and the rest of society be addressed Taking a comparative approach and drawing upon the experience of other jurisdictions the book proposes a comprehensive constitutional reform programme and includes the text of constitutional amendments designed to achieve the realisation of the rights of Australia's Indigenous peoples It ends with a call to improve the standard of civics education so as to overcome voter apprehension towards constitutional change

*Liberal Interventionism and Democracy Promotion* Dursun Peksen, 2012 Despite growing interest in democracy promotion the nature and extent of external factors impact on democratic transitions to date remains understudied The question of what works under what circumstances is still intensely contested among academics policy makers and practitioners Liberal Interventionism and Democracy Promotion edited by

Dursun Peksen contributes to the study of international democracy promotion exploring the extent to which various forms of foreign interventions and policy actors that advocate political liberalization affect the spread of democracy The contributors in this study specifically address issues highly relevant to the academic research and policymaking including the evaluation of the efficacy of four major tools economic sanctions foreign aid external armed interventions and soft power that are often used to advance political liberalization in authoritarian regimes The book also assesses the performance of four major non state actors the International Monetary Fund the United Nations the European Union and transnational human rights organizations that have become increasingly influential in advocating the spread of civil liberties and political rights Liberal Interventionism and Democracy Promotion s comprehensive assessment of the efficacy of major policy instruments and actors that advocate political liberalization offers a greater understanding of what works best and when in the practice of democracy promotion This collection is an essential contribution to the study of democracy promotion and international relations

**NEET UG Biology Study Notes (Volume-2) with Theory + Practice MCQs for Complete Preparation - Based on New Syllabus as per NMC | Includes A&R and Statement Type Questions** EduGorilla Prep

Experts,2023-09-14 EduGorilla s CBSE Class IX Social Science Study Notes are the best selling notes for Class IX exams Their content is well researched and covers all topics related to CBSE Class IX Social Science The notes are designed to help students prepare thoroughly for their exams with topic wise notes that are comprehensive and easy to understand The notes also include solved multiple choice questions MCQs for self evaluation allowing students to gauge their progress and identify areas that require further improvement These notes include Topics such as History Geography Political Science and Economy These notes are perfect for understanding the pattern and type of questions asked by CBSE These study notes are tailored to the latest syllabus of CBSE Class IX Social Science exams making them a valuable resource for exam preparation Must Politics Be War? Kevin Vallier,2018-12-14 Americans today are far less likely to trust their institutions and each other than in decades past This collapse in social and political trust arguably fuels our increasingly ferocious ideological conflicts and hardened partisanship Many believe that our previously high levels of trust and bipartisanship were a pleasant anomaly and that we now live under the historic norm Seen this way politics itself is nothing more than a power struggle between groups with irreconcilable aims contemporary American politics is war because political life as such is war Must Politics Be War argues that our shared liberal democratic institutions have the unique capacity to sustain social and political trust between diverse persons In succinct convincing prose Kevin Vallier argues that constitutional rights and democratic governance prevent any one ideology or faith from dominating all others thereby protecting each person s freedom to live according to her values and principles Illiberal arrangements where one group s ideology or faith reigns turn those who disagree into unwilling subversives persons with little reason to trust their regime or to be trustworthy in obeying it Liberal arrangements in contrast incentivize trust and trustworthiness because they allow people with diverse and divergent ends to act with

conviction Those with opposing viewpoints become trustworthy because they can obey the rules of their society without acting against their ideals Therefore as Vallier illuminates a liberal society is one at moral peace with a politics that is not war *Annual Report* United States. Congress. House. Committee on Un-American Activities,1958 *The Notwithstanding Clause and the Canadian Charter* Peter L. Biro,2024-04-02 Section 33 what is commonly referred to as the notwithstanding clause NWC was written into the Canadian Charter of Rights and Freedoms to allow Parliament and the provinces to provisionally override certain Charter rights The Notwithstanding Clause and the Canadian Charter examines the NWC from all angles and perspectives considering who should have the last word on matters of rights and justice the legislatures or the unelected judiciary and what balance liberal democracy requires In the case of Quebec the use of the clause has been justified as necessary to preserve the province s culture and promote its identity as a nation Yet Quebec s pre emptive and sweeping invocation of the clause also challenges the scope of judicial review and citizens recourse to it and it tests the assumption that a dialogue between the judiciary and the legislature is always preferable in instances in which the legislative branch decides to suspend the operation of certain Charter rights and freedoms By virtue of its contested purposes interpretations operation and applications the NWC represents and to an extent defines both the character and the very real vulnerabilities of liberal constitutionalism in Canada The significance effects and legitimacy of the NWC have been vigorously debated within scholarship and among politicians and activists since the patriation of the Canadian Constitution in 1982 In *The Notwithstanding Clause and the Canadian Charter* leading scholars jurists and policy experts elucidate and prescribe reforms to the application of this consequential clause about which so much is written and around which there is relatively little consensus *Philosophy and Democracy* Thomas Christiano,2003-02-13 This volume collects some of the leading essays in contemporary democratic theory published in the past thirty years The anthology presents the work of a select group of contributors including Peter Singer Joshua Cohen Ronald Dworkin Richard Arneson and others and covers many foundational approaches defended by scholars from a range of different disciplines The chapters address many issues that are central to philosophical reflections on democracy such as questions pertaining to deliberative and economic approaches as well as to such topics as intrinsic fairness the role of equality in relation to minority groups and the limits of democracy Covering representative work in economics political science legal theory and philosophy this comprehensive volume is suited to courses in political theory and political philosophy *Pink Triangles* Pam Mitchell,2018-10-02 To link socialism and lesbianism is to link the unpopular with the taboo Though the interpretations of the interplay between sexism and capitalism between the personal and the political vary across this spectacularly wide ranging collection each essay shares two fundamental premises First that the oppression of gays and lesbians is not an isolated case and therefore their struggle is necessarily part of a larger movement for social liberation And second that the experience of gays and lesbians uphold the basic tenants of a foundational marxism and that they are uniquely placed to contribute to a revitalization of marxist theory

**Gender, Human Rights and Environment** Rachna Suchinmayee, 2008 The Book Employs An Interdisciplinary Approach To The Study Of Pertinent Social Issues An Analysis Is Made Of The Conditions Of Unequal Socio Economic Existence And The Struggles Against Exploitation In The Context Of Traditional Hierarchical Structures Of Caste Class Gender And Ethnicity It Gives An Enhanced Understanding Of The Indian Social Reality And The Emerging Social Processes Divided Into Three Sections Gender Human Rights And Environment The Book Also Brings Out An Interconnection Between Them And Presents A Cross Comparative Analysis It Would Elicit Interest Of The Academicians As Well As Those Appearing For The Competitive Examinations An Effort Is Made To Sharpen The Skills Of The Students So As To Enable Them To Understand The Social Milieu From A Critical Standpoint It Will Serve As A Valuable Reference Source For All Those Concerned With The Study Of Political Science Sociology And Environment

**Constitutionalism and Democracy** Richard Bellamy, 2017-07-05 Constitutionalism and democracy have been interpreted as both intimately related and intrinsically opposed On the one hand constitutions are said to set out the rules of the democratic game on the other as constraining the power of the demos and their representatives to rule themselves including by reforming the very processes of democracy itself Meanwhile constitutionalists themselves differ on how far any constitution derives its authority from and should itself be subject to democratic endorsement and interpretation They also dispute whether constitutions should refer solely to democratic processes or also define and limit democratic goals Each of these positions produces a different view of judicial review the content and advisability of a Bill of Rights and the nature of constitutional politics These differences are not simply academic positions but are reflected in the different types of constitutional democracy found in the United States continental Europe Britain and many commonwealth countries The selected essays explore these issues from the perspectives of law philosophy and political science A detailed and informative introduction sets them in the context of contemporary debates about constitutionalism
