Livres hebdo, 2008 *La Démocratie face à Wall Street* Pablo Iglesias, 2015-09-30 Podemos le mouvement espagnol des Indignés est devenu la troisième force politique nationale en moins de deux ans Mais face au parti de Wall Street son leader Pablo Iglesias préfère la stratégie subtile du jeu d'échecs la violence d'un combat de boxe perdu d'avance Sa généralisation celle des trentenaires est en état d'urgence Elle possède la fraîcheur et l'enthousiasme qu'ont perdus les partis politiques traditionnels Dès l'œuvre dans les mairies de Madrid et Barcelone elle appelle une refondation démocratique de l'Europe et de la zone euro Ce livre interpelle les jeunes Européens souvent en marge de la politique conventionnelle mais qui veulent une régulation pacifique la crise et non le chaos La généralisation des Indignés ne veut plus se tromper d'ennemi et revenir par-delà le choc grec d'une nouvelle Europe légitime et démocratique Pablo Iglesias Turrión 37 ans est professeur de science politique à l'université de Madrid et secrétaire général du mouvement Podemos issu en 2011 des protestations des Indignés de la Puerta del Sol Madrid Traduit de l'espagnol par Amandine Py **Le Monde**, 2001 **Wall Street's Assault on Democracy** Georges Ugeux, 2023-11-22 On November 24 2020 in the midst of a global pandemic the Dow Jones Index surpassed 30 000 points for the first time ever This historic moment exposed the incredible disconnect between financial markets and society The stock market's one hundred percent rebound was triggered by a massive injection of capital by the US Federal Reserve and by fiscal stimulus measures that reached 16 trillion globally in only a year It was the taxpayer who came to the aid of the

shareholders This imbalance between low and high income individuals has become unbearable and calls into question the mechanisms that allow such an abuse of financial power to exist This abuse has allowed populism to flourish in a world where humanism should prevail This book invites the reader to understand how such a financial drift of capitalism was even possible and proposes reforms to correct the system Written by the former Group Executive Vice President for International Research at the New York Stock Exchange this volume provides concrete solutions for democratizing financial markets and reintroducing the morals and ethics that these markets and its leaders are so sorely lacking Ugeux argues that the purpose of such reforms is to reduce the inequalities which are plaguing our democracies Citizens are losing hope that equity exists in the system and it has become clear as fundamental liberties like right voting rights are being threatened that the problem lies much deeper Ugeux insists that a change of perspective and a redefinition of societal goals is essential social and solidarity capitalism is possible only if our leaders listen to the expectations of their citizens While it is supported by research and facts this book includes elements of opinion essays with an educational objective It aims to educate readers who want to better understand these complex issues without having to be specialists

Democracy At Risk Jeffrey R. Gates,2000-05-18

From the leading voice in the shared capitalism movement comes a manifesto for spreading wealth and creating a truly democratic society

When Wall Street Met Main Street Julia C. Ott,2011-06-01

The financial crisis of 2008 made Americans keenly aware of the impact Wall Street has on the economic well being of the nation and its citizenry Ott shows how the government corporations and financial institutions transformed stock investment from an elite to a mass practice at the beginning of the twentieth century

Democracy At Risk Jeff Gates,2001-04-20 A bible for a powerful populism that will arise after the latest Gilded Age is over Read it and run or read it and recover your sense of what it could mean to actually live in a democratic society Paul Hawken author Natural Capitalism and The Ecology of Commerce Gates offers an ambitious populist vision You may not like its answers but you can't ignore the questions Cheryl Dahle Fast CompanyA political economic manifesto for the new millennium This persuasive and well documented work will generate thoughtful discussion Library JournalCiting alarming statistics Jeff Gates convincingly argues that the current economic boom is largely a mirage buoyed by policies that continue to reward the wealthy and punish the poor With equal measures of passion and incisive reasoning he proposes an ambitious yet practical program of financial political and economic reform

The Captured Republic JOSH. LUBERISSE,2025-05-22 Over the last forty years Citigroup JPMorgan Chase and a handful of equally powerful institutions have quietly captured the American republic They began by persuading Congress to melt the regulatory guardrails erected after the Depression They perfected a culture in which legal boundaries became negotiable and public penalties a routine cost of doing business Each scandal junk bonds savings and loan bailouts the Mexican peso crisis became a stepping stone to greater scale deeper political donations and tighter entanglement with the machinery of government The Captured Republic is the definitive chronicle of that ascent Drawing on sealed court filings internal audit memos and whistle

blower testimony it follows the banks from the first quiet bailout of Penn Central in 1970 to the subprime implosion of 2008 and the 2020 pandemic backstop that pumped trillions into Wall Street's balance sheets. It unpacks how LIBOR, foreign exchange and metals benchmarks were rigged in plain sight, how exotic derivatives migrated into taxpayer-insured banks and why settlements now replace prosecutions even for repeat felons. The evidence leads to a stark conclusion: these firms are no longer merely too big to fail. They are too dangerous to leave intact, too politically wired to prosecute and too interconnected to unwind without systemic trauma. Unless structural remedies—functional Glass-Steagall walls, anti-monopoly caps, real executive liability—are enacted soon, another crisis is not just possible but inevitable, and the public will once again foot the bill for wagers it never authorized. Combining investigative depth with clear storytelling, this book reframes high finance as a public health crisis, an invisible toxin that corrodes democratic institutions and widens inequality long before the markets crash. It closes with a concrete, non-partisan blueprint for reclaiming economic sovereignty and restoring the rule of law. A call to arms for citizens across the spectrum. *The Captured Republic* charts the concrete reforms, structural, legal, democratic, needed to reclaim the financial system before it claims us.
