State, Foreign Operations, and Related Programs Appropriations for 2017 United States. Congress. House. Committee on Appropriations. Subcommittee on State, Foreign Operations, and Related Programs, 2016 *US Presidential Doctrines Handbook - Volume 1 President Barack Obama Doctrine - Strategic Information and Materials* IBP, Inc., 2017-01-11 US Presidential Doctrines Handbook Reagan Carter Clinton Bush Obama **SIPRI Yearbook 2015** Stockholm International Peace Research Institute, 2015-10 The 46th edition of the SIPRI Yearbook analyses developments in 2014 in security and conflicts military spending and armaments non proliferation arms control and disarmament Resurgent Russia R. Reed Anderson, Patrick J. Ellis, Antonio M. Paz, Kyle A. Reed, Lendy "Alamo" Rodriguez, John T. Vaughan, 2017-11-21 Relations between the United States and Russia have recently escalated from strained to outright aggressive From imperial expansion in Ukraine to intervention in Syria to Russian hacking during the US election in 2016 it is clear that the United States must be prepared to defend itself and its NATO allies against Russian aggression Resurgent Russia researched and written by six residents and internationally experienced officers at the US Army War College analyzes the current threat of Russian acts of war both conventional military attacks and unconventional cyber warfare or political attacks against the United States and NATO The officers detail how the America can use its international military resources and political influence to both prepare for and deter aggression ordered by Vladimir Putin making it clear that such an attack would be unsuccessful and therefore keeping the peace This study provides a clear assessment of how the United States and its allies must utilize their political and military power to deter Russian aggression and maintain the hierarchy of power in today's world **Refuge beyond Reach** David Scott FitzGerald, 2019-03-14 Refuge beyond Reach shows how rich democracies deliberately and systematically shut down most legal paths to safety Media pundits politicians and the public are often skeptical or ambivalent about granting asylum They fear that asylum seekers will impose economic and cultural costs and pose security threats to nationals Consequently governments of rich democratic countries attempt to limit who can approach their borders which often leads to refugees breaking immigration laws In Refuge beyond Reach David Scott FitzGerald traces how rich democracies have deliberately and systematically shut down most legal paths to safety Drawing on official government documents information obtained via WikiLeaks and interviews with asylum seekers he finds that for ninety nine percent of refugees the only way to find safety in one of the prosperous democracies of the Global North is to reach its territory and then ask for asylum FitzGerald shows how the US Canada Europe and Australia comply with the letter of law while violating the spirit of those laws through a range of deterrence methods first designed to keep out Jews fleeing the Nazis that have now evolved into a pervasive global system of remote control While some of the most draconian remote control practices continue in secret FitzGerald identifies some pressure points and finds that a diffuse humanitarian obligation to help those in need is more difficult for governments to evade than the law alone Refuge beyond Reach addresses one of the world's most pressing

challenges how to manage flows of refugees and other types of migrants and helps to identify the conditions under which individuals can access the protection of their universal rights **State, Foreign Operations, and Related Programs**

Russian efforts to manipulate the results of the 2016 presidential election and have become increasingly concerned about the vulnerabilities of our democracy Here for the first time in an official U S government report is the fascinating and detailed account of how ex KGB agent Vladimir Putin has used computer hackers official state spy agencies and even Russian organized crime thugs over the past thirty years to achieve his policy agenda not only for Russian political domination but also for his own enrichment and the enrichment of the oligarchs who control almost all aspects of the Russian economy This complete report includes chapters on Putin s Rise and Motivations Manipulation and Repression Inside Russia Old Active Measures and Modern Malign Influence Operations Weaponization of Civil Society Ideology Culture Crime and Energy Kremlin Interference in Semi Consolidated Democracies and Transitional Governments Kremlin Interference in Consolidated Democracies Multilateral and U S efforts to Counter the Kremlin s Asymmetric Arsenal In Putin s Asymmetric Assault on Democracy in Russia and Europe we learn about Vladimir Putin s rise to power through the KGB to mayor of St Petersburg and eventually as head of the Russian state We discover the history of how Putin used classic Cold War KGB tactics by weaponizing civil society culture ideology and Russia s criminal element against the nascent Russian democracy by cultivating and using ties to NGOs thinktanks extremist political groups the Russian orthodox church industrial and energy policy and the Russian Mafia We also see how the Kremlin then exported this political extortion intimidation and monetary corruption first to its Eastern European neighbors then their western partners in the European Union and how it has now landed on America s shores Just as certain people in the intelligence community became increasingly alarmed at the growing strength and sophistication of Al Qaeda in the late 1990s the senators and staffers of the U S Senate Committee on Foreign Relations are giving the nation fair warning of a 9 11 level assault on the United States this time by Russia s spy agencies Putin s Asymmetric Assault on Democracy in Russia and Europe reveals not only the history of Russia s devastating tactics but how to recognize and counter them [United States Statutes at Large](#) United States,2014 [Journal of the House of Representatives of the United States](#) United States. highly publicized focus on a wall between the United States and Mexico misses the bigger picture of strengthening border enforcement around the world Empire of Borders is a tremendous work of narrative investigative journalism that traces the rise of this border regime It delves into the practices of extreme vetting which raise the possibility of ideological tests and cyber policing for migrants and visitors a level of scrutiny that threatens fundamental freedoms and allows once again for America s security concerns to infringe upon the sovereign rights of other nations In Syria Guatemala Kenya Palestine Mexico the Philippines and elsewhere Miller finds that borders aren t making the world safe they are the frontline in a global war against the poor
