The Anthropology of Postindustrialism Ismael Vaccaro, Krista Harper, Seth Murray, 2015-10-08 This volume explores how mechanisms of postindustrial capitalism affect places and people in peripheral regions and de industrializing cities

While studies of globalization tend to emphasize localities newly connected to global systems this collection in contrast analyzes the disconnection of communities away from the market presenting a range of ethnographic case studies that scrutinize the framework of this transformative process analyzing new social formations that are emerging in the voids left behind by the de industrialization and introducing a discussion on the potential impacts of the current economic and ecological crises on the hyper mobile model that has characterized this recent phase of global capitalism and spatially uneven development *Handbook on Space, Place and Law* Robyn Bartel,Jennifer Carter,2021-04-30 This innovative Handbook provides an expansive interrogation of the spaces and places of law exploring how we engage relationally in a material world within which we are inter dependent and reliant and governed by laws in a dynamic process It advances novel insights into the numerous intersections of space place and law in our lives **Research Handbook on Transnational Environmental Law** Veerle Heyvaert,Leslie-Anne Duvic-Paoli,2020-11-27 This illuminating Research Handbook offers a detailed overview and critical discussion of the key themes and perspectives that characterize the burgeoning research area of transnational environmental law Varied perspectives from leading and emerging scholars are brought together to deliver methodological and conceptual frameworks for future research whilst providing an original view on this emerging field of law

The Field Guide to Mixing Social and Biophysical Methods in Environmental Research Rebecca Lave,Stuart Lane,2025-02-25 Despite ongoing debates about its origins the Anthropocene a new epoch characterized by significant human impact on the Earth s geology and ecosystems is widely acknowledged Our environment is increasingly a product of interacting biophysical and social forces shaped by climate change colonial legacies gender norms hydrological processes and more Understanding these intricate interactions requires a mixed methods approach that combines qualitative and quantitative biophysical and social research However mixed methods environmental research remains rare hindered by academic boundaries limited training and the challenges of interdisciplinary collaboration Time funding and the integration of diverse data further complicate this research whilst the dynamics and ethics of interdisciplinary teams add another layer of complexity Despite these challenges mixed methods research offers a more robust and ultimately transformative understanding of environmental questions This Field Guide aims to inspire and equip researchers to undertake such studies Organized like a recipe book it assists researchers in the preparation of their field work as well as offering entry points to key methods and providing examples of successful mixed methods projects This book will be of interest to scholars wishing to tackle environmental research in a more holistic manner spanning sister disciplines such as anthropology statistics political science public health archaeology geography history ecology and Earth science **Environmental, Social, Governance and Digital Transformation in Organizations** Andreia de bem Machado,Maria Jose Sousa,Andrea Brambilla,Antonio Pesqueira,Alvaro Rocha,2025-06-07 This book investigates the dynamic interaction between environmental social and governance ESG programs and digital transformation addressing important themes such as corporate governance ethical

leadership stakeholder engagement and sustainability in a digital age Exploring a range of sectors it examines the impact of AI on governance child protection and smart cities along with the integration of ESG strategies in healthcare waste management and Industry 4.0 Through case studies and analysis he highlights challenges such as technological stress while offering insights into sustainable business ecosystems strategic leadership and transparency The 22 chapter book bridges the gap between academia and the sector presenting innovative frameworks and practical solutions to promote resilient ethical and sustainable digital transformation
