## **Environmentalism A Global History:**

Environmentalism Ramachandra Guha,2000 This text provides a cross cultural and global survey of environmental thinking and the movements it has spawned    ENVIRONMENTALISM RAMACHANDRA. GUHA,2016    *The Environment in World History* Stephen Mosley,2023-11-03 Now in its second edition and refreshed by a decade of new research The Environment in World History uncovers the deep rooted causes of interconnected climate biodiversity and ecological crises that have brought the environment to the top of the global political agenda in the twenty first century Its expanded chapters and case studies explore a wide range of issues including the following the hunting of wildlife and the loss of biodiversity across the globe deforestation and the development of strategies to protect the world s forests soil degradation caused by worldwide agricultural expansion one of the most profound ways that humans have altered the planet the widening impact of urban industrial growth and the deepening ecological footprints of the world s cities and the rising levels of air land and water pollution as the trade off for continued economic growth worldwide Covering the last five hundred years it offers an essential environmental perspective on well known world history narratives of imperialism and colonialism trade and commerce technological progress and the advance of civilisation Clearly written and fully up to date it is an invaluable resource for all students of world history and environmental studies

**Environmentalism and Global International Society** Robert Falkner,2021-07-15 Environmentalism and Global International Society reveals how environmental values and ideas have transformed the normative structure of international relations Falkner argues that environmental stewardship has become a universally accepted fundamental norm or primary institution of global international society He traces the history of environmentalism s rise from a loose set of ideas originating in the nineteenth century to a globally applicable norm in the twentieth century which has come to redefine international legitimacy and states global responsibilities He shows how this deep norm change came about as a result of the interplay between non state and state actors and how the new environmental norm has interacted with the existing primary institutions of global international society most notably sovereignty and territoriality diplomacy international law and the market This book shifts the attention from the presentist focus in the study of global environmental politics to the longue duree of global norm change in the greening of international relations

**The Environment and World History** Edmund Burke III,Kenneth Pomeranz,2009-04-08 Since around 1500 C E humans have shaped the global environment in ways that were previously unimaginable Bringing together leading environmental historians and world historians this book offers an overview of global environmental history throughout this remarkable 500 year period In eleven essays the contributors examine the connections between environmental change and other major topics of early modern and modern world history population growth commercialization imperialism industrialization the fossil fuel revolution and more Rather than attributing environmental change largely to European science technology and capitalism the essays illuminate a series of culturally distinctive yet often parallel developments

arising in many parts of the world leading to intensified exploitation of land and water The wide range of regional studies including some in Russia China the Middle East India Southeast Asia Latin America Southern Africa and Western Europe together with the book's broader thematic essays makes *The Environment and World History* ideal for courses that seek to incorporate the environment and environmental change more fully into a truly integrative understanding of world history

**A Global History of Literature and the Environment** John Parham, Louise

Westling,2016-12-01 In *A Global History of Literature and the Environment* an international group of scholars illustrate the immense riches of environmental writing from the earliest literary periods down to the present It addresses ancient writings about human animal plant relations from India classical Greece Chinese and Japanese literature the Maya Popol Vuh Islamic texts medieval European works eighteenth century and Romantic ecologies colonial postcolonial environmental interrelations responses to industrialization and the emerging literatures of the world in the present Anthropocene moment Essays range from Trinidad to New Zealand Estonia to Brazil Discussion of these texts indicates a variety of ways environmental criticism can fruitfully engage literary works and cultures from every continent and every historical period This is a uniquely varied and rich international history of environmental writing from ancient Mesopotamian and Asian works to the present It provides a compelling account of a topic that is crucial to twenty first century global literary studies

**A Global History of Modern Historiography** Georg G Iggers,Q. Edward Wang,Supriya Mukherjee,2016-09-01 The first book on historiography

to adopt a global and comparative perspective on the topic *A Global History of Modern Historiography* looks not just at developments in the West but also at the other great historiographical traditions in Asia the Middle East and elsewhere around the world over the course of the past two and a half centuries This second edition contains fully updated sections on Latin American and African historiography discussion of the development of global history environmental history and feminist and gender history in recent years and new coverage of Russian historical practices Beginning in the mid eighteenth century the authors analyse historical currents in a changing political social and cultural context examining both the adaptation and modification of the Western influence on historiography and how societies outside Europe and America found their own ways in the face of modernization and globalization Supported by online resources including a selection of excerpts from key historiographical texts this book offers an up to date account of the status of historical writing in the global era and is essential reading for all students of modern historiography

**The Environment and International History** Scott

Kaufman,2018-12-13 Studies of the history of international relations traditionally have focused on the decisions made by those at the highest levels of government In more recent years scholars have expanded their attention to cover economic cultural or social interactions among nations What has remained largely ignored however is the impact of an increasingly interdependent world upon the environment and conversely how environmental concerns have affected the ecology social

relationships economics and politics at national regional and global levels The Environment and International History fills this gap looking at the interrelationship between international politics and the environment Using a transnational and interdisciplinary approach this book examines how imperialism war and a divergence of interests between the developed and underdeveloped world all have had implications for plants animals and humans worldwide     *A Companion to Global Environmental History* J. R. McNeill,Erin Stewart Mauldin,2025-02-06 A COMPANION TO GLOBAL ENVIRONMENTAL HISTORY Equips both specialists and newcomers with the historical intellectual and political context for engagement with the environment Providing multiple points of entry into a dynamic fast growing field A Companion to Global Environmental History explores the many contours of the relationship between human societies and the natural world on which they depend Bringing together essays by an international roster of both established experts and emerging scholars this volume covers a uniquely broad range of temporal geographic thematic and contextual approaches to the practice of global environmental history Thirty three detailed chapters describe how the relationship between society and nature has changed over time examine the various drivers of change and environmental transformations survey different types of environmental thought and action around the world and more Now in its second edition the Companion is fully revised to reflect major research developments and new trajectories within the field Updated chapters that present new evidence for longstanding debates and innovative applications of environmental history are accompanied by six entirely new chapters on India China Africa early modern cities global environmental governance and European environmentalism Offering fresh insights into environmental thought culture policy and politics A Companion to Global Environmental History Second Edition is an ideal textbook for undergraduate and graduate students and an invaluable reference for scholars researchers and environmental historians

**The Industrial Revolution in World History** Peter N Stearns,2018-04-17 The industrial revolution was the single most important development in human history over the past three centuries and it continues to shape the contemporary world With new methods and organizations for producing goods industrialization altered where people live how they play and even how they define political issues By exploring the ways the industrial revolution reshaped world history this book offers a unique look into the international factors that started the industrial revolution and its global spread and impact In the fourth edition noted historian Peter N Stearns continues his global analysis of the industrial revolution with new discussions of industrialization outside of the West including the study of India the Middle East and China In addition an expanded conclusion contains an examination of the changing contexts of industrialization The Industrial Revolution in World History is essential for students of world history and economics as well as for those seeking to know more about the global implications of what is arguably the defining socioeconomic event of modern times     *Bandung, Global History, and International Law* Luis Eslava,Michael Fakhri,Vasuki Nesiah,2017-11-30 In 1955 a conference was held in Bandung Indonesia that was attended by representatives from twenty nine nations Against the backdrop of crumbling European empires Asian

and African leaders forged new alliances and established anti imperial principles for a new world order The conference came to capture popular imaginations across the Global South and as counterpoint to the dominant world order it became both an act of collective imagination and a practical political project for decolonization that inspired a range of social movements diplomatic efforts institutional experiments and heterodox visions of the history and future of the world In this book leading international scholars explore what the spirit of Bandung has meant to people across the world over the past decades and what it means today It analyzes Bandung s complicated and pivotal impact on global history international law and most of all justice struggles after the end of formal colonialism     *Climate Change and International History* Ruth A.

Morgan,2024-01-25 A 2024 CHOICE OUTSTANDING ACADEMIC TITLE Exploring how climate change has configured the international arena since the 1950s this book reveals the ways that climate change emerged and evolved as an international problem and how states scientists and non governmental organizations have engaged in diplomatic efforts to address it Developing amidst the Cold War decolonization and a growing transnational environmental consciousness it asks how this wider historical context has shaped international responses to the greatest threat to humankind to date Thinking beyond the science of climate change to the way it is received and responded to Ruth Morgan shows how climate science has been mobilised in the political sphere paying particular attention to the North South dynamics of climate diplomacy The privileging of climate science and the mobilisation of climate scepticism are explored to consider how they have undermined efforts to remedy this planetary problem Studying climate change and international history in tandem this book explains the origins of the debates around this environmental emergency the response of political leaders attempting to address the threat and the barriers to creating an international regime to resolve the climate crisis     *The Global History of Organic Farming* Gregory A. Barton,2018-02-02 Organic farming is a major global movement that is changing land use and consumer habits around the world This book tells the untold story of how the organic farming movement nearly faltered after an initial flurry of scientific interest and popular support Drawing on newly unearthed archives Barton argues that organic farming first gained popularity in an imperial milieu before shifting to the left of the political spectrum after decolonization and served as a crucial middle stage of environmentalism Modern organic protocols developed in British India under the guidance of Sir Albert Howard before spreading throughout parts of the British Empire Europe and the USA through the advocacy of his many followers and his second wife Louise Organic farming advocates before and during World War II challenged the industrialization of agriculture and its reliance on chemical fertilizers They came tantalizingly close to influencing government policy The decolonization of the British Empire the success of industrial agriculture and the purging of holistic ideas from medicine side lined organic farming advocates who were viewed increasingly as cranks and kooks Organic farming advocates continued to spread their anti chemical farming message through a small community that deeply influenced Rachel Carson s ideas in Silent Spring a book that helped to legitimize anti chemical concerns The organic

farming movement re entered the scientific mainstream in the 1980s only with the reluctant backing of government policy It has continued to grow in popularity ever since and explains why organic farming continues to inspire those who seek to align agriculture and health     **The New World History** Ross E. Dunn,Laura J. Mitchell,Kerry Ward,2016-08-23
