- Remove the contents from the box. Remove all tape and packing material from the printer.

Caution:
Be sure not to touch the ribbon cable inside the printer.

- Attach the paper support and plug in the printer.

2 Installing the Ink Cartridges

- Press the **Power** button to turn on the printer.

- Remove the ink cartridges from their protective bags.

Do not touch the ink contacts on the cartridges.

- Install the ink cartridges as shown below.

Note: Install all ink cartridges. The printer will not work unless all cartridges are installed properly.

- Press the **Maintenance** button.

The printer begins ink charging. It takes about **one and a half minutes**. While charging, the printer produces a variety of mechanical sounds. This is normal. When the green light stops flashing, ink charging is complete.

Caution:
Do not turn off the printer during the ink charging process.

Note:
The ink cartridges packaged with your printer are pre-filled with ink during initial setup. In order to produce high quality prints, the print head in your printer will be fully charged with ink. This ink-off process consumes a quantity of ink and subsequent cartridge life will last for their full rated life.

See the other side of this sheet to install the printer software.

Safety Instructions

Read all of the instructions in this section when setting up and using your printer.

When choosing a place for the printer

- Avoid places subject to rapid changes in temperature and humidity. Also, keep the printer away from direct sunlight, direct light, or heat sources.
- Avoid places subject to dust, shocks, or vibrations.
- Leave enough room around the printer to allow for sufficient ventilation.
- Place the printer on a flat, stable surface that extends beyond the base of the printer in all directions. If you place the printer on a desk, leave more than 10 cm between the back of the printer and the desk. The printer will not operate properly if it is tilted or wobbles.
- When storing or transporting the printer, do not tilt it, stand it on its side, or turn it upside down. Otherwise the ink may leak from the cartridges.

When choosing a power source

- Use only the type of power source indicated on the printer's label.
- Use only the power cord that comes with this product. Use of another cord may result in fire or electrical shock.
- The product power cord is for use with this product only. Use with other equipment may result in fire or electrical shock.
- Be sure your AC power cord meets the relevant local safety standard.
- Do not use or damage or bend power cords.
- If you use an extension cord with the printer, make sure that the total ampere rating of the device plugged into the extension cord does not exceed the cord's ampere rating. Also, make sure that the extension cord is rated for the voltage of the wall outlet that you are using.
- If you plan to use the printer in Germany, the building installation must be protected by a fuse to drop about 300 mA to provide adequate short-circuit protection and over-current protection for the printer.

When handling ink cartridges

- Keep the cartridges out of the reach of children. Do not allow children to tamper with or otherwise handle the cartridges.
- Do not open the ink cartridge packages until just before you install them.
- Do not shake the ink cartridges. The ink could leak.
- Be careful when you handle used ink cartridges, as there may be some ink remaining around the ink supply port. If the ink gets on your skin, wash the area thoroughly with soap and water. If it gets into your eyes, flush them immediately with water. If it comes into contact with your clothes, wash them immediately. Do not touch the yellow tape seal from the cartridges before installing them. Otherwise, the cartridges will become unusable.
- Do not remove the blue portion of the tape seal from the top of the cartridges.
- Do not remove the tape seal from the bottom of the cartridges.
- The IC chip on the ink cartridge retains a variety of cartridge-related information, such as the amount of ink remaining, so that a cartridge may be removed and reinstalled easily. However, each time the cartridge is inserted, some ink is consumed because the printer automatically performs a reliability check.
- Do not touch the green IC chip on the side of the cartridge.

When using the printer

- Do not put your hand inside the printer or touch the ink cartridges during printing.
- Do not block or cover the vent and openings in the printer.
- Do not attempt to service the printer yourself.
- Unplug the printer and/or refer servicing to qualified service personnel under the following conditions: The power cord/plug is damaged; the plug does not fit properly in the printer; the printer has been dropped or the casing is damaged; the printer does not operate normally or exhibits a distinct change in performance.
- Do not insert objects through the slots in the printer.
- Take care not to spill liquid on the printer.
- Leave the ink cartridges installed. Removing the cartridges can dehydrate the print head and may prevent the printer from printing.
