**Ethnic Domination in Deeply Divided Places** Guido Panzano, 2022-02-15 This volume examines the concept of ethnic domination and its manifestations in Israel within the Green Line and Estonia Ethnic domination is a method of managing ethnic differences in multiethnic contexts through asymmetrical power relations in accordance with an ethnonationalist ideology whereby a group is subordinated to another holding the power albeit not intent to directly eliminate the subaltern The volume compares the predicament of Israeli Palestinian citizens and Estonian Russian speakers in different dimensions state citizenship government parliament parties Also the analysis explains the divergent trajectories of the cases the tightening of the condition of Israeli Palestinian citizens and the democratization of ethnic politics in Estonia

*Mobilization and Conflict in Multiethnic States* Manuel Vogt, 2019-08-30 Why are some multiethnic countries more prone to civil violence than others This book examines the occurrence and forms of conflict in multiethnic states It presents a theory that explains not only why ethnic groups rebel but also how they rebel It shows that in extremely unequal societies conflict typically occurs in non violent forms because marginalized groups lack both the resources and the opportunities for violent revolt In contrast in more equal but segmented multiethnic societies violent conflict is more likely The book traces the origins of these different types of multiethnic states to distinct experiences of colonial rule Settler colonialism produced persistent stratification and far reaching cultural and economic integration of the conquered groups as for example in Guatemala the United States or Bolivia By contrast in decolonized states such as Iraq Pakistan or Sri Lanka in which independence led to indigenous self rule the colonizers divide and rule policies resulted in deeply segmented post colonial societies Combining statistical analyses with case studies based on original field research in four different countries in Sub Saharan Africa and Latin America Vogt analyzes why and how colonial legacies have led to peaceful or violent ethnic movements

**Multilingual Democracy** Nenad Stojanović, 2021-06-29 Most experts on divided societies and institutional design broadly agree that it is more difficult to establish and maintain a stable functioning democracy in a country with multiple languages and linguistically fragmented public spheres than in more homogeneous countries Multilingual countries such as Canada and Belgium have been experiencing considerable difficulties in past decades see the almost successful 1995 referendum on sovereignty in Quebec or the institutional deadlock and the rise of Flemish nationalism in Belgium since the

1970s The prospects for the EU to become a viable democracy are even more haunted by multilingualism considering that it has 24 official languages and no lingua franca Switzerland however is also a multilingual country without a lingua franca fragmented into 22 mono lingual and three multilingual cantons as well as into four distinct public spheres German French Italian Romansh And yet it is widely seen as one of the most stable and successful democracies Conventional wisdom in political science literature suggests that consociational political institutions account for the success of Swiss multilingual democracy This book offers a different institutional explanation The author argues that in mainstream literature important Swiss institutions in particular direct democracy Parliament and the federal executive have largely been misinterpreted they have been labelled as consociational whereas they are rather a product of centripetalism an approach to institutional design in which political incentives are directed toward intergroup compromise because of the need to appeal to voters across group lines in order to form majorities This approach to achieving long term democratic stability stands in sharp contrast to consociationalism

*Power-Sharing* Allison McCulloch, John McGarry, 2017-04-21 Power sharing is an important political strategy for managing protracted conflicts and it can also facilitate the democratic accommodation of difference Despite these benefits it has been much criticised with claims that it is unable to produce peace and stability is ineffective and inefficient and obstructs other peacebuilding values including gender equality This edited collection aims to enhance our understanding of the utility of power sharing in deeply divided places by subjecting power sharing theory and practice to empirical and normative analysis and critique Its overarching questions are Do power sharing arrangements enhance stability peace and cooperation in divided societies Do they do so in ways that promote effective governance Do they do so in ways that promote justice fairness and democracy Utilising a broad range of global empirical case studies it provides a space for dialogue between leading and emerging scholars on the normative questions surrounding power sharing Distinctively it asks proponents of power sharing to think critically about its weaknesses This text will be of interest to students scholars and practitioners of power sharing ethnic politics democracy and democratization peacebuilding comparative constitutional design and more broadly Comparative Politics International Relations and Constitutional and Comparative Law

*Institutional Reforms and Peacebuilding* Nadine Ansorg, Sabine Kurtenbach, 2016-09-13 This book deals with the question how institutional reform can contribute to peacebuilding in post war and divided societies In the context of armed conflict and widespread violence two important questions shape political agendas inside and outside the affected societies How can we stop the violence And how can we prevent its recurrence Comprehensive negotiated war terminations and peace accords recommend a set of mechanisms to bring an end to war and establish peace including institutional reforms that promote democratization and state building Although the role of institutions is widely recognized their specific effects are highly contested in research as well as in practice This book highlights the necessity to include path dependency pre conflict institutions and societal divisions to understand the patterns of institutional change in post war societies and the ongoing risk

of civil war recurrence It focuses on the general question of how institutional reform contributes to the establishment of peace in post war societies This book comprises three separate but interrelated parts on the relation between institutions and societal divisions on institutional reform and on security sector reform The chapters contribute to the understanding of the relationship between societal cleavages pre conflict institutions path dependency and institutional reform This book will be of much interest to students of peacebuilding conflict resolution development studies security studies and IR

Distributive Politics in Malaysia Hidekuni Washida, 2018-10-11 The election on 9 May 2018 ended six decades of rule by the ruling coalition in Malaysia Barisan Nasional or BN formerly the Alliance Despite this result the BN s longevity and resilience to competition is remarkable This book explores the mechanisms behind the emergence endurance fight for survival and decline of the party s dominance Using a systematic analysis of key resources budgets posts and seats Washida challenges the conventional argument that a punitive threat to exclude opposition supporters from distributive benefits sustained the loyalty of the masses as well as the elites He also calls into question whether the mere existence of party organization in and of itself enables leaders to credibly commit to power sharing Instead he posits a theory of mobilization agency in which a party leader needs to design an effective incentive mechanism In addition he explains how the BN had manufactured legislative dominance by tactical gerrymandering and malapportionment The insights drawn from the Malaysian case can help deepen our understanding of the rise and fall of authoritarian parties and distributive politics in general

**State Politics and Public Policy in Eastern Africa** Gedion Onyango, 2023-03-22 This book analyses major themes in twenty first century east African politics Predominantly authored by researchers and academics from the region it examines recent political developments public policy and governance across east and southern African countries The book advocates for a regionally focused comparative approach across Africa arguing that it provides a greater level of analysis than a complete continental study Adopting a multidisciplinary approach it covers numerous topics relating to politics public policy state and nation building in Africa Filling an important void in current literature the book will appeal to academics practitioners politicians and students of politics public policy and governance Chapter 16 and 20 are available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com)

Sharing Power, Securing Peace Lars-Erik Cederman, Simon Hug, Julian Wucherpfennig, 2022-07-07 Shows how power sharing practices reduce violence both preventively and after conflicts by giving potential violent challengers access to central and or regional power

**Democracy in Small States** Jack Corbett, Wouter Veenendaal, 2018-09-19 Populism and the personalization of politics appears to be threatening the existence of democracy as we know it all over the world It is now more important than ever to understand the history of this form of regime why it has thrives and fails But existing studies are limited by their focus on a few large and predominately rich states This book takes the opposite approach it investigates how politics is practiced in the smallest states where hyper personalization has always been a ubiquitous feature of political life It optimistically finds that

hyper personalized democracy can actually persist against all odds but also cautions that political practices in small states are often markedly different to larger states Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia The series editor is Laurence Whitehead Senior Research Fellow Nuffield College University of Oxford

**A Treatise on Northern Ireland, Volume III** Brendan O'Leary, 2019-04-17 The Good Friday Agreement deserved the attention the world gave it even if it was not always accurately understood After its ratification in two referendums for the first time in history political institutions throughout the island of Ireland rested upon the freely given assent of majorities of all the peoples on the island It marked it was hoped the full political decolonization of Ireland Whether Ireland would reunify or whether Northern Ireland remain in union with Great Britain now rested on the will of the people of Ireland North and South respectively a complex mode of power sharing addressed the self determination dispute The concluding volume of Brendan O Leary s A Treatise on Northern Ireland explains the making of this settlement and the many failed initiatives that preceded it under British direct rule Long term structural and institutional changes and short term political maneuvers are given their due in this lively but comprehensive assessment The Anglo Irish Agreement is identified as the political tipping point itself partially the outcome of the hunger strikes of 1980 81 that had prevented the criminalization of republicanism Until 2016 the prudent judgment seemed to be that the Good Friday Agreement had broadly worked eventually enabling Sinn F in and the DUP to share power with intermittent attention from the sovereign governments Cultural Catholics appeared content if not in love with the Union with Great Britain But the decision to hold a referendum on the UK s membership of the European Union has collaterally damaged and destabilized the Good Friday Agreement That in turn has shaped the UK s tortured exit negotiations with the European Union In appraising these recent events and assessing possible futures readers will find O Leary s distinctive angle of vision clear sharp unsentimental and unsparing of reputations in keeping with the mastery of the historical panoramas displayed throughout this treatise

Guy Peters, 2019 Institutional theory plays a significant role in contemporary political science As in the previous editions the new fourth edition provides an overview of the major institutional approaches in the discipline as well as considering the possibility of a more integrated institutional theory This edition also contains two new chapters One assesses the role of informal institutions and their linkages with formal structures of governing The second new chapter provides a detailed discussion of the processes of institutionalization and deinstitutionalization

*Social Movements in Violently Divided Societies* John Nagle, 2016-02-26 Violently divided societies present major challenges to institutions seeking to establish peace in places characterised by

ethnic conflict and high levels of social segregation Yet such societies also contain groups that refuse to be confined within separate forms of ethnic community and instead develop alternative modes of action that generate shared identities build trust and foster consensual peaceful politics Advancing a unique social movement approach to the study of violently divided societies this book highlights how various social movements function within a context of violent ethnic politics and provide new ways of imagining citizenship that complements peacebuilding By analysing the impact of social movements on divided societies this book contributes to debates about the complexity of belonging and identity and constructs a nuanced understanding of political mobilisation in regions defined by ethnic violence In turn the book provides important insights into the dynamics of social movement mobilisation Based on the author s extensive research in Lebanon and Northern Ireland and drawing on numerous examples from other divided societies this book examines a range of social movements including nationalists victims sexual minorities labour movements feminists environmentalists secularists and peace movements Bringing together social theory and case studies in order to consider how grassroots movements intersect with political institutions this book will be of interest to students scholars and policymakers working in sociology and politics

30 2016 16 14 02-01-2019, Rights in Divided Societies Colin Harvey,Alex Schwartz,2012-07-20 This collection examines the role and value of rights in divided and post conflict societies approaching the subject from a comparative and theoretical perspective Societies emerging from violent conflict often opt for a bill of rights as part of a wider package of constitutional reform Where conflict is fuelled by longstanding ethno national divisions these divisions are often addressed through group differentiated rights Recent constitutional settlements have highlighted the difficulties in

drafting a bill of rights in divided post conflict societies where the aim of promoting unity is frequently in tension with the need to accommodate difference In such cases a bill of rights might be a rallying point around which both minorities and the majority can articulate a common vision for a shared society Conversely a bill of rights might provide merely another venue in which to play out familiar conflicts further dividing an already divided society The central questions that animate the collection are 1 Can constitutional rights provide a basis for unity and a common human rights culture in divided societies If so how 2 To what extent should divided societies opt for a universalistic package of rights protections or should the rights be tailored to the specific circumstances of a divided society providing for special group sensitive protections for minorities 3 Is a divided society more or less likely to adopt a bill of rights 4 How does the judiciary figure in the management or resolution of ethno national conflict 5 What are the general theoretical and philosophical issues at stake in a rights based approach to the management or resolution of ethno national divisions or other conflicts

Conflict to peace Bernadette Hayes,Ian McAllister,2015-09-01 After three decades of violence Northern Ireland has experienced unprecedented peace This book now available in paperback examines the impact of the 1998 Agreement which halted the violence on those most affected by it the Northern Irish people themselves Using public opinion surveys conducted over a period of half a century this book covers changes in public opinion across all areas of society and politics including elections education community relations and national identity The surveys show that despite peace Protestants and Catholics remain as deeply divided as ever The vast majority marry co religionists attend religious schools and have few friends across the religious divide The results have implications not just for peacemaking in Northern Ireland but for other societies emerging from conflict The main lesson of peacemaking in Northern Ireland is that political reform has to be accompanied by social change across the society as a whole Peace after conflict needs social as well as political change
