Democracy More Or Less Democracy More Or Less:

The Broadview Anthology of Social and Political Thought: Essential Readings Andrew Bailey, Samantha Brennan, Will Kymlicka, Jacob T. Levy, Alex Sager, Clark Wolf, 2012-02-17 This volume features a careful selection of major works in political and social philosophy from ancient times through to the present Every reading has been painstakingly annotated and each figure is given a substantial introduction highlighting his or her major contribution to the tradition The anthology offers both depth and breadth in its selection of material by central figures while also representing other currents of political thought Thirty two authors are represented including fourteen from the 20th century The editors have made every effort to include translations that are both readable and reliable In order to ensure the highest standards of accuracy and accessibility the editors have consulted dozens of leading academics during the course of the volume s development many of whom have contributed introductory material as well as advice The result is an anthology with unparalleled pedagogical benefits The Broadview Anthology of Social and Political Thought sets the new standard for social and political philosophy instruction

The Broadview Anthology of Social and Political Thought , *Environment and Social Theory* John Barry, 1999 Covering the ideas of key theorists this text provides an introduction to the relationship between the environment and social theory both historically and within contemporary social theory **The Populist Radical Right** Cas Mudde, 2016-10-04 The populist radical right is one of the most studied political phenomena in the social sciences counting hundreds of books and thousands of articles This is the first reader to bring together the most seminal articles and book chapters on the contemporary populist radical right in western democracies It has a broad regional and topical focus and includes work that has made an original theoretical contribution to the field which make them less time specific The reader is organized in six thematic sections 1 ideology and issues 2 parties organizations and subcultures 3 leaders members and voters 4 causes 5 consequences and 6 responses Each section features a short introduction by the editor which introduces and ties together the selected pieces and provides discussion questions and suggestions for further readings The reader is ended with a conclusion in which the editor reflects on the future of the populist radical right in light of more recent political developments most notably the Greek economic crisis and the refugee crisis and suggest avenues for future research

Political Science. Or, the State Theoretically and Practically Considered Theodore Dwight Woolsey, 2024-08-24 Reprint of the original first published in 1877 *Aristotle's Politics* Aristotle, 1905 Seizing Power Naunihal Singh, 2014-07 While coups drive a majority of regime changes and are responsible for the overthrow of many democratic governments there has been very little empirical work on the subject Seizing Power develops a new theory of coup dynamics and outcomes drawing on 300 hours of interviews with coup participants and an original dataset of 471 coup attempts worldwide from 1950 to 2000 Naunihal Singh delivers a concise and empirical evaluation arguing that understanding the dynamics of military factions is essential to predicting the success or failure of coups Singh draws on an aspect of game theory known as a coordination

game to explain coup dynamics He finds a strong correlation between successful coups and the ability of military actors to project control and the inevitability of success Examining Ghana's multiple coups and the 1991 coup attempt in the USSR Singh shows how military actors project an image of impending victory that is often more powerful than the reality on the ground In addition Singh also identifies three distinct types of coup dynamics each with a different probability of success based on where within the organization each coup originated coups from top military officers coups from the middle ranks and mutinous coups from low level soldiers Singh's book is an informative read even if you're not planning a coup

Washington Post A powerful book on military coups Singh's argument is convincing and straight forward Impressive This reviewer would not be surprised if *Seizing Power* quickly establishes itself as a must read for students of coups and military politics in the years to come

Perspectives on Politics Naunihal Singh spells out a simple yet powerful insight the best way to understand military coups is by focusing on their dynamics rather than their correlates He then goes on to show that coup outcomes are best predicted through a coordination framework rather than by analyzing them as military or popularity contests Fascinating and comprehensive *Seizing Power* is the best piece of social science research on military coups so far It should be read by all those interested in the study of political violence

Stathis N Kalyvas Yale University Naunihal Singh's highly original analysis of military coups rightly puts the dynamics within the military front and center His book will change how we think of coups

Nicolas van de Walle Cornell University Naunihal Singh is an assistant professor of international security studies at the Air War College in Alabama

Labor Relations United States. Congress. Senate. Committee on Labor and Public Welfare, 1949 Pt 1 Considers legislation to repeal the Labor Management Relations Act and reenact the National Labor Relations Act with certain amendments pt 2 Continuation of hearings on ways of improving labor management relations pt 4 Continuation of hearings on labor management relations pt 5 Continuation of hearings on legislation to revise Federal labor management relations statutes

European Values Pierre Bréchon, Frédéric Gonthier, 2017-04-18 In sharp contrast to the popular belief that values are converging and becoming increasingly standardized this book draws on the EVS surveys to show that Europe remains very diverse in terms of values orientations toward the major issues of everyday life It also addresses how and in what direction values are actually changing thus emphasizing the joint influence of key factors like secularization economic development the rise in educational attainment levels and the welfare state Written by the team of political scientists and sociologists who are carrying out the EVS surveys in France this book leads to the striking conclusion that increasingly individualized value systems do not necessarily mirror a more individualistic society

Holliday, 2002-09-26 How relevant and vital are political parties in contemporary democracies Do they fulfill the functions that any stable and effective democracy might expect of them or are they little more than moribund anachronisms relics of a past age of political life now superseded by other mechanisms of linkage between state and society These are the central questions which this book aims to address through a rigorous comparative analysis of political parties operating in the world's advanced industrial democracies Drawing on the expertise of an impressive team of internationally known specialists the book engages systematically with the evidence to show that while a degree of popular cynicism towards them is often chronic though rarely acute parties have adapted and survived as organizations remodelling themselves to the needs of an era in which patterns of linkage and communication with social groups have been transformed This has enabled them to remain central to democratic systems especially in respect of the political functions of governance recruitment and albeit more problematically interest aggregation On the other hand the challenges they face in respect of interest articulation communication and participation have pushed parties into more marginal roles within Western political systems The implications of these findings for democracy depend on the observer's normative and theoretical perspectives Those who understand democracy primarily in terms of popular choice and control in public affairs will probably see parties as

continuing to play a central role while those who place greater store by the more demanding criteria of optimizing interests and instilling civic orientations among citizens are far more likely to be fundamentally critical

Comparative Politics is a series for students and teachers of political science that deals with contemporary issues in comparative government and politics The General Editors are Max Kaase Vice President and Dean of Humanities and Social Sciences International University Bremen and Kenneth Newton Professor of Government at Southampton University The series is published in association with the European Consortium for Political Research

The Living Church, 1919 **A New Political Imagination** Tony Fry, Madina Tlostanova, 2020-11-12 The book presents the case for the making of a new political imagination by offering a critique of existing political institutions philosophy and practices that are unable to provide the thinking means and leadership to deal with the complexity and crises of specific locales and the world at large The authors make clear that there is a fundamental disjuncture between the complexity of the combined critical conditions that are now putting life on Earth at risk and the divisions and theories of knowledge that are dominantly and instrumentally trying to understand the situation In response this work makes the case for the need for a new political imagination that rejects the sufficiency of existing political ideologies including democracy being the end point of politics The book tackles the political underpinnings of social and economic life in a world still embedded in the inequities of the afterlife of colonialism and state socialism Thereafter it engages narratives of change rethinks imagination and critical practices to finally present a relationally connected way to move forward This trans disciplinary volume is directed at those working in political philosophy and epistemology critical global and security studies decoloniality and postcolonial studies design critical anthropology and the post humanities It is accessible to both academic audiences and activists and practitioners

Democracy Disfigured Nadia Urbinati, 2014-02-25 In *Democracy Disfigured* Nadia Urbinati diagnoses the ills that beset the body politic in an age of hyper partisanship and media monopolies and offers a spirited defense of the messy compromises and contentious outcomes that define democracy Urbinati identifies three types of democratic disfiguration the unpolitical the populist and the plebiscitarian Each undermines a crucial division that a well functioning democracy must preserve the wall separating the free forum of public opinion from governmental institutions that enact the will of the people Unpolitical democracy delegitimizes political opinion in favor of expertise Populist democracy radically polarizes the public forum in which opinion is debated And plebiscitary democracy overvalues the aesthetic and nonrational aspects of opinion For Urbinati democracy entails a permanent struggle to make visible the issues that citizens deem central to their lives Opinion is thus a form of action as important as the mechanisms that organize votes and mobilize decisions Urbinati focuses less on the overt enemies of democracy than on those who pose as its friends technocrats wedded to procedure demagogues who make glib appeals to the people and media operatives who given their

preference would turn governance into a spectator sport and citizens into fans of opposing teams Diplomatically Speaking Dennis J. Ignatius, Dennis Ignatius is an old friend and colleague who is an astute and articulate analyst and commentator on national affairs and foreign policy Malaysia is today facing the most serious crisis in its history Dennis is one of the brave Malaysians who is prepared to be objective in analyzing the sad state of our beloved Malaysia To paraphrase Voltaire It is dangerous to be right when the State is wrong I hope Dennis s thought provoking articles will help stimulate debate and discussion about how we can all work together for a better Malaysia Ambassador Dato Redzuan Kushairi G25 In life our biggest challenges relate to saying no to those whom we feel closest to In matters of international diplomacy the biggest challenge is speaking up for the country that you love and serve Not only has Dennis Ignatius done this excellently for our nation state but he has spoken out on many other matters of national interest transcending the priorities of the public sphere An excellent educational read KJ John Convener of National Congress on Integrity and Chairman of Board of OHMSI Dennis Ignatius dissects the Malaysian political landscape with a skeptical if emphatic gaze borne of years of experience in the Malaysian Foreign Service More than just a collection of essays this book is a historical document by a professional whose clarity of purpose is evident from the very first chapter S Thayaparan Commander RTD Royal Malaysian Navy The Granite Cutters' Journal ,1919
