## **Democracy And Prebendalism In Nigeria Critical Interpretations:**

**Democracy and Prebendalism in Nigeria** W. Adebani, E. Obadare, 2013-02-21 Richard Joseph's seminal 1987 book *Democracy and Prebendal Politics in Nigeria* represented a watershed moment in the understanding of the political dynamics of Nigeria. This groundbreaking collection brings together scholars from across disciplines to assess the significance of Joseph's work and the current state of Nigerian politics.

**Democracy and Nigeria's Fourth Republic** Wale Adebani, 2023 Examines Nigeria's challenges with consolidating democracy and the crisis of governance arising from structural errors of the state and the fundamental contradictions of the society in Nigeria's Fourth Republic. *Religion and the Making of Nigeria* Olufemi Vaughan, 2016-12-09 In *Religion and the Making of Nigeria* Olufemi Vaughan examines how Christian, Muslim, and indigenous religious structures along with the legacies of British colonial rule have provided the essential social and ideological frameworks for the construction of contemporary Nigeria.

**Nigeria and the Nation-State** John Campbell, 2024-08-13 Nigeria, despite being the African country of greatest strategic importance to the U.S., remains poorly understood. John Campbell explains why Nigeria is so important to understand in a world of jihadi extremism, corruption, oil conflict, and communal violence. The revised edition provides updates through the recent presidential election.

The SAGE Encyclopedia of World Poverty Mehmet Odekon, 2015-06-15 The SAGE Encyclopedia of World Poverty, Second Edition, addresses the persistence of poverty across the globe while updating and expanding the landmark work *Encyclopedia of World Poverty*, originally published in 2006 prior to the economic calamities of 2008. For instance, while continued high rates of income inequality might be unsurprising in developing countries such as Mexico, the Organization of Economic Cooperation and Development (OECD) reported in May 2013 even countries with historically low levels of income inequality have experienced significant increases over the past decade, including Denmark, Sweden, and Germany. The U.N. and the World Bank also emphasize the persistent nature of the problem. It is not all bad news. In March 2013, the *Guardian* newspaper reported: "Some of the poorest people in the world are becoming significantly less poor according to a groundbreaking academic study which has taken a new approach to measuring deprivation." The report by Oxford University's poverty and human development initiative predicts that countries among the most impoverished in the world could see acute poverty eradicated within 20 years if they continue at present rates. On the other hand, the U.N. says environmental threats from climate change could push billions more into extreme poverty in coming decades. All of these points lead to the need for a revised, updated, and expanded edition of the *Encyclopedia of World Poverty*. Key Features: 775 evaluated and updated and 175 entirely new entries; New Reader's Guide categories; Signed articles with cross references; Further Readings will be accompanied by pedagogical elements; Updated Chronology; Resource Guide; Glossary and thorough new Index. The SAGE Encyclopedia of World Poverty, Second Edition, is a dependable source for students and researchers who are researching world poverty, making it a must-have reference for all academic libraries.

**From Parchment to Practice** Tom

Ginsburg, Aziz Z. Huq, 2020-04-30 Asks how the parchment promises of a written constitution are translated into political practice working through the many problems of constitutional implementation after adoption The Oxford Handbook of Africa and Economics Célestin Monga, Justin Yifu Lin, 2015-07-02 For a long time economic research on Africa was not seen as a profitable venture intellectually or professionally few researchers in top ranked institutions around the world chose to become experts in the field This was understandable the reputation of Africa centered economic research was not enhanced by the well known limitations of economic data across the continent Moreover development economics itself was not always fashionable and the broader discipline of economics has had its ups and downs and has been undergoing a major identity crisis because it failed to predict the Great Recession Times have changed many leading researchers including a few Nobel laureates have taken the subject of Africa and economics seriously enough to devote their expertise and creativity to it They have been amply rewarded the richness complexities and subtleties of African societies civilizations rationalities and ways of living have helped renew the humanities and the social sciences and economics in particular to the point that the continent has become the next major intellectual frontier to researchers from around the world In collecting some of the most authoritative statements about the science of economics and its concepts in the African context this handbook the first of two volumes opens up the diverse acuity of commentary on exciting topics and in the process challenges and stimulates the quest for knowledge Wide ranging in its scope themes language and approaches this volume explores examines and assesses economic thinking on Africa and Africa's contribution to the discipline The editors bring a set of powerful resources to this endeavor most notably a team of internationally renowned economists whose diverse viewpoints are complemented by the perspectives of philosophers political scientists and anthropologists *Niger Delta: The Business of the Oil Curse* Marc-Antoine Pérouse de Montclos, 2024-05-13 Based on 30 years of fieldwork in the Niger Delta this book debunks the determinism of the resource curse theory in Nigeria Africa's leading oil producer and the most populous country on the continent It rather shows that oil and gas production is only one element of a social problem with much deeper roots It also investigates the role played by the youth a key issue in a society where half of the population is under 18 years old To understand the multiple causes of the crisis it thus delves into the complexity of a rich history The Industrial Policy Revolution II J. Esteban, J. Stiglitz, Justin Lin Yifu, 2013-12-13 This volume is the result of the 2012 International Economic Association's series of roundtables on the theme of Industrial Policy The first New Thinking on Industrial Policy was hosted by the World Bank in Washington D C and the second New Thinking on Industrial Policy Implications for Africa was held in Pretoria South Africa Resistance Shane Moran, 2021-04-19 In Resistance Sol Plaatje and South Africa Shane Moran studies Sol Plaatje the founding secretary of what was to become the African National Congress ANC and his work within the context of colonial politics and resistance Arguing for a return to the study of one of the founders of anti racism Moran explores issues of land reform human rights and the legacy of colonialism Through an in depth analysis of Plaatje's resistance

to racial domination Moran examines the nature of the struggles that continue within and beyond South Africa today In particular Moran analyzes events from the beginning of the previous century that shaped post 1994 South Africa such as the resolution of the ANC to expropriate land without compensation *Entangled Domains* Rabiat Akande,2023-06 This book provides the first account of the sustained entanglement of law religion and empire in Northern Nigeria Overcoming Toxic Emotions Raymond Olusesan Aina,2022-07-06 Overcoming Toxic Emotions is a compelling theme to enrich the restorative justice literature on the complex tasks of relational repair in a transitional society With its emphasis on the centrality of rebuilding trust and renewing the mode of being together this book is an innovative addition to the literature on justice in transitional societies It offers an original assessment of the Nigerian experience of restorative justice in peacebuilding This genuinely theological work opens new perspectives for a more adequate understanding of the Christian contribution to peacebuilding and the secular debate on restorative justice Yet the author expresses himself as an African theologian paying attention to the specific context of the problems about transitional justice and integrating spontaneously the wisdom of his dual cultures Yoruba and Christianity With its attentiveness to victim perspectives the book engages the traditional notion of divine omnipotence and vulnerability The book rejects the notion of the fetish omnipotent God It opts instead for an image of God as vulnerable yet powerful in love compelling inspiring and rallying us **Writing the Nigeria-Biafra War** Toyin Falola,Ogechukwu Ezekwem,2016 21 Female Participation in War and the Implication of Nationalism The Postcolonial Disconnection in Buchi Emecheta s Destination Biafra Select Bibliography Index **Political Violence and Oil in Africa** Zainab Ladan Mai-Bornu,2020-06-08 The book argues that in order to better understand the undercurrents of the Niger Delta conflict it is imperative to analyse the dynamics of choice in terms of the distinct courses of action taken by the Ogoni and Ijaw Given the similar structural constraints the author considers why the Ogoni adopted nonviolent resistance and the Ijaw violent resistance This book is divided into seven chapters starting with an introduction to oil and political violence in African conflicts and includes a synoptic overview of four other resource rich countries in Africa Theoretical and conceptual underpinnings of conflict are then presented with the aim of situating the Niger Delta conflicts within the wider conflict literature Chapter Three concentrates the discussion on the Nigerian Niger Delta outlining the core issues at the centre of the contestations The following three chapters offer an in depth empirical analysis on the interaction between the narratives on nonviolence versus violence the nature of leadership styles and the organisation of the Ogoni and Ijaw movements along with a concluding chapter **Mobility, Mobilization, and Counter/Insurgency** Daniel E Agbibo,2022-02-15 In Mobility Mobilization and Counter Insurgency Daniel Agbibo takes African insurgencies back to their routes by providing a transdisciplinary perspective on the centrality of mobility to the strategies of insurgents state security forces and civilian populations caught in conflict Drawing on one of the world s deadliest insurgencies the Boko Haram insurgency in northeast Nigeria and the Lake Chad region this well crafted and richly nuanced intervention offers fresh

insights into how violent extremist organizations exploit forms of local immobility and border porosity to mobilize new recruits how the state's war on terror mobilizes against so-called subversive mobilities and how civilian populations in transit are treated as could-be terrorists and subjected to extortion and state-sanctioned violence en route. The multiple and intersecting flows analyzed here upend Eurocentric representations of movement in Africa as one-sided anarchic and dangerous. Instead, this book underscores the contradictions of mobility in conflict zones as simultaneously a resource and a burden. Intellectually rigorous yet clear, engaging and accessible. **Mobility, Mobilization and Counter Insurgency** is a seminal contribution that lays bare the neglected linkages between conflict and mobility.      **Presidential Elections in Nigeria's**

**Fourth Republic** Babayo Sule, Usman Sambo, 2024-03-07 This book provides a uniquely detailed analysis of presidential elections in Nigeria's Fourth Republic. The authors explore the changing dynamics of voting patterns, religious politics, politicians' behaviour and the broader political system to offer new insights into presidential systems in Africa and beyond. In doing so, they address an often neglected area of political science and cast light on the political challenges facing one of the world's largest democracies. The book's comprehensive coverage of Nigerian presidential elections and the lessons they hold for developing countries across the globe is a valuable resource for researchers, students, international institutions and non-governmental organisations.      Traditional Authority and Security in Contemporary Nigeria David Ehrhardt, David Oladimeji

Alao, M. Sani Umar, 2023-11-16 Exploring the contentious landscape of Nigeria's escalating violence, this book describes the changing roles of traditional authorities in combatting contemporary security challenges. Set against a backdrop of widespread security threats including insurgency, land disputes, communal violence, regional independence movements and widespread criminal activities, perhaps more than ever before, Nigeria's conventional security infrastructure seems ill-equipped for the job. This book offers a fresh empirical analysis of the roles of traditional authorities including kings, Ezes, Obas and Emirs who are often hailed as potent alternatives to the state in security governance. It complicates the assumption that these traditional leaders, by virtue of their customary legitimacy and popular roots, are singularly effective in preventing and managing violence. Instead, in exploring their creative adaptation to governance roles after a dramatic postcolonial downturn, this book argues that traditional leaders can augment but not substitute the state in addressing insecurity. This book's in-depth analysis will be of interest to researchers and policy makers across African and security studies, political science, anthropology and development. *Religion, Violence, and Local Power-Sharing in Nigeria* Laura Thaut Vinson, 2017-10-26 This book explores the significance of religious resurgence and violence in Nigeria and how informal local government power sharing reduces communal Muslim-Christian violence.      **The Handbook of Civil Society in Africa** Ebenezer Obadare, 2013-09-21 This volume brings together the most up-to-date analyses of civil society in Africa from the best scholars and researchers working

on the subject Being the first of its kind it casts a panoramic look at the African continent drawing out persisting if often under communicated variations in regional discourses In a majority of notionally global studies Africa has received marginal attention a marginality often highlighted by the usual token chapter Filling a critical hiatus the Handbook of Civil Society in Africa takes Africa African developments and African perspectives very seriously and worthy of academic interrogation in their own right It offers a critical clear sighted perspective on civil society in Africa and positions African discourses within the framework of important regional and global debates It promises to be an invaluable reference work for researchers and practitioners working in the fields of civil society nonprofit studies development studies volunteerism civic service and African studies Endorsements This volume signposts a critical turning point in the renewed engagement with the theory and practice of civil society in Africa Moving from traditional concerns with disquisitions on the appropriateness and possibility of the existence and vibrancy of the idea of civil society on the continent the volume approaches the forms contents and features of the actually existing civil society in Africa from thematic regional and national angles It demonstrates clearly the extent to which core intellectual work on civil society in Africa has largely moved from concerns with cultural reductionism to a nuanced examination of the complexities of formal non formal organizational non organizational traditional newer usual unusual engagements detailing the extent to which over time civil society as a concept has been indigenized appropriated and adapted in the terrains of politics society economy culture and new technologies on the continent In all this the book accomplishes the near impossible Without sacrificing the vigour rigor and freshness of the often unpredictable fruits of up to date research into regional and national differences that crop up in the documentation of Africa s multiple realities and discourses the volume weaves together a rich tapestry of the historical theoretical and practical dimensions of an expanding civil society sector and accompanying growth in popular discourse advocacy and academic literature in such a diverse continent as Africa into a meaningful whole of insightful themes Written and edited by a very distinguished cross continental and multi disciplinary collection of researchers research students practitioners and activists the volume provides cutting edge evidence and makes a definitive case for a new lease of life for civil society research in Africa Adigun Agbaje Professor of Political Science University of Ibadan Nigeria Throughout Africa forms of civic engagement and political participation have seen dynamic change in recent decades yet conceptions of civil society have rarely accounted for this evolution This volume is an essential source of new thinking about political association and collective action in Africa The authors offer a wealth of analysis on changing organizations and social movements new forms of interaction and communication emerging strategies and issues diverse social foundations and the theoretical implications of a shifting associational landscape The contributors provide an invaluable addition to the comparative literature on political change democratic development and social movements in Africa Peter Lewis Johns Hopkins University School of Advanced international Studies

**Good Governance in Nigeria** Portia Roelofs, 2023-04-20 Drawing on original fieldwork in Nigeria Portia Roelofs argues for an innovative re

conceptualisation of good governance Contributing to debates around technocracy populism and the survival of democracy amidst conditions of inequality and mistrust Roelofs offers a new account of what it means for leaders to be accountable and transparent Centred on the rise of the Lagos Model in the Yoruba south west this book places the voices of roadside traders and small time market leaders alongside those of local government officials political godfathers and technocrats In doing so it theorises socially embedded good governance Roelofs demonstrates the value of fieldwork for political theory and the associated possibilities for decolonising the study of politics Challenging the long held assumptions of the World Bank and other international institutions that African political systems are pathologically dysfunctional Roelofs demonstrates that politics in Nigeria has much to teach us about good governance
