Crimes against Humanity in the Land of the Free

Imani Michelle Scott, 2014-08-20 This vital book considers the compelling and addictive hold that racism has had on centuries of Americans explores historical and contemporary norms complicit in the problem and appeals to the U S government to improve race relations rectify existent social imperfections and guard against future race based abuses Despite an assertion by the founding fathers that all men are created equal and the Fourteenth Amendment to the U S Constitution that guarantees equal protection the race based oppression that has characterized most of America's history shows that in practice our society has rarely measured up to principle Why has deep seated racial conflict in America continued for so long This unprecedented examination into the topic explores the evidence and consequences of what seems to be an addiction to

racism in the United States analyzing the related disconnect between our nation's stated moral principles and social realities and assessing how U.S. citizens of all races can take individual action to start the long needed healing process. The contributors to this work present interdisciplinary perspectives and discussions on American history, politics, philosophy, and 21st century psycho-social conditions as they relate to the oppression, social injustice, and racism that have occurred and continue to occur in the United States. The discussions allow readers to grasp the serious challenges at hand and direct them towards recognizing the potential for conflict transformation and reconciliation through a non-conventional co-created Truth Reconciliation and Peace Process (TRPP) to begin resolving America's dysfunction. This is essential reading for anyone who seeks to understand the sources of perpetual racially based conflict, disparity, and hatred in the United States, identify the social injuries of exposure to centuries of racism, move America towards harmonious interracial relationships, and improve its international standing as a peace building nation that is truly committed to human rights throughout the world.

Creating Space for Democracy Timothy J. Shaffer, Nicholas V. Longo, 2023-07-03

We live in divisive and polarizing times, often remaining in comfortable social bubbles and experiencing few genuine interactions with people who are different or with whom we disagree. Stepping out and turning to one another is difficult but necessary. For our democracy to thrive at a time when we face wicked problems that involve tough trade-offs, it is vital that all citizens participate fully in the process. We need to learn to listen, think, and act with others to solve public problems. This collaborative task begins with creating space for democracy. This book provides a guide for doing so on campus through deliberation and dialogue. At the most basic level, this book describes collaborative and relational work to engage with others and co-create meaning. Specifically, dialogue and deliberation are processes in which a diverse group of people moves toward making a collective decision on a difficult public issue. This primer offers a blueprint for achieving the civic mission of higher education by incorporating dialogue and deliberation into learning at colleges and universities. It opens by providing a conceptual framework with leading voices in the dialogue and deliberation field, providing insights on issues pertinent to college campuses: free speech and academic freedom, neutrality, and the role of deliberation in civic engagement. Subsequent sections describe a diverse range of methods and approaches used by several organizations that pioneered and sustained deliberative practices, outline some of the many ways in which educators and institutions are using dialogue and deliberation in curricular, co-curricular, and community spaces, including venues such as student centers, academic libraries, and residence halls. All of the chapters, including a Resource Section, provide readers with a starting point for conceptualizing and implementing their own deliberation and dialogue initiatives. This book, intended for all educators who are concerned about democracy, imparts the power and impact of public talk, offers the insights and experiences of leading practitioners, and provides the grounding to adopt or adapt the models in their own settings to create educative spaces and experiences that are humanizing, authentic, and productive. It is an important resource for campus leaders, student affairs practitioners, librarians, and centers of

institutional diversity community engagement teaching excellence and service learning as well as faculty particularly those in the fields of communication studies education and political science A Co Publication with AAC U and Campus Compact

Mourning in America David W. McIvor,2016-10-20 Recent years have brought public mourning to the heart of American politics as exemplified by the spread and power of the Black Lives Matter movement which has gained force through its identification of pervasive social injustices with individual losses The deaths of Sandra Bland Michael Brown Freddie Gray Trayvon Martin Tamir Rice Walter Scott and so many others have brought private grief into the public sphere The rhetoric and iconography of mourning has been noteworthy in Black Lives Matter protests but David W McIvor believes that we have paid too little attention to the nature of social mourning its relationship to private grief its practices and its pathologies and democratic possibilities In Mourning in America McIvor addresses significant and urgent questions about how citizens can mourn traumatic events and enduring injustices in their communities McIvor offers a framework for analyzing the politics of mourning drawing from psychoanalysis Greek tragedy and scholarly discourses on truth and reconciliation Mourning in America connects these literatures to ongoing activism surrounding racial injustice and it contextualizes Black Lives Matter in the broader politics of grief and recognition McIvor also examines recent grassroots organized truth and reconciliation processes such as the Greensboro Truth and Reconciliation Commission 2004 2006 which provided a public examination of the Greensboro Massacre of 1979 a deadly incident involving local members of the Communist Workers Party and the Ku Klux Klan

Transitional Justice in the United States of America Brianne McGonigle Leyh, 2025-08-08 This book employs a transitional justice lens in order to explore justice initiatives in the United States of America Transitional justice developed out of societal demands to better address serious abuse injustice and atrocities initially in South American post authoritarian contexts transitioning to democratic states and later elsewhere but especially within post conflict contexts The lens of transitional justice has only rarely been extended to the United States and never in a comprehensive way This book aims to provide a contemporary and critical analysis of relevant developments and debates within the United States related to transitional justice Using the framework of the five main pillars of transitional justice truth reparation accountability guarantee of non repetition and memory the book identifies and explores relevant justice initiatives both historical and contemporary across federal state and local levels in the United States The empirical examples taken up show how a broad array of civil society actors are driving transitional justice processes across the country By recognizing both extraordinary and ordinary justice processes as transitional justice the book offers a broader understanding of how groups navigate transitions to more democratic peaceful and socially just societies The examples further shed light on the expansion of the field to nontraditional contexts the relationship between global norms and local practices and the role of law and political compromise The book concludes by emphasizing the value and power of the plurality of initiatives taking shape across the United States but calls for a more coherent transitional justice policy at the national level This book is relevant for scholars and students with interests in transitional justice conflict resolution human rights Indigenous studies culture and race

United States Law and Policy on Transitional Justice Zachary Daniel Kaufman, 2016 In United States Law and Policy on Transitional Justice Principles Politics and Pragmatics Zachary D Kaufman explores the U S government's support for or opposition to certain transitional justice institutions By first presenting an overview of possible responses to atrocities such as war crimes tribunals and then analyzing six historical case studies Kaufman evaluates why and how the United States has pursued particular transitional justice options since World War II This book challenges the legalist paradigm which postulates that liberal states pursue war

crimes tribunals because their decision makers hold a principled commitment to the rule of law Kaufman develops an alternative theory prudentialism which contends that any state liberal or illiberal may support bona fide war crimes tribunals More generally prudentialism proposes that states pursue transitional justice options not out of strict adherence to certain principles but as a result of a case specific balancing of politics pragmatics and normative beliefs Kaufman tests these two competing theories through the U S experience in six contexts Germany and Japan after World War II the 1988 bombing of Pan Am flight 103 the 1990 1991 Iraqi offenses against Kuwaitis the atrocities in the former Yugoslavia in the 1990s and the 1994 Rwandan genocide Kaufman demonstrates that political and pragmatic factors featured as or more prominently in U S transitional justice policy than did U S government officials normative beliefs Kaufman thus concludes that at least for the United States prudentialism is superior to legalism as an explanatory theory in transitional justice policymaking

Police Against the Movement Joshua Clark Davis, 2025-10-07 A bold retelling of the 1960s civil rights struggle through its work against police violence and a prehistory of both the Black Lives Matter and Blue Lives Matter movements that emerged half a century later Police Against the Movement shatters one of the most pernicious myths about the 1960s that the civil rights movement endured police violence without fighting it Instead as Joshua Clark Davis shows activists from the Congress of Racial Equality and the Student Nonviolent Coordinating Committee confronted police abuses head on staging sit ins at precinct stations picketing outside department headquarters and blocking city streets to protest officer misdeeds In return organizers found themselves the targets of overwhelming political repression in the form of police surveillance infiltration by undercover officers and retaliatory prosecutions aimed at discrediting and derailing their movement The history of the civil rights era abounds with accounts of physical brutality by county sheriffs and tales of political intrigue and constitutional violations by FBI agents Turning our attention to municipal officials in cities and towns across the US North South East and West Davis reveals how local police bombarded civil rights organizers with an array of insidious weapons More than just physical violence these economic legal and reputational attacks were designed to project the illusion of color blind law enforcement The civil rights struggle against police abuses is largely overlooked today the victim of a willful campaign by local law enforcement to erase their record of repression By placing activism against state violence at the center of the civil rights story Police Against the Movement offers critical insight into the power of political resistance in the face of government attacks on protest
