Military Politics, Islam, and the State in Indonesia Marcus Mietzner,2009 Based on a decade of research in Indonesia this book provides an in depth account of the military s struggle to adapt to the new democratic system after the downfall of Suharto s authoritarian regime in 1998 Unlike other studies of the Indonesian armed forces which focus exclusively on internal military developments Mietzner s study emphasizes the importance of conflicts among civilians in determining the extent of military involvement in political affairs Analysing disputes between Indonesia s main Muslim groups Mietzner argues that their intense rivalry between 1998 and 2004 allowed the military to extend its engagement in politics and protect its institutional interests The stabilization of the civilian polity after 2004 in contrast has led to an increasing marginalization of the armed forces from the power centre Drawing broader conclusions from these events for Indonesia s ongoing process of democratic consolidation the book shows that the future role of the armed forces in politics will largely depend on the ability of civilian leaders to maintain functioning democratic institutions and procedures States and Societies in Motion Boo Teik Khoo,Jafar Suryomenggolo,2021 With contributions from leading scholars in their field this collection of fourteen essays offers wide ranging but incisive perspectives on East and Southeast Asian Studies Apart from informing and enlightening the reader the essays offer a tribute to Professor Takashi Shiraishi the renowned Japanese scholar for his many contributions across continents and disciplines as well as his personal qualities as a long time colleague teacher and friend Now Professor Emeritus of the National Graduate Institute for Policy Studies GRIPS in Tokyo Shiraishi sensei has had an outstanding career as a teacher scholar administrator and policy advisor his many roles including Director of the Southeast Asia Program at Cornell University and president both of GRIPS and the Institute of Developing Economies Japan Often with Japan at their nexus the essays speak to three enduring themes in the research interests that spanned Shiraishi s half century career namely political movements in Southeast Asia national and regional politics in China and Japan and the links between ideology networks and policies at critical junctures of state formation An introduction by the editors reviews Shiraishi s contributions to many areas of scholarship these are documented in the back matter in a bibliography of his publications and writings in English and Japanese Among authors of the fourteen essays that follow are Patricio Abinales Chris Baker Caroline Hau Peter Katzenstein Pasuk Phongpaichit and Thongchai Winichakul In a concluding lengthy interview Shiraishi speaks for the first time in a frank if light hearted tone of his diverse experiences in academia as student faculty and administrator his thoughts on area studies and their connections with official policy making and his initiatives for building regional networks of research and intellectual exchange A festschrift in English being a rarity for a

Japanese scholar this collection offers valuable if indirect insights into the links and influences that have animated a burgeoning community of international academic exchange and expert cooperation This has been facilitated by Shiraishi's position time and again even if an accidental one as he likes to say as a transnational intersection point for colleagues students and friends in their many various research pursuits A rich and rewarding collection
