Denomination Assessing An Ecclesiological Category Ecclesiological Investigations:

Denomination Paul M. Collins, Barry A. Ensign-George, 2011-06-16 The term denomination is now widely used to describe a Christian community or church But what is a denomination In this highly creative collection of essays representatives of all major Christian traditions give an answer to this question What does the term mean in their own tradition And does that tradition understand itself to be a denomination If so what is that understanding of denomination and if not how does the tradition understand itself vis vis those churches which do and those churches which do not understand themselves as denominations In dialogue with the argument and ideas set forth in Barry Ensign George s essay each contributor offers a response from the perspective of a particular church tradition Each essay also considers questions concerning the current landscape of ecumenical dialogue ecumenical method and the goals of the ecumenical movement as well as questions of Christian identity and belonging

Denominationalism Illustrated and Explained Russell E. Richey, 2013-03-18 Evidence of mainstream denominational decline virtually throws itself in our faces growing religious pluralism in North America the decline over the last half century in the salience prestige power and vitality of Protestant denominational leadership slippage in mainline membership and corresponding growth vigor visibility and political prowess of conservative evangelical and fundamentalist bodies patterns of congregational independence including loosening of or removal of denominational identity particularly in signage and the related marginal loyalty of members emergence of megachurches with resources and the capacity to meet needs heretofore supplied by denominations training literature expertise growth within mainline denominations of caucuses and their alignment into broad progressive or conservative camps often with connections to similar camps in other denominations widespread suspicion of indeed hostility towards the centers and symbols of denominational identity the regional and national headquarters migration of individuals and families through various religious identities sometimes out of classic Christianity altogether Denominationalism looks doomed and is so proclaimed It may be However viewing the sweep of Anglo American history this volume suggests how much denominations and denominationalism have changed how resilient they have proved how significant these structures of religious belonging have been in providing order and direction to American society and how such enduring purposes find ever new structural institutional expression

Theological Dialogue with Classical Pentecostals Jelle Creemers, 2015-09-24 The last two decades have witnessed the growing participation in theological dialogues of non institutional free church movements This poses a serious challenge to 21st century ecumenism since ecclesial realities and internal diversity of these movements impede fruitful dialogue in the classical manner The present volume addresses fundamental aspects of this challenge by a critical study of an exemplary case of such dialogues the International Roman Catholic Classical Pentecostal Dialogue 1972 2007 This unique study builds both on primary archival sources and on earlier research on the IRCCPD After providing an ecumenical profile of the Classical Pentecostal dialogue partner Creemers demonstrates how fair representation

of the Classical Pentecostal movement has been pursued in the course of the dialogue Next he gives attention to the ecumenical method of the IRCCPD First the development of a dialogue method hinging on hard questions is traced which has allowed a balanced theological exchange between the dialogue partners Regarding theological method it is demonstrated that both partners showed a willingness to experiment together by integrating sources of theological knowledge typically distrusted in their own traditions In conclusion the analyses are integrated in an overview of challenges and opportunities for dialogue with the Classical Pentecostal movement in the context of ongoing discussions on ecumenical method

Between Congregation and Church Barry A. Ensign-George, 2017-12-14 Denominations are one of the primary ways in which Christians attempt to live in a community based around God Yet there is very little careful theological analysis of denomination available today *Between Congregation and Church* offers a constructive theological understanding of denomination showing its role as an intermediary structure between congregation and church It places denomination and other intermediary structures within the doctrine of the church Barry Ensign George reviews work by theologians and church historians that can contribute to a constructive theological understanding of denomination The book highlights particular developments in the history of the church that established preconditions for the emergence of denomination Exploration of unity and diversity is central to this analysis and individual chapters offer theological analyses of the unity and the diversity to which the Christians are called Finally denomination has often been a vehicle for sin and the relationship between denomination and sin is considered *Between Congregation and Church* addresses a major gap in contemporary theology the failure to offer substantive theological analysis of denomination a major way Christians together live their faith today

The Oxford Handbook of Ecclesiology Paul Avis, 2018-06-21 The Oxford Handbook of Ecclesiology is a unique scholarly resource for the study of the Christian Church as we find it in the Bible in history and today As the scholarly study of how we understand the Christian Church s identity and mission ecclesiology is at the centre of today s theological research reflection and debate Ecclesiology is the theological driver of the ecumenical movement The main focus of the intense ecumenical engagement and dialogue of the past half century has been ecclesiological and this is the area where the most intractable differences remain to be tackled Ecclesiology investigates the Church s manifold self understanding in relation to a number of areas the origins structures authority doctrine ministry sacraments unity diversity and mission of the Church including its relation to the state and to society and culture The sources of ecclesiological reflection are the Bible interpreted in the light of scholarly research Church history and the wealth of the Christian theological tradition together with the information and insights that emerge from other relevant academic disciplines This Handbook considers the biblical resources historical development and contemporary initiatives in ecclesiology It offers invaluable and comprehensive guide to understanding the Church

Denomination Paul M. Collins, Barry A. Ensign-George, 2011-06-16 The term denomination is now widely used to describe a Christian community or church But what is a denomination In this highly creative collection of essays

representatives of all major Christian traditions give an answer to this question What does the term mean in their own tradition And does that tradition understand itself to be a denomination If so what is that understanding of denomination and if not how does the tradition understand itself vis vis those churches which do and those churches which do not understand themselves as denominations In dialogue with the argument and ideas set forth in Barry Ensign George s essay each contributor offers a response from the perspective of a particular church tradition Each essay also considers questions concerning the current landscape of ecumenical dialogue ecumenical method and the goals of the ecumenical movement as well as questions of Christian identity and belonging

The Oxford History of Protestant Dissenting Traditions, Volume V Mark P. Hutchinson, Mark Hutchinson, 2018 Volume V extends the study of the Oxford History of Dissenting Protestant Traditions series into the twentieth century following the spatial cultural and intellectual changes in dissenting identity and practice as these once European traditions globalized and settled down in other places

The Cambridge Companion to Pentecostalism Cecil M. Robeck, Amos Yong, 2014-08-11 This volume reviews manifestations of Pentecostalism throughout the world and explores what it means to be Pentecostal through multidisciplinary perspectives

Pentecostalism and Christian Unity, Volume 2 Wolfgang Vondey, 2013-03-28 This book is the follow up volume to Pentecostalism and Christian Unity Ecumenical Documents and Critical Assessments The first volume documented the history and ecumenical engagement of Pentecostals during the twentieth century This new collection traces the ecumenical developments narratives and conversations during the first decade of the twenty first century The ecumenical community and Pentecostals have consistently lamented the absence of a comprehensive gathering of resources for both groups This particular volume provides two significant assets in this regard 1 documentation of new and emerging conversations that have not yet produced official reports and 2 official reports from continuing conversations The book begins with an overview of a century of Pentecostal participation in Christian unity Part One contains ecumenical narratives on the Joint Consultative Group of Pentecostals and the World Council of Churches Lutherans and Pentecostals the Global Christian Forum and Christian Churches Together in the USA Part Two contains the extensive reports from the official dialogue of Pentecostals with the Roman Catholic Church the World Alliance of Reformed Churches and the Oneness Trinitarian Pentecostal dialogue This collection presents an invaluable resource for teachers scholars and pastors interested in engaging the global Christian arena from the worldwide and ecumenical perspectives of Pentecostalism

Charism in the Church Constant Leke Ngolefac, 2024-03-01 Charism is a hot contemporary issue The growing interest in the charisms is one of the significant religious developments of our time Opinions on charisms vary to a remarkable degree Unfortunately in some cases diverse viewpoints have led to confusion among Christians On the positive side though this developing interest in charisms has contributed to spiritual renewal and stimulated biblical research in this most important area of the Church s life The exponential growth of the Charismatic Pentecostal Movement throughout the world and especially in Africa urged led to

choice of this topic on charisms In the Charismatic Pentecostal Movements the issue of charisms is very vital and extremely important It is at the centre of its spirituality and practice This Movement has spread to almost all major Christian confessions denominations and continues to attract many followers This work is unique among the many studies written on the charisms Even though the subject of charisms has received some scholarly attention most have not delved into the role of the charisms in the Church from Pauline perspective as this study does The following observations and reasons demonstrate that it is still meaningful and worthwhile to study charisms in Pauline letters Brotherhood in Christ Oleksandr Geychenko,2024-05-31 Traditional evangelical theology with its emphasis on individual responsibility and the independence of faith communities has often failed to offer a robust ecclesial vision for the unity of Christ's church Engaging this reality Dr Oleksandr Geychenko seeks to provide a theological framework for understanding the ecclesiological nature of Ukrainian Baptist church associations He traces the history and development of Baptist unions in Eastern Europe examining associational practices and organisational structure along with the theological language used to describe the role and purpose of such unions In dialogue with the covenant theology of Paul S Fiddes he demonstrates that church associations should be viewed as more than pragmatic entities Rather they are ecclesial bodies embodying covenantal unity committed to mutual care and participation in Christ's mission to the world While drawing from primary sources and ecclesial practices to provide a unique and significant contribution to local theology this study bears relevance for engaging ecumenical relations across traditions and encouraging the unity of the broader global church Religious and Theological Abstracts ,1985

Index to Theses with Abstracts Accepted for Higher Degrees by the Universities of Great Britain and Ireland and the Council for National Academic Awards ,2007 **Comprehensive Dissertation Index, 1861-1972: Philosophy and religion** Xerox University Microfilms,1973 Dissertation Abstracts International ,1970 Fading Frontiers? Sandra Arenas,2021 One aspect of the ecclesiological renewal at Vatican II that has not received much scholarly attention so far is the doctrine of the elements of the church *elementa ecclesiae* previously unheard of in Roman Catholic magisterial documents This book offers an original and comprehensive study of this notion and how it became part of the official teaching of the Roman Catholic church Using a historical theological approach the author studies the origins and evolution of the concept of the elements of the church and gives a nuanced understanding of this doctrine as outlined in *Lumen gentium* 8 and *Unitatis redintegratio* 3 In this way the author offers a renewed insight into the evolution of the position of the Roman Catholic church in oecumenicis during and in the aftermath of Vatican II The development sketched in the book is characterized by a double perspective On the one hand there is the debate about the frontiers of the church that focuses on the relationship between the Roman Catholic church and the church of Christ On the other hand and closely related to the first aspect there is the issue of the recognition of ecclesial elements in non Catholic Christian communities Both threads are closely interwoven and it is important to understand the relationship if one wants to do justice to the doctrinal balance and

complexity of Vatican II's ecumenical ecclesiology. Taking these two aspects together, one should readily acknowledge the shift that typifies Roman Catholic ecclesiology from a juridical approach to the question of defining the Roman Catholic church's frontiers over against the outside world and a fortiori over against other Christian denominations towards a sacramental approach to Roman Catholic ecclesiology in which the notions of sacramentality and mystery are foundational. Along with this new approach came a renewed attention for a Christ-centred ecclesiology and a recognition of the activity and work of the Spirit outside the Roman Catholic church. All of these aspects are touched upon in this book. The author has studied original documentation in a number of archives. The book thus offers a detailed reconstruction of textual evolutions and highlights the role played by Catholic and non-Catholic theologians who have helped shape contemporary ecclesiological thought. It gives us insight into the complex background history of the *elementa ecclesiae* and shows how it continues to inspire post-conciliar ecclesiological and ecumenical discussions.
