Deporting our Souls Bill Ong Hing, 2006-10-16 In the past three decades images of undocumented immigrants pouring across the southern border have driven the immigration debate and policies have been implemented in response to those images The Oklahoma City bombings and the tragic events of September 11 both of questionable relevance to immigration policy have provided further impetus to implement strategies that are anti immigration in design and effect This book discusses the major immigration policy areas undocumented workers the immigration selection system deportation of aggravated felons national security and immigration policy and the integration of new Americans and the author suggests his own proposals on how to address the policy challenges from a perspective that encourages us to consider the moral consequences of our decisions The author also reviews some of the policies that have been put forth and ignored and suggests new policies that would be good for the country economically and socially

Huntington USC Institute on California and the West **Opening the Floodgates** Kevin R. Johnson, 2007 Seeking to re imagine the meaning and significance of the international border Opening the Floodgates makes a case for eliminating the border as a legal construct that impedes the movement of people into this country Open migration policies deserve fuller analysis as evidenced by President Barack Obama s pledge to make immigration reform a priority Kevin R Johnson offers an alternative vision of how U S borders might be reconfigured grounded in moral economic and policy arguments for open borders Importantly liberalizing migration through an open borders policy would recognize that the enforcement of closed borders cannot stifle the strong perhaps irresistible economic social and political pressures that fuel international migration Controversially Johnson suggests that open borders are entirely consistent with efforts to prevent terrorism that have dominated immigration enforcement since the events of September 11 2001 More liberal migration he suggests would allow for full attention to be paid to the true dangers to public safety and national security Social Death Lisa Marie Cacho, 2012-01-01 Winner of the 2013 John Hope Franklin Book Prize presented by the American Studies Association Social Death tackles one of the core paradoxes of social justice struggles and scholarship that the battle to end oppression shares the moral grammar that structures exploitation and sanctions state violence Lisa Marie Cacho forcefully argues that the demands for personhood for those who in the eyes of society have little value depend on capitalist and heteropatriarchal measures of worth With poignant case studies Cacho illustrates that our very understanding of personhood is premised upon the unchallenged devaluation of criminalized populations of color Hence the reliance of rights based politics on notions of who is and is not a deserving member of society inadvertently replicates the logic that creates and normalizes states of social and literal death Her understanding of inalienable rights and personhood provides us the much needed comparative analytical and ethical tools to understand the racialized and nationalized tensions between racial groups Driven by a radical relentless critique Social Death challenges us to imagine a heretofore unthinkable politics and ethics that do not rest on neoliberal arguments about worth but rather emerge from the insurgent experiences of those negated persons who do not live by the norms that determine the productive patriotic law abiding and family oriented subject **The Sun Never Sets** Vivek Bald, 2013-07-22 Sujani Reddy is Five College Assistant Professor of Asian Pacific American Studies in the Department of American Studies at Amherst College Manu Vimalassery is Assistant Professor of History at Texas Tech University
