The Complete Works of Lord Byron, Reprinted from the Last London Edition ... To which is Prefixed a Life by Thomas Moore [abridged] ... With a Portrait George Gordon Byron Baron Byron, 1852 **American Literature and the Culture of Reprinting, 1834-1853** Meredith L. McGill, 2013-10-11 The antebellum period has long been identified with the belated emergence of a truly national literature And yet as Meredith L McGill argues a mass market for books in this period was built and sustained through what we would call rampant literary piracy a national literature developed not despite but because of the systematic copying of foreign works Restoring a political dimension to accounts of the economic grounds of antebellum literature McGill unfolds the legal arguments and political struggles that produced an American culture of reprinting and held it in place for two crucial decades In this culture of reprinting the circulation of print outstripped authorial and editorial control McGill examines the workings of literary culture within this market shifting her gaze from first and authorized editions to reprints and piracies from the form of the book to the intersection of book and periodical publishing and from a national literature to an internally divided and transatlantic literary marketplace Through readings of the work of Dickens Poe and Hawthorne McGill seeks both to analyze how changes in the conditions of publication influenced literary form and to measure what was lost as literary markets became centralized and literary culture became stratified in the early 1850s **American Literature and the Culture of Reprinting 1834 1853** delineates a distinctive literary culture that was regional in articulation and transnational in scope while questioning the grounds of the startlingly recent but nonetheless powerful equation of the national interest with the extension of authors rights **The Complete Works of Edgar Allan Poe (Classic Reprint)** Edgar Allan Poe, 2015-07-03 Excerpt from The Complete Works of Edgar Allan Poe Upon my return to the United States a few months ago after the extraordinary series of adventure in the South Seas and elsewhere of which an account is given in the following pages accident threw me into the society of several gentlemen in Richmond Va who felt deep interest in all matters relating to the regions I had visited and who were constantly urging it upon me as a duty to give my narrative to the public I had several reasons however for declining to do so some of which were of a nature altogether private and concern no person but myself others not so much so One consideration which deterred me was that having kept no journal during a greater portion of the time in which I was absent I feared I should not be able to write from mere memory a statement so minute and connected as to have the appearance of that truth it would really possess barring only the natural and unavoidable exaggeration to which all of us are prone when detailing events which have had powerful influence in exciting the imaginative faculties Another reason was that the incidents to be narrated were of a nature so positively marvellous that unsupported as my assertions must necessarily be except by the evidence of a single individual and he a half breed Indian I could only hope for belief among my family and those of my friends who have had reason through life to put faith in my veracity the probability being that the public at large would regard what I should

put forth as merely an impudent and ingenious fiction A distrust in my own abilities as a writer was nevertheless one of the principal causes which prevented me from complying with the suggestions of my advisers Among those gentlemen in Virginia who expressed the greatest interest in my statement more particularly in regard to that portion of it which related to the Antarctic Ocean was Mr Poe lately editor of the Southern Literary Messenger a monthly magazine published by Mr Thomas W White in the city of Richmond About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Romantic Foundations of the American Renaissance Leon Chai,2019-05-15 The Romantic Foundations of the American Renaissance illuminates the process by which the cultural legacy of European Romanticism was assimilated by and transformed in the literature of mid nineteenth century America Leon Chai traces the development various governing concepts or tendencies from their genesis in British French and German Romantic traditions through their subsequent appropriation by such American writers as Poe Emerson Hawthorne and Melville Among the topics he addresses are the shift from allegory to symbolism selected trends in Romantic science the secularization of religion the emergence of a historical consciousness and a philosophy of history pantheism the relation of subjectivity to objectivity in Romantic philosophy and Romantic poets

Unity and Design in Horace's Odes Matthew S. Santirocco,2015-01-01 Horace s first three books of Odes published together in 23 B C are a masterpiece of Augustan literature and the culmination of classical lyric Matthew Santirocco provides the first new critical approach to them in English in more than two decades Drawing on recent works on ancient and modern poetry books and using several contemporary critical methodologies Santirocco reveals the Odes both as individual poems and as components in a larger poetic design His reading of Horace demonstrates that the ensemble is itself an important context for understanding and appreciating the poetry Reconstructing the history of the ancient poetry book both Greek and Roman Santirocco challenges certain common assumptions about its origin and development He argues that true parallels for the Odes are not to be found in the other Augustan books which are relatively homogeneous in content and form but in the heterogeneous collections of Hellenistic writers Odes I III comprise eighty eight poems in twelve different meters and in tone and topic they vary widely Avoiding the two extremes of past scholarship which either has searched for a single underlying unity or else has denied any meaningful design Santirocco uncovers a variety of both static and dynamic structures and shows their relevance to the literary interpretation of the poems at all levels Ultimately the composition of a poem and the disposition of the group are

shown to be analogous activities Odes I III do not constitute a medley of discrete poems but instead approximate the unity of a single ode The Nation ,1902
