Complexity Tax Simplification Experiences Around:

The Complexity of Tax Simplification Simon James, Adrian Sawyer, Tamer Budak, 2016-04-29 Simplicity in taxation has considerable potential advantages However attempts to simplify tax systems are only likely to be successful and enduring if they take account of the reasons why taxation is complex There are strong pressures on tax systems to accommodate a range of important factors as well as complex and changing national and international environments within which modern tax systems have to operate This book explores the experiences of simplification in a range of countries and jurisdictions The authors analyse a range of manifestations of simplification including tax systems tax law taxpayer communications and tax administration They also review the longer term or more fundamental approaches to simplification suggesting that in order to strike the optimum balance between simplicity and the aims of a tax system in terms of efficiency and equity a range of complex environmental factors must all be taken into account With chapters reflecting on experiences from Australia China Canada Malaysia New Zealand Russia South Africa Thailand Turkey the UK and the US the authors illustrate differences between jurisdictions and the changing environment in which they operate This book addresses the crucial balance between simplicity and the other objectives of tax design and reform and suggests that reformers of the tax system should include simplicity as one of the key evaluators of any design or reform proposal

Taxation in the Digital Economy Nella Hendriyetty, Chris Evans, Chul Ju Kim, Farhad Taghizadeh-Hesary, 2022-07-11 A robust and efficient tax administration in a modern tax system requires effective tax policies and legislation Policy frameworks should cover all aspects of tax administration and include the essential processes of capturing processing analyzing and responding to information provided by taxpayers and others concerning taxpayers affairs By far the greatest challenges facing tax administrations in all countries are those posed by the continuing developments in the digital economy Whereas societies are grappling to come to terms with the transitions from the third industrial or digital revolutions revenue authorities grapple with the consequences for the sustainability of their tax bases and the efficient administration and collection of taxes This book presents a critical review of the status of tax systems in Asia and the Pacific in the era of the digital economy The book suggests how countries can maximize their domestic resource mobilization when confronted by the challenges that digitalization inevitably produces as well as how they can best harness or take advantage of aspects of digitalization to serve their own needs The full implications

of the COVID 19 crisis are still too uncertain to predict but it is clear that the crisis will accelerate the trend towards digitalization and also increase pressures on public finances This in turn may shape the preference for and the nature of both multilateral and unilateral responses to the tax challenges posed by digitalization and the need to address them This book will be a timely reference for those researching on taxation in digital economy and for policy makers The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Corporate Tax Base in the Light of the IAS/IFRS and EU Directive 2013/34: A Comparative Approach Mario Grandinetti, 2016-06-17 The recent relaunch of the European Commission's Common Consolidated Corporate Tax Base (CCCTB) project promises a sorely needed leap forward in the harmonization of the rules by which companies calculate their taxable profits In particular the initiative hopes to remedy the severe barrier to cross border business caused by the 'Tower of Babel' by which companies' tax bases are determined under national law This thorough analysis and commentary covers the influence of accounting rules on tax considering both generally accepted standards international accounting standards IAS and international financial reporting standards IFRS and EU Directive 2013/34 Three introductory chapters usher in detailed comparative overviews of the effect of these rules on taxation in nine EU Member States as well as in two other major EU trading partners the United States and Brazil Fully explaining the remarkable recent improvement in the comparability of accounts that represent favourable preconditions for creating a single market for financial services within the EU this book covers every relevant detail including the following and much more: criterion of evaluation of alternative fixed assets based on revaluated amounts criterion based on fair value provisions applicable to income statements notes reports and financial statements rules applicable to the publication of documents transparency in payments to governments dispositions on exemptions hierarchy of general provisions and principles balance sheet and profit and loss account simplifications for small and medium sized enterprises (SMEs) system of creditors protection and protection of investors interests This book is a peerless explication of the taxation choices granted to Member States under IAS IFRS and EU Directive 2013/34 and how they will be affected by ongoing Commission initiatives Because relevant timely reliable and comparable information assumes a leading role in protecting the interests of investors creditors and other stakeholders as well as in ensuring that all operators act on a level playing field under equal conditions the analysis presented here is of immeasurable value to lawyers business persons and officials concerned with taxation not only in Europe but anywhere within the reach of international trade

Administrative Law in Action Robert Thomas, 2022-02-10 This book investigates and analyses how administrative law works in practice through a detailed case study and evaluation of one of the UK's largest and most important administrative agencies the immigration department In doing so the book broadens the conversation of administrative law beyond the courts to include how administrative agencies themselves make apply and enforce the law Blending theoretical and empirical administrative legal analysis the book demonstrates why we need to pay

closer attention to what government agencies actually do how they do it how they are organised and held to account Taking a contextual approach the book provides a detailed analysis of how the immigration department performs its core functions of making policy and law taking mass casework decisions and enforcing immigration law The book considers major recent episodes of immigration administration including the development of the hostile environment policy and the treatment of the Windrush generation By examining a diverse range of material the book presents a model of administrative law based upon the organisational competence and capacity of administration and its institutional design Alongside diagnosing the immigration department s failings the book advances positive proposals for its reform Handbook of Behavioural

Economics and Smart Decision-Making Morris Altman,2017-05-26 This Handbook is a unique and original contribution of over thirty chapters on behavioural economics examining and addressing an important stream of research where the starting assumption is that decision makers are for the most part relatively smart or rational This particular approach is in contrast to a theme running through much contemporary work where individuals behaviour is deemed irrational biased and error prone often due to how people are hardwired In the smart people approach where errors or biases occur and when social dilemmas arise more often than not improving the decision making environment can repair these problems without hijacking or manipulating the preferences of decision makers This book covers a wide range of themes from micro to macro including various sub disciplines within economics such as economic psychology heuristics fast and slow thinking neuroeconomics experiments the capabilities approach institutional economics methodology nudging ethics and public policy **Handbook**

of Research on Modernization and Accountability in Public Sector Management Azevedo, Graça Maria do Carmo,da Silva Oliveira, Jonas,Marques, Rui Pedro Figueiredo,Ferreira, Augusta da Conceição Santos,2018-03-02 The effects of recent economic and financial crises have reached an international scale A number of different nations have experienced the fallout of these events calling into question issues of accountability and reform in public management The Handbook of Research on Modernization and Accountability in Public Sector Management is an essential scholarly publication that focuses on responsibility within public sector institutions and the importance of these institutions being ethical transparent and rigorous Featuring coverage on a broad range of topics such as corporate social responsibility e government and financial accountability this publication is geared toward regulatory authorities researchers managers and professionals working in the public domain *Corruption from a Regulatory Perspective* Maria De Benedetto,2021-09-23 This book seeks to enrich

and in some cases reverse current ideas on corruption and its prevention It is a long held belief that sanctions are the best guard against corrupt practice This innovative work argues that in some cases sanctions paradoxically increase corruption and that controls provide opportunities for corrupt transactions Instead it suggests that better regulation and responsive enforcement not sanctions offer the most effective response to corruption Taking both a theoretical and applied approach it examines the question from a global perspective drawing on in particular a regulatory perspective to provide a model for

tackling corrupt practices **The Rules of Democracy** Marcial Bragadini Bóo, 2022-06-21 The world can be better run Democracy is the most effective way to take back control over decisions that impact people's lives But democracy must evolve following a global technological revolution that has increased fears that global trade and immigration threaten our identity that we face environmental ruin and that cybercriminals and big tech can do as they please unchecked all made worse by COVID 19 This book presents a roadmap for more accountable democracy locally nationally and internationally Marcial Bragadini B o proposes updating rules so that politicians are better held to account public services improve and people can contribute to their communities New rules of democracy may help find solutions to global problems and ensure everyone is fairly represented at the decision making table Political Competition and the Study of Public Economics

Stanley L. Winer, J. Stephen Ferris, 2022-10-06 Why is an understanding of political competition essential for the study of public economics and public policy generally How can political competition be described and understood and how does it differ from its strictly economic counterpart What are the implications of the fact that policy proposals in a democracy must always pass a political test What are the strengths and weaknesses of electoral competition as a mechanism for the allocation of economic resources Why are tax structures in democratic polities so complicated and what implications follow from this for normative views about good policy choice How can the intensity of political competition be measured why and how does it vary in mature democracies and what are the consequences This Element considers how answers to these questions can be approached while also illustrating some of the interesting theoretical and empirical work that has been done on them

House of Commons: Committee of Public Accounts, 2013-02-19 HMRC estimates that in 2010 11 the tax gap due to avoidance was 5 billion and that the present total tax at risk from avoidance over time is 10 2 billion There is a proliferation of contrived schemes which exploit loopholes in legislation and abuse available tax relief schemes Promoters are deliberately taking advantage of the time lag between the launch of a scheme and the closure of the scheme by HMRC Promoters and providers sign up as many clients as possible before HMRC changes the law and shuts the scheme They then move on to a new scheme and repeat the process The complexity of tax law creates opportunities for avoidance there is no effective deterrent and HMRC is ineffective in challenging promoters All too often Government introduces tax incentives to stimulate economic activity that become an opportunity for tax avoidance Promoters collect their fees even when the schemes are found not to deliver a tax advantage and few schemes are covered by mis selling regulations Those who promote a tax avoidance scheme are required to notify HMRC of the scheme however HMRC does not know how much avoidance is not disclosed but should It is alarming that some QCs opinions are being used by promoters as a reasonable excuse for non disclosure which prevents HMRC from applying a penalty HMRC could learn from how other countries deter and tackle tax avoidance HMRC should also name and shame those who promote tax avoidance schemes to harness public opinion and reduce the appetite of companies to promote or use avoidance schemes

HL 108 - The Draft Finance Bill 2016 The Stationery Office, 2016 The Finance Bill Sub Committee of the Economic Affairs Committee has met most years since 2003 to examine selected aspects of the year s Finance Bill or since 2013 draft Finance Bill The FBSC began its inquiry into the draft Finance Bill 2016 in January and chose to focus on two cross cutting issues the extent to which measures proposed in the draft Bill contribute to the simplification of the personal tax system and their impact on the compliance burdens of taxpayers In considering these two broad issues the inquiry concentrated on three areas in the draft Bill the clauses reforming the taxation of savings income and dividends those providing new powers for HMRC to issue Simple Assessments of an individual s tax liability and those establishing the Office of Tax Simplification OTS on a statutory basis
