go when feeling scared Teachers must be aware of not passing on cultural stereotypes while elementary school children are not able to conceptualize socioeconomic differences in terms of profession and status in the current consumer oriented world the advantages of wealth and disadvantages of poverty soon become evident to them Also teachers should learn as much as possible about the dynamics of their communities and recognize the messages that children are absorbing in their daily experience Suggestions for promoting parental involvement include recruiting a volunteer to become a liaison between teacher and parents showing respect for parents by treating them as co workers rather than as free help asking for parents input and thanking them for their participation ND
