Binge TV Emil Steiner, 2023-03-06 For the first 70 years of television broadcasters dictated the terms of the viewing experience deciding not only when but how much of a program an audience could watch Binge watching destroyed that model by placing control of the experience in the hands of the viewer In this book media scholar Emil Steiner chronicles the technological and cultural struggle between broadcasters and viewers which reached a climax in the early 2010s with the emergence of streaming video platforms Through extensive interviews and archival research this groundbreaking project traces the history of binge watching from its idiot box roots to the new normal of Peak TV Along the way Steiner exposes the news campaigns waged by disruptive technology companies that exploited a long simmering revolutionary narrative of viewer empowerment to take over the broadcast industry Binge watching an individual's act of gaining control and losing control through the remote control exposed a debate that had been raging since the first TV set was turned on one that asks

Who controls the story **Social TV** Mike Proulx, Stacey Shepatin, 2012-01-26 The Internet didn't kill TV. It has become its best friend. Americans are watching more television than ever before and we're engaging online at the same time we're tuning in. Social media has created a new and powerful backchannel fueling the renaissance of live broadcasts. Mobile and tablet devices allow us to watch and experience television whenever and wherever we want. And connected TVs blend web and television content into a unified big screen experience bringing us back into our living rooms. Social TV examines the changing and complex television landscape and helps brands navigate its many emerging and exciting marketing and advertising opportunities. Social TV topics include: Leveraging the second screen to drive synched and deeper brand engagement. Using social ratings analytics tools to find and target lean forward audiences. Aligning brand messaging to content as it travels time shifted across devices. Determining the best strategy to approach marketing via connected TVs. Employing addressable TV advertising to maximize content relevancy. Testing and learning from the most cutting edge emerging TV innovations. The rise of one technology doesn't always mean the end of another. Discover how this convergence has created new marketing opportunities for your brand.

Neoliberalism and the Media Marian Meyers, 2019-01-31 This book examines the multiple ways that popular media mainstream and reinforce neoliberal ideology, exposing how they promote neoliberalism's underlying ideas, values, and beliefs so as to naturalize inequality, undercut democracy, and contribute to the collapse of social notions of community and the common good. Covering a wide range of media and genres and adopting a variety of qualitative textual methodologies and theoretical frameworks, the chapters examine diverse topics from news coverage of the 2016 U.S. presidential election to the NBC show *Superstore*, an atypical instance in which a TV show for one brief season challenged the central tenets of neoliberalism to kitchen porn. The book also takes an intersectional approach as contributors explore how gender, race, class, and other aspects of social identity are inextricably tied to each other within media representation. At once innovative and distinctive in its illustration of how the media is complicit in perpetuating neoliberal ideology, *Neoliberalism and the Media* offers students and scholars alike an incisive portrait of the intersection between media and ideology today.

Intersectionality, Political Economy, and Media Carolyn M. Byerly, 2024-07-30 This textbook considers the critical relationship between gender, race, and class and the political economy of media, providing an accessible introduction for students. Carolyn M. Byerly integrates gender, race, and class analysis in posing an intersectional political economy (IPE) of media theory and demonstrates how that theory applies in examining communication laws, policies, technology, and other aspects of media today. By synthesizing feminist and critical race theories with more traditional class analysis, this book offers a unified approach to examining the media. Individual chapters delve into communication policy, ownership, governance, labor, and technology issues, with a concluding chapter that explores future research. The book situates citizen challenges to the media's control by a small power elite within a dialectic of struggle and highlights specific campaigns that have pursued successful policy and media reform. Several short case studies by other

authors illustrate how an IPE investigation can be undertaken This is a key text for undergraduate and graduate media and communication courses such as Media and Society Political Economy of Media Gender Race and Media Research Methods and more It will also appeal to social science classes such as Media Sociology Labor Studies and Political Economy Research
