Teehankee, Christian Echle, 2023-05-04 Looking at eight case studies of Asian democracies the contributors to this volume analyze the role of political parties in stabilizing and institutionalizing democracies How have democracies such as Indonesia Sri Lanka and the Philippines survived against the odds despite struggling economic performance and highly unequal distribution of income How have formerly authoritarian regimes in places like South Korea and Taiwan evolved into stable democracies The contributors to this volume examine these case studies along with Mongolia Malaysia and India arguing that the common element is the extent to which political parties including opposition parties have become institutionalized and act as stabilizers on democracy They contend that the role of political parties has been significantly underestimated in comparison with structural elements which are insufficient to explain how these democracies have persisted An essential resource for students and scholars of Asian politics especially those with a focus on comparative politics political parties and institutions The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license Funded by Konrad Adenauer Stiftung      [China, The United States, and the Future of Southeast Asia](#) David B. **Marriages of Inconvenience** Susan Booyesen, 2021-12-12 Marriages of Inconvenience The politics of coalitions in South Africa is a research based volume that collates and interprets lessons that South Africa should take to heart in managing interparty coalitions It draws from domestic experiences as well as from case studies on the rest of the African continent and generic instances further afield Coalitions in various iterations have been a part of the South African polity since the attainment of democracy in 1994 This started nationally with a grand coalition in the form of a Government of National Unity as mandated in the interim constitution Coalitions have also found expression in some of the country s provinces After the transition multiparty governments were sustained at national and provincial levels either as a matter of necessity due to election outcomes or for other political considerations At local government level coalitions have been relatively commonplace in South Africa from the onset of democratically elected municipalities in 2000 with many situations where no single party attained an absolute majority This gained prominence from 2016 when many metropolitan governments and some large towns became sites of coalition politics

**Political Change, Democratic Transitions and Security in Southeast Asia** Mely Caballero-Anthony, 2009-12-16 The fragility of democracy in Southeast Asia is a subject of increasing concern While there has been significant movement in the direction of democratisation the authoritarian tendencies of popularly elected leaders and the challenges posed by emerging security threats have given rise to a shared concern about the return of military rule in the region This book examines the nature of political transitions in Southeast Asia and why political transitions towards political liberalisation and democracy have often failed to take off It considers political systems in Southeast Asia that have gone through significant periods of transition but continue to face serious challenges toward democratic consolidation Some key questions that the book focuses on are Are emerging democracies in the region threatened by weak failed or authoritarian leadership Are political institutions that are supposed to support political changes toward democratisation weak or strong How can democratic systems be made more resilient and What are the prospects of democracy becoming the defining political landscape in

Southeast Asia      **Routledge Handbook of Law and the COVID-19 Pandemic** Joelle Grogan,Alice Donald,2022-05-16  
The COVID 19 pandemic not only ravaged human bodies but also had profound and possibly enduring effects on the health of political and legal systems economies and societies Almost overnight governments imposed the severest restrictions in modern times on rights and freedoms elections parliaments and courts Legal and political institutions struggled to adapt creating a catalyst for democratic decline and catastrophic increases in poverty and inequality This handbook analyses the global pandemic response through five themes governance and democracy human rights the rule of law science public trust and decision making and states of emergency and exception Containing 12 thematic commentaries and 25 chapters on countries of diverse size wealth and experience of COVID 19 it represents the combined effort of more than 50 contributors including leading scholars and rising voices in the fields of constitutional international public health human rights and comparative law as well as political science and science and technology studies Taking stock after the onset of global emergency this book provides essential analysis for politicians policy makers jurists civil society organisations academics students and practitioners at both national and international level on the best and most concerning practices adopted in response to COVID 19 and key insights into how states and multilateral institutions should reform adapt and prepare for future emergencies      **Democratic Recession, Autocratization, and Democratic Backlash in Southeast Asia** James Ockey,Naimah S. Talib,2023-03-10 This book presents a new organizing framework for studying democratic recession and autocratization in Southeast Asia By introducing a new concept democratic backlash the book details how democratic recession inevitably provokes resistance that often forms the nucleus of new democratic movements and in doing so argues that it is important to identify these reverse trends that may eventually become dominant The book contributes to current literature which thus far has sought to understand the causes and consequences of the decline in democracy around the world Previous literature has focused primarily on advanced democracies or alternatively on large scale quantitative comparison As such this book helps fill a research gap with its focus on Southeast Asia employing a comparative case study approach Chapter authors are experts on Southeast Asia a region that has experienced democratic recession and autocratization in a variety of ways from rising populism to military coups      **The 2019 Parliamentary Elections in India** Subrata K. Mitra,Rekha Saxena,Pampa Mukherjee,2022-06-16 This book presents a comprehensive overview of India s electoral democracy and political system It provides an in depth analysis of the 2019 parliamentary elections to explore three crucial facts of India s political life the legitimacy of political competition as the only basis of power elections as the only legitimate basis of political competition and political parties as the only legitimate agency to conduct political competition The book argues that the vitality and resilience of India s electoral democracy remain high owing to large mass participation in elections that are competitive and relatively free and fair The volume includes key theoretical empirical and comparative perspectives on parties and elections from experts and covers all major political parties of India along with the performance

of many representative regional parties It discusses themes such as elections and party competition in India ideology interest religion and gender as they affect social mobilisation and political transaction economic and political change and multiparty democracy the dynamics of the Muslim vote fluctuating electoral fortunes and electoral campaigns and role of social media This book will be an essential read for scholars and researchers of political science political sociology election studies Indian politics South Asian politics and South Asian studies It will also interest those in politics public policy and governance civil society organisations media and journalism and the general reader Civil Society and Political Change in Asia Muthiah Alagappa, 2004 A systematic investigation of the connection between civil society and political change in Asia change toward open participatory and accountable politics Its findings suggest that the link between a vibrant civil society and democracy is indeterminate certain civil society organizations support democracy others could undermine it **Globalization and India's Economic Integration** Baldev Raj Nayar, 2014-10-14 This study of India's political economy provides a thorough examination of one critique of globalization that it causes economic segmentation and possibly disintegration of the national economy as some sectors benefit and others are left behind Economic segmentation is the breaking up of national markets resulting in distinct winners and losers Nayar's examination challenges this critique by demonstrating that on balance the active role of the Indian state in the areas of economic planning fiscal federalism and tax reform has resulted in improved economic integration not increased segmentation Similarly his investigation of trade investment entrepreneurship and migration all reveal tendencies inherent in the market in favor of economic integration especially when assisted by the state Nayar's findings lead to the conclusion that while globalization both offers benefits greater economic growth and involves costs external shocks India's experience since its opening in 1991 suggests that India has benefited from more than been victimized by globalization *The Politics of Coalition in Korea* Youngmi Kim, 2011-04-05 This book examines how inter and intra party coalition building affects governability in South Korea Focusing on the Kim Dae-jung administration 1998-2003 as a case study in the failure of a government to turn electoral success into stable governability or ability to implement reform policies the book's research draws on two bodies of literature which though focusing on the same dependent variable cabinet or government stability have rarely been used in tandem coalition research on parliamentary systems and studies of divided government in presidential systems Youngmi Kim argues that a weak institutionalization of the ruling party and the party system accounts for political instability and inefficient governability in Korea and in doing so her study makes a number of key contributions to the field Theoretically it proposes a framework which integrates a rationalist approach with one that acknowledges the role of political culture It further enhances the understanding of factors affecting governability after coalition building across regime types and aims to build on recent demands for broader cross regime analysis of minority divided government and of the determinants of governability This has important comparative implications as coalition building within semi presidential systems has occurred in other post authoritarian contexts The book finally provides a new

dataset which fills a gap in a field where Western cases constitute the main focus of research

**The President's Dilemma in Asia** Don S. Lee, 2024-07-12 *The President's Dilemma in Asia* provides one of the first comprehensive and comparative theory of presidential government formation In the authoritarian era presidents had greater control over key institutional actors in the process such as the legislature the ruling party and the bureaucracy However after democratic transition they have to navigate competing pressures from these political institutions This book highlights the major trade off that presidents of new democracies face in their relationship with the different political institutions the so called president's dilemma and their strategy in dealing with the dilemma Existing studies of presidential government formation in new democracies have largely overlooked the entirety of the structure of the political institutions surrounding the president and its impact on the president's government formation strategy This book offers a view that government formation is a window to understanding how presidents weigh the benefits of appointing ministers representing different political institutions under a variety of given institutional circumstances The question of which institution presidents attempt to accommodate through government formation is a high stakes one and addressing it is important because particular patterns of personnel

distribution can influence the kind of policies political leaders adopt and the level of accountability and responsiveness to constituents these policies represent Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterized by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit [www.ecprnet.eu](http://www.ecprnet.eu) The series is edited by Nicole Bolleyer Chair of Comparative Political Science Geschwister Scholl Institut LMU Munich and Jonathan Slapin Professor of Political Institutions and European Politics Department of Political Science University of Zurich
