Code Entreprises En Difficult 2016:

The Code Napoléon Rewritten John Cartwright, Simon Whittaker, 2017-10-05 The provisions of the French Civil Code governing the law of obligations have remained largely unchanged since 1804 and have served as the model for civil codes across the world In 2016 the French Government effected major reforms of the provisions on the law of contract the general regime of obligations and proof of obligations This work explores in detail the most interesting new provisions on French contract law in a series of essays by French lawyers and comparative lawyers working on French law and other civil law systems It will make these fundamental reforms accessible to an English speaking audience *Collective Dismissal in the European Union: A Comparative Analysis* Roberto Cosio, Filippo Curcuruto, 2016-04-24 When business imperatives require large enterprises to reorganize involving the reduction in staff legally characterized as collective dismissal EU directives and laws across Europe mandate specific procedures to support workers who have been made redundant and impose sanctions where regulatory or judicial scrutiny uncovers violations It is thus essential that a clearly defined framework of the laws and jurisprudence in force in each Member State be provided for businesses and their counsel to ensure compliance and avoid sanctions This eminently practical book the first and only book of its kind provides exactly such an analysis The book is structured on a country by country basis with each chapter written by an expert in the country covered and responding concisely to such questions as the following How is collective dismissal calculated Which issues regarding collective layoffs procedures trigger legal intervention What happens when enterprises provide incomplete or delayed information to labour unions or public officials When can a worker be reinstated or claim compensation Each chapter clarifies the extent to which directives have been implemented in the Member States and whether the law in force provides workers with some more favourable treatments than EU actually requires Jurisprudence and its practical application are analysed from the perspective of the law in action rather than that of the law in the books A concluding chapter examines global standards and trends in this area of law There is no other publication fully devoted to the subject of collective dismissal extensively elaborated and supported with case law As a source of reliable information as manifested in the actions of judges lawyers solicitors firms and labour unions this book has no peers It will be welcomed and put to use by lawyers and solicitors specializing in labour law in house counsel and human resources professionals at multinational companies regulatory authorities and labour unions as well as by universities and centres of research in the field of European law and labour law The editors Roberto Cosio Filippo Curcuruto Vincenzo Di Cerbo and Giovanni Mammone all have extensive experience in judicial and administrative practice related to EU labour law particularly in Italy All are well known authors in this field

The Notion of Employer in the Era of the Fissured Workplace Roger Blanpain, Frank Hendrickx, 2017-01-15 The word fissured aptly describes the effect on the workplace of the enormous retreat from direct employment on the part of large enterprises that began several decades ago and shows no sign of slowing down Market leading companies even though

they continue to wield considerable influence on the fate of actual workers may thus be relieved of legal responsibility as employers How extensive is this phenomenon Do recourses exist in labour law What ongoing trends can be discerned This groundbreaking book tackles these questions and more with thoroughly researched reports from ten of the world's leading market driven economies Australia China France Germany Japan the Republic of Korea Spain Taiwan the United Kingdom and the United States Recognizing that law should squarely grasp and tackle this new reality the authors consider such questions as the following How far can current labour law go in determining the responsibility of persons who have no direct contractual relationship with the workers Do other measures such as soft law or reputation mechanisms in the market deal with the undesirable consequences of the fissurization more properly What managerial motives and socioeconomic backgrounds give rise to such fissurization What distinct phenomena compose fissuring Are measures available to protect workers that go beyond the boundary of the legal entity e g initiatives toward piercing the corporate veil Each contributor describes for his or her country how far the fragmentation and externalization of employment has gone current legislation protecting workers in a multilayered contractual relationship or indirect employment relationship e g on health and safety wages bargaining dismissal and emerging developments and trends This book ably responds to the question posed by a recent study Why has work become so bad for so many and what can be done to improve it Although concerned scholars worldwide will rally to the call the reports in this volume will also be of great practical value to business persons and labour and employment lawyers everywhere

Rescue of Business in Europe Gert-Jan Boon, 2020-01-30 This edited volume is based on the European Law Institute's ELI project Rescue of Business in Insolvency Law The project ran from 2013 to 2017 under the auspices of the ELI and was conducted by Bob Wessels and Stephan Madaus who were assisted by Gert-Jan Boon The study sought to design elements of a legal framework that will enable the further development of coherent and functional rules for business rescue in Europe This includes certain statutory procedures that could better enable parties to negotiate solutions where a business becomes financially distressed Such a framework also includes rules to determine in which procedures and under which conditions an enforceable solution can be imposed upon creditors and other stakeholders despite their lack of consent The project had a broad scope and extended to consider frameworks that can be used by non financial businesses out of court and in a pre insolvency context Part I of this book the ELI Instrument as approved by the ELI Council and General Assembly features 115 recommendations on a wide variety of themes affected by the rescue of financially distressed businesses such as the legal rules for professions and courts treatment and ranking of creditors claims contract corporate and labour law as well as laws relating to transaction avoidance Part II consists of national reports that sketch the legal landscape in 13 States and of an Inventory Report on International Recommendations from Standard Setting Organisations both of which provided insight for the drafting of the Instrument This volume is designed to assist those involved in a process of law reform and those setting standards for soft law in the business rescue context **Corporate**

Routledge Handbook of Consumer Protection and Behaviour in Energy Markets Tina Soliman Hunter, Marcin Krasniewski, Jurgita Malinauskaite, Marzena Czarnecka, 2024-09-27 The Routledge Handbook of Consumer Protection and Behaviour in Energy Markets provides a comprehensive study of consumer protection and consumer behaviour in selected jurisdictions worldwide Each chapter is written by experts and provides a contemporary overview of national consumer protection and policy developments in the energy sector Today energy has become an essential factor in ensuring the socio economic development of any country and improving the quality of life of society and is now an essential element of life for everyone The energy market has become a competitive market based on the assumption that generation and sale of energy is not a natural monopoly and that market mechanisms in particular competition between energy companies are the best way to reduce prices and improve customer service The purchase of energy is inextricably linked with its distribution from the producer to the purchaser The book shows that well functioning energy markets need informed and well protected consumers who can benefit from competition and transparent offers They are free to choose the most competitive providers and know their rights with access to effective means of redress Given that the energy market has a specific technical nature the book analyses the energy market within the scope of free market principles with a focus on the protection of the weaker party to the contract the consumer In addition consumers can also

play an active part of the clean energy transition *Emmanuel Macron and the two years that changed France* Alistair Cole, 2019-03-26 This book looks at the period 2015-18 in French politics a turbulent time that witnessed the apparent collapse of the old party system the taming of populist and left wing challenges to the Republic and the emergence of a new political order centred on President Emmanuel Macron The election of Macron was greeted with relief in European chancelleries and appeared to give a new impetus to European integration even accomplishing the feat of making France attractive after a long period of French bashing and reflexive decline But what is the real significance of the Macron presidency Is it as transformative as it appears *Emmanuel Macron and the two years that changed France* provides a balanced answer to this pressing question It is written to appeal to a general readership with an interest in French and European politics as well as to students and scholars of French politics **The Cambridge Companion to Business and Human Rights Law**

Ilias Bantekas, Michael Ashley Stein, 2021-09-09 How can businesses operate profitably and sustainably while ensuring that they are applying human rights It is possible to apply human rights while at the same time decreasing cost and making human rights contribute to profits Yet business efforts alone are insufficient and states must possess sufficient regulatory power to work together with businesses and investors not only to improve human rights but also to foster development more broadly This textbook the first of its kind explores all aspects of the links between business operations and human rights Its twenty five chapters guide readers systematically through all the particular features of this intersection integrating legal and business approaches Thematic sections cover conceptual and regulatory frameworks remedies and dispute resolution and practical enforcement tools Ideal for courses in business law policy and international development the book is also essential reading for managers in large corporations **Handbook on Corporate Governance and Corporate Social Responsibility**

Michel Magnan, Giovanna Michelon, 2024-01-18 The world wide transition towards corporate social responsibility CSR results in profound changes to business practices Hence this crucial Handbook adopts a global perspective to review key CSR issues and their implications for the future evolution of corporate governance Controlling Immigration James F. Hollifield, Philip L. Martin, Pia M. Orrenius, François Héran, 2022-09-27 The fourth edition of this classic work provides a systematic comparative assessment of the efforts of major immigrant receiving countries and the European Union to manage migration paying particular attention to the dilemmas of immigration control and immigrant integration Retaining its comprehensive coverage of nations built by immigrants the so called settler societies of the United States Canada Australia and New Zealand the new edition explores how former imperial powers France Britain and the Netherlands struggle to cope with the legacies of colonialism how social democracies like Germany and the Scandinavian countries balance the costs and benefits of migration while maintaining strong welfare states and how more recent countries of immigration in Southern Europe Italy Spain and Greece cope with new found diversity and the pressures of border control in a highly integrated European Union The fourth edition offers up to date analysis of the comparative

politics of immigration and citizenship the rise of reactive populism and a new nativism and the challenge of managing migration and mobility in an age of pandemic exploring how countries cope with a surge in asylum seeking and the struggle to integrate large and culturally diverse foreign populations *European Economic Law* Alberto Santa Maria, 2019-01-25

Since the last edition of this pre eminent work five years ago the European framework in the international setting has substantially changed Numerous critical developments have highlighted shortcomings in the European structure that seems incapable in its present complexity of resolving the apparently intractable problems it confronts This book s highly respected author is uncompromising either we have the courage to establish profound constitutional reforms aimed at renewing the European Union in the collective imagination or we risk contenting ourselves with merely an economic community with a far from ideal single market where even the four basic freedoms guaranteeing all actors individuals and enterprises are put under discussion This revision follows the successful format of the previous editions As before the author s intensive discussion brilliantly disentangles the complex interrelations among a vast array of economic factors As a general update the new edition takes into account such major developments as the mass immigration phenomenon effects of Brexit on EU laws and policies and the OECD s project on base erosion and profit shifting BEPS Ongoing matters covered include the following issues surrounding the euro s sustainability especially as revealed in ECJ case law lack of power of the ECB and other EU institutions in fixing the euro s exchange rate the potential EU contribution to reform of the IMF s organization and substantive rules ECJ case law on conflicts in the transfer of seat and cross border mergers the role of the European Commission in the regulation of international trade limits to the advantages lawfully acquired by multinational enterprises transfer pricing in intragroup transactions EU supervision of banking groups and international banking cooperation corporate social responsibility and codes of conduct and State aid between competition law and the non discrimination principle Emphasizing the complex legal regime affecting undertakings in Europe today Professor Santa Maria presents a thoroughgoing legal analysis of the prominence of corporate and business enterprises in what many theorists see as the intrinsic internationality of social activity in the current era Previous editions have been applauded for their unremitting emphasis on rules introduced on the basis of multilateral agreements of an unprecedented reach within which both States and undertakings are made to recognize and to deal with one another In the new edition this perspective daunting in its scope and breadth is maintained and expanded providing a synthesizing and enlightening analysis that will be of immeasurable value to all parties with an interest academic juridical or administrative in this very important area of law
