Revolutionary Cadres to Party Technocrats in Socialist China Hong Yung Lee, 2024-07-26 Using a wide variety of previously unavailable sources Hong Yung Lee offers a theoretical and historical perspective on China's ruling elite examining their politics and the bureaucratic system in which they participate He traces the evolution of these cadres from the guerrilla fighters who first joined the communist movement and founded the new regime in 1949 to the technocratic specialists who wield power today In the revolution communist leaders built a peasant based party organization whose members were largely recruited from uneducated poor peasants and hired laborers Even after they became the founders of a new regime their rural orientation and revolutionary experiences continued to affect the political process Lee shows how the requirements of modernization compelled the state to replace the revolutionary cadres with bureaucratic technocrats Selected from the postliberation generation the new leaders are more committed to problem solving than to socialism Despite uncertainties in the immediate future this elite transformation signifies an end to modern China's revolutionary era Lee argues that it seems only a matter of time before China will have a bureaucratic authoritarian regime led by technocrats possessing a managerial perspective and a pragmatic economic orientation This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1991 The Politics of Chinese Communism Ilpyong J. Kim, 2023-07-28 The political system established by the Chinese Communist Party in 1949 had its origins in many respects in the Chinese Soviet Republic of 1931-1934 based in southern Kiangsi province about 400 miles southwest of Shanghai The Kiangsi period was important because it gave the Chinese Communists their first opportunity to govern an extensive area and a large population and in so doing to develop methods of mass mobilization as well as new techniques for conducting party and government affairs Kim explores the evolution of the Chinese Communist movement during the Kiangsi soviet period especially its organizational concepts behavioral patterns and development techniques of mass line politics He seeks answers to several questions What notions of organization shaped the Kiangsi political system Who formulated the policies How were they implemented at the rice roots level of government By analyzing Mao Tse tung's writings on organization and comparing them with those of other Chinese Communist theoreticians he achieves fresh insights into Mao's approach to administration and bureaucratic organization The distinct contribution of this book lies in its focus on such issues as how the Chinese Communist leaders viewed organizational problems within their

movement especially following the failure of the 1947 revolution how they responded to these problems and how they maintained a balance of power among the party the government and the Red Army while administering the expanding territorial base and managing complex organizations This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1973 *Ideology and Economic Reform Under Deng Xiaoping 1978-1993* Wei-Wei Zhang, 2013-02-01 First published in 1996 Is ideology still relevant in post Mao China Deng Xiaoping's wide ranging economic reforms have led to declarations that ideology in China is merely a cynical sham or already dead but a closer look at China seems to suggest a constant conflict of different ideologies associated with the profound transformation of the Chinese society since 1978 This study is an attempt to explore the interactions between major ideological currents and economic reforms *China's Political-Military Evolution* Monte R. Bullard, 2019-03-08 In recent years the People's Liberation Army PLA has relinquished much of its political power to China's civilian leadership and has turned to the task of professionalizing the military The transition of the PLA into a relatively apolitical force in Chinese society has occurred alongside great progress toward military modernization with the foundation now laid for the PLA to become one of the world's most powerful military forces Dr Bullard traces the PLA's extremely important and almost revolutionary transition examines the structural changes associated with it and assesses current military policies and trends He discusses in detail the political commissar system the key institution for all political military relationships in the Chinese military system [Administrative and Technical Manpower in the People's Republic of China](#) John Philip Emerson, 1973 Draft of U S Bureau of the Census International population reports series P 95 no 72

Administrative Reform in Post-Mao China Stephen K. Ma, 1996 This book analyzes China's bureaucratic behavior since the inauguration of administrative reform in the late 1970s Although bureaucratic behavior in China in the past decade was increasingly corrupted this aspect of China's post Mao reform has not been subjected to a rigorous scrutiny This book explores the gulf between desired and the actual bureaucratic behavior among China's public administrators The author argues that this behavioral gap in China's modernization stems from several factors including the nation's cultural heritage the ruling party's approach to government and the absence of trusted full fledged academic groups assigned to advise on administrative reform The book then probes one of the gravest consequences of the behavioral gap reform corruption a phenomenon which seems to be a mixed blessing of modernization Karl W. Ryavec, 2005 This unique study provides an original nitty gritty view of the true nature and operation of Russia's state bureaucracy from the imperial period to the present including the Putin presidency The only book length exploration of the problems and deficiencies of Russian bureaucracy since tsarist times this detailed work sheds important new light on Russian public administration an often

overlooked but key barrier to Russian normalization and democratization China in Revolution Mark Selden, 2016-09-16 Originally published in the early 1970s *The Yanan Way in Revolutionary China* has proved to be one of the most significant and enduring books published in the field In this new critical edition of that seminal work Mark Selden revisits the central themes therein and reconsiders them in light of major new theoretical and documentary understandings of the Chinese communist revolution Problems of Communism , 1969 **The Origins Of The Great Leap Forward** Jean-luc Domenach, Mark Selden, 2019-06-26 The first major study of the Great Leap Forward this seminal volume has now been translated into English for a wider audience Like no other work it suggests compelling political and social answers to questions that have long plagued scholars How could a party with such a successful rural base launch a movement so divorced from reality especially in the countryside Why was the movement pressed to the point of social chaos and economic collapse giving rise to arguably the greatest famine in human history Utilizing a wealth of primary material Jean Luc Domenach focuses on the central China province of Henan which emerged as a national model of the Great Leap and was one of the most devastated by its failure The author s documentary sources enable him to illuminate the development of provincial and local political life as well as to gauge popular reactions to the dictates of the center Domenach presents a lucid analysis of the setbacks in agriculture in 1956 and 1957 the rise of economic corruption and the launch of the CCP rectification campaign in 1957 Despite the enormous impact of the Great Leap on Chinese politics and economics in the decades that followed it has proven immensely difficult to research Domenach s contribution thus stands out as an original and important work on the period **China's Public Human Resource Management** Daan Wang, 2025-09-25 How do governments select the right people for public service This book examines the evolving logic of civil service recruitment in contemporary China focusing on the balance between fairness competence and political loyalty Through a detailed case study of Shenzhen it offers rare insights into the workings of a highly standardized selection system Spanning policy practice and perception the book explores how China s civil service examinations function in practice and whether they effectively match candidates with job and organizational requirements Drawing on interviews with policymakers examiners and test designers as well as a large scale survey of civil servants the study introduces a new theoretical concept person government fit to explain hiring practices in state bureaucracies It traces the historical development of the system analyzes test content and evaluates the outcomes of civil service selection using both qualitative and quantitative methods Shenzhen one of China s most innovative and reform oriented cities serves as a revealing case to explore broader governance trends in the post reform era The book also offers a comparative perspective of the civil service examination in Hong Kong providing practical lessons and policy improvements This book will be valuable for scholars students and practitioners in public administration political science and Chinese studies It offers a grounded empirical look at how state capacity is built from the ground up and provides new tools for understanding recruitment and human resource management in the public sector **The Dynamics**

Of Foreign-policy Decisionmaking In China Ning Lu, 2018-02-19 Lu Ning former assistant to a vice foreign minister of China draws on archival materials interviews and personal experiences to provide unique insights into the formal and informal structures processes mechanisms and dynamics of and key players in foreign policy decisionmaking in Beijing Lu Ning sheds light on controversial decisions that were made such as China's entering the Korean War selling DF 3 missiles to Saudi Arabia in 1986 and cooperating with the Israeli defense establishment Lu Ning divulges the inner workings of Beijing's foreign ministry introduces new Chinese language sources and presents a series of case studies that challenge existing Western theoretical analysis of Chinese policymaking Based on his examination of the past forty years Lu Ning makes predictions about likely changes in Beijing's leadership and in its foreign policy decisionmaking process This accessibly written incisive book will be invaluable to anyone interested in Sinology Chinese foreign policy comparative foreign policy and contemporary international relations of East Asia This second edition contains a fully revised Introduction and it has been updated through President Clinton's recent visit to China The new edition also contains new material on the Clinton Administration's varying policy positions toward China *International Population Reports*, Centre and Province in the People's Republic of China David S. G. Goodman, 1986-10-09 According to common misconception the Chinese political system is highly centralized One result of this widely accepted view is that China specialists have often neglected the study of decision making as a process Concentrating upon the neighbouring but contrasting provinces of Sichuan and Guizhou during the decade before the Cultural Revolution this book examines the interaction between centre and province and without adopting a centralist or a pluralist viewpoint argues that a spatial dimension is of necessity part of the Chinese decision making process Particular attention is paid to the variability of this interaction over time **China's Longest Campaign** Tyrene White, 2018-09-05 In the late 1970s just as China was embarking on a sweeping program of post Mao reforms it also launched a one child campaign This campaign which cut against the grain of rural reforms and childbearing preferences was the culmination of a decade long effort to subject reproduction to state planning Tyrene White here analyzes this great social engineering experiment drawing on more than twenty years of research including fieldwork and interviews with a wide range of family planning officials and rural cadres White explores the origins of China's birth planning approach to population control the implementation of the campaign in rural China strategies of resistance employed by villagers and policy consequences among them infanticide infant abandonment and sex ratio imbalances She also provides the first extensive political analysis of China's massive 1983 sterilization drive The birth planning project was the last and longest of the great mobilization campaigns surviving long after the Deng regime had officially abandoned mass campaigns as instruments of political control Arguing that the campaign had become an indispensable institution of rural governance White shows how the one child campaign mimicked the organizational style and rhythms both of political campaigns and economic production campaigns Against the backdrop of unfolding rural reforms only the campaign method could override obstacles to rural

enforcement As reform gradually eroded and transformed patterns of power and authority however even campaigns grew increasingly ineffective paving the way for long overdue reform of the birth planning program **Honorable Merchants**

Richard John Lufrano,1997-01-01 In light of East Asia s current economic success it has become increasingly clear that Confucian social thought long assumed in Western scholarship to be a major stumbling block to economic development can under the proper circumstances have exactly the opposite effect Lufrano s study is the most sustained and sophisticated of recent reevaluations of Confucianism s role in the rapid commercial development in the late Ming to mid Qing period It will be of great interest and value to scholars in the growing field of Chinese business history and should be welcomed by those interested in the Confucian roots of Pacific Rim business practice
