psychotherapeutic and recovery methods to help heal its wounds **Co-Dependence Healing the Human Condition**

Charles Whitfield,2010-01-01 Of all the books on the often misunderstood concept of co dependence this is probably the clearest most complete and informative Charles Whitfield is a frontline clinician who has been assisting co dependents in their healing for over twenty years He has researched the literature on co dependence which he summarizes in this widely read book He sees co dependence as a way to more accurately describe the painful and confusing part of the human condition In careful detail he describes just what co dependence is and what it is not how it comes about and how to heal its painful aftereffects Heroine Abuse Thomas Gaiton Marullo,2015-10-15

Fyodor Dostoevsky s first novel Netochka Nezvanova written in 1849 remains the least studied and understood of the writer s long fiction but it was a seedbed for many topics and themes that became hallmarks of his major works Specifically Netochka Nezvanova was the first in Dostoevsky s corpus to focus on the psychology of children and the first to feature a woman in a leading and narrative role It was also the first work in Russian literature to deal with problems of the family In Heroine Abuse Thomas Marullo contends that Netochka Nezvanova also provides a striking example of what psychologists today call codependency the ways often deviant and destructive in which individuals bond with people places and things as well as with images and ideas to cope with the vicissitudes of life Marullo shows how at age twenty eight Dostoevsky intuited and illustrated the workings of relationship addiction almost a century and a half before it became the scholarly focus of practitioners of mental health The moral monsters infernal women children adults and adult children who populate Netochka Nezvanova seek codependence in people places and things and in images ideas and ideals to satiate cravings for love dominance and control as well as to indulge in narcissism sexual perversion and other aberrant or alternative behaviors Indeed in no other work would Dostoevsky examine such phenomena as pedophilia and lesbianism with such abandon Racing from tie to tie bond to bond and caught in a debilitating loop that they claim to detest but sadomasochistically enjoy the characters in Netochka Nezvanova wreak havoc on themselves and the world They do so moreover with impunity their addictions moving them from momentary exultation as self styled extraordinary men and women through prolonged darkness and despair and once again to old and new addictions for physical and emotional release Readers of Heroine Abuse will see Netochka Nezvanova as a timeless model in depicting codependency in the world of the twenty first century as it did in St Petersburg in 1849 Marullo s original work will appeal to scholars and students of Russian and comparative fiction to doctors psychologists and therapists to laymen and women interested in relationship addiction and finally to codependents and relationship addicts of all types

The Primal Wound John Firman, Ann Gila, 1997-04-25 Argues that a primal wounding of the human spirit occurs in earliest human life that disrupts fundamental relationships and leads to anxiety loneliness and alienation and shows how this wounding can be redeemed through therapy and through living one's life differently To many of us modern life is a headlong rush to avoid dark feelings that threaten to disrupt our lives at every turn In order to block the surging tide of this hidden level of experience we become enthralled with violence sex and mass media and addicted to alcohol drugs and power and we compulsively strive for romance success and control All of this according to the authors can be traced to the primal wound a dark specter of isolation abandonment and alienation haunting human life The primal wound is the result of a violation we all suffer in various ways beginning in early childhood and continuing throughout life Because we are treated not as individual unique human beings but as objects our intrinsic authentic sense of self is annihilated This primal wounding breaks the fundamental relationships that form the fabric of human existence the relationship to oneself to other people to the natural world and to a sense of transpersonal meaning symbolized in concepts such as the Divine the Ground of Being and Ultimate Reality In this book Firman and Gila apply object relations theory self psychology transpersonal psychology and psychosynthesis to the issues of psychological wounding healing and growth and show how this wounding can be redeemed through therapy and through changing one's way of living Firman and Gila integrate important material from diverse schools of psychology and then expand it with their personal touch The Primal Wound presents a scholarly yet understandable to the educated lay person description of some of the important dynamics of psychological wounding from a broad perspective while also going deep into the soul and even exploring our relationship to God There is little available on this topic and in the area of trauma psychology Charles Whitfield M D author of Memory and Abuse Remembering and Healing the Wounds of Trauma I believe

this book's central thesis to be highly provocative and important. Its strength is that it uses the idea of the primal wound as a focus for a diverse collection of ideas from various sectors of the psychological and transpersonal literature. This kind of integrative scholarly work is very valuable. John Suler, author of *Contemporary Psychoanalysis and Eastern Thought*, John Firman, and Ann Gila are teachers, authors, and psychotherapists in private practice in Palo Alto, California. Both were trained in psychosynthesis in the early 1970s, and Firman trained with its founder, Roberto Assagioli. They are adjunct faculty members at the Institute of Transpersonal Psychology and lead public and professional programs both in the United States and abroad.

CHILDREN IN THE URBAN ENVIRONMENT Norma Kolko Phillips, Shulamith Lala Ashenberg Straussner, 2016-12-23 This updated and expanded third edition examines the significant changes impacting children in our society and is a significant revision of the second edition presented 10 years previous. During that period there have been many important firsts in the United States: the first African American president, the first attempt at a health care system that includes everyone, the first time for gay marriage sanctioned by the federal government, numerous firsts in medical care, a growing globalization, and the ongoing technology revolution changing lives from day to day. At the same time, however, there have been reactionary pulls that have halted progress in many critical areas such as income inequality, racism, poverty, violence, terrorist acts, and critical flaws in the educational and criminal justice systems that continue to have disastrous consequences for children. The chapters in the book discuss the cost in human terms of some of the missing opportunities for urban children and youth and illustrate the impact of social welfare policies on children, their families, and on the broader society. To better prepare social workers to meet some of the pressing needs to children, three completely new chapters have been added to this edition: *Beyond School and Community Violence*, *Providing Environments Where Children Thrive*, and *Urban Lesbian, Gay, Bisexual, and Transgender Children and Substance Use by Urban Children*. In addition to sections on *Economic, Social, and Environmental Factors Impacting on Urban Children* and *Familial Factors Impacting on Urban Children*, a new section *Behavioral and Physical Health and Urban Children* has been introduced. This new edition provides a significant resource for students and professionals in social work, family counseling, human services, psychology, and criminal justice. Most importantly, the various chapters in this text will help social workers and social work students recognize the nature of some of the current problems affecting children and come up with innovative solutions for the future.

Psychology of Terrorists Raymond H. Hamden, 2018-11-20 The *Psychology of Terrorists* examines the personality profile of the individual and categorizes the psychology of terrorists into four distinct profiles which are outlined and analyzed in detail. There are many books that cover social psychology and political violence and aggression, but few establish the mind set of the terrorist as an individual. This includes taking into account personal experiences and religious or political ideology for the purposes of understanding conceptual and tactical objectives and profiling terrorists to counter terrorist threats. Dr. Raymond Hamden presents a unique look at terrorists as individuals with personal motives as well as those of principle. The book presents an analysis of terrorists without prejudice or bias for any political, religious, nationality, creed, or race. Too many times the world sees experts focus on issues that are based on their own predispositions or partialities. Although there is criticism on the reliability of profiling, this research demonstrates validity and reliability. It is vital to understand terrorist motivations, and this can only be achieved by knowing the terrorists' psychological character, looking at the individual terrorist, taking into account particular experiences, psychological makeup, background, and fundamentalist ideology. The *Psychology of*

Terrorists Profiling and CounterAction will be a welcomed addition to psychologists terrorism researchers criminal profilers investigators and intelligence professionals counter and anti terrorism experts as well as military security and law enforcement professionals tasked with protecting individuals from the various acts of terrorism domestically and globally
