**Redefining Codification** Dirk Heirbaut, 2024-12-10 More than half of the world's population lives under law codes Yet defining the concept of codification remains elusive Rather than delving into abstract theories this book provides a rich and contextual comparative legal history of codes in France Germany the Netherlands and Belgium from the late eighteenth century to the present The author starts by examining the evolution of French German Dutch and Belgian codes in their political and comparative context thus challenging deeply rooted national narratives He covers the well studied civil codes and the often overlooked commercial and procedural codes and drafts that failed to become law Against this backdrop the book embarks on a comprehensive analysis of the factors contributing to the success or failure of codification efforts Employing an innovative method of comparative legal history *Redefining Codification* explores the key players and objectives behind codification revealing that traditional notions of codification are far removed from reality Following the deconstruction of some universal truths about codifications this volume offers fresh insights into the behind the scenes of the lawmaking machinery and an empirically based definition of codification

*Private International Law* Symeon C. Symeonides, 2021-11-08 This book compares the two golden ages of private international law PIL the first is the era of Story and Savigny in the nineteenth century while the second comprises the last fifty years The period between 1970 and 2020 has been one of rapid changes and dense legislative responses exemplified by the adoption of over one hundred national PIL codifications and almost as many international or regional conventions and regulations These instruments provide a rich source for this book's incisive and instructive comparisons and a fertile ground for a reliable assessment of the progress of PIL as a discipline This book skillfully uncovers and meticulously documents the gradual and largely unnoticed transition of PIL from the idealism of the nineteenth century to the pragmatic eclecticism and pluralism of the twenty first century

[Private International Law of Reinsurance and Insurance](#) Raymond Cox, Louise Merrett, Marcus Smith, 2020-11-26 The first book dedicated to this subject *Private International Law of Reinsurance and Insurance* provides a practical and easy to use reference in this complex area of law This book provides a clear and useful guide to identifying the applicable legal regimes and relevant rules insofar as they concern reinsurance and insurance disputes It offers authoritative guidance on the Jurisdiction Regulation 44/2001 the Rome Convention on Choice of

Algeria, 1830-1930 Judith Surkis, 2019-12-15 This is a masterful study of the ways in which sex and law were inextricably intertwined in the elaboration of French rule in Algeria Its great virtue is to demonstrate in careful detail with an impressive range of material from court records to novels exactly how the conquest of Algeria repeatedly challenged the very ideals of the secular universalism in whose name colonization was carried out Joan Wallach Scott author of *Sex and Secularism* During more than a century of colonial rule over Algeria the French state shaped and reshaped the meaning and practice of Muslim law by regulating it and circumscribing it to the domain of family law while applying the French Civil Code to appropriate the property of Algerians In *Sex Law and Sovereignty in French Algeria 1830 1930* Judith Surkis traces how colonial authorities constructed Muslim legal difference and used it to deny Algerian Muslims full citizenship In disconnecting Muslim law from property rights French officials increasingly attached it to the bodies beliefs and personhood Surkis argues that powerful affective attachments to the intimate life of the family and fantasies about Algerian women and the sexual prerogatives of Muslim men supposedly codified in the practices of polygamy and child marriage shaped French theories and regulatory practices of Muslim law in fundamental and lasting ways Women s legal status in particular came to represent the dense relationship between sex and sovereignty in the colony This book also highlights the ways in which Algerians interacted with and responded to colonial law Ultimately this sweeping legal genealogy of French Algeria elucidates how the Muslim question in France became and remains a question of sex **Catalogue général de la librairie française: 1906-1909.**

**Table des matières** Otto Henri Lorenz, 1912 **Jurisdiction Over Non-EU Defendants** Tobias Lutzi, Ennio Piovesani, Dora Zgrabljic Rotar, 2023-05-18 This book looks at the question of extending the reach of the Brussels Ia Regulation to defendants not domiciled in an EU Member State The Regulation the centrepiece of the EU framework on civil procedure is widely recognised as one of the most successful legal instruments on judicial cooperation To provide a basis for the discussion of its possible extension this volume takes a closer look at the national rules that currently govern the question of jurisdiction over non EU defendants in each Member State through 17 national reports The insights gained from them are summarised in a comparative report and critically discussed in further contributions which look at the question both from a European and from a wider global perspective Private international lawyers will be keen to read the findings and conclusions which will also be of interest to practitioners and policy makers **Catalogue général de la librairie française** Otto Henri Lorenz, Daniel Jordell, Henri Stein, 1879
