Code Civil 2015 Denis Philippe:

Reforming Corporate Retail Investor Protection Diane Bugeja, 2019-12-12 The spate of mis selling episodes that have plagued the financial services industries in recent years has caused widespread detriment to investors Notwithstanding numerous regulatory interventions curtailing the incidence of poor investment advice remains a challenge for regulators particularly because these measures are taken in a fire fighting fashion without adequate consideration being given to the root causes of mis selling Against this backdrop this book focuses on the sale of complex investment products to corporate retail investors by drawing upon the widespread mis selling of interest rate hedging products IRHP in the UK and beyond It brings to the fore the relatively understudied field concerning the different degrees of investor protection mechanisms applicable to individual retail investors as opposed to corporate retail investors by taking stock of past regulatory reforms and forthcoming regulatory initiatives as well as more importantly the conclusions reached by the judiciary in IRHP mis selling claims The conclusions are particularly interesting corporate retail investors are in a vulnerable position when compared to individual retail investors The former are exposed to a heightened risk of mis selling meaning that regulatory intervention should be targeted accordingly The recommendations made as a result of these findings are further supported by insights emerging from behavioural law and economic theories This book is aimed at researchers lawyers and students with an interest in the financial regulation field who are keen to explore potential regulatory reforms to the investment services regime that address the root causes of mis selling and restore a level playing field amongst all retail investors

Redefining Codification Dirk

Heirbaut,2024-12-10 More than half of the world s population lives under law codes Yet defining the concept of codification remains elusive Rather than delving into abstract theories this book provides a rich and contextual comparative legal history of codes in France Germany the Netherlands and Belgium from the late eighteenth century to the present The author starts by examining the evolution of French German Dutch and Belgian codes in their political and comparative context thus challenging deeply rooted national narratives He covers the well studied civil codes and the often overlooked commercial and procedural codes and drafts that failed to become law Against this backdrop the book embarks on a comprehensive analysis of the factors contributing to the success or failure of codification efforts Employing an innovative method of comparative legal history Redefining Codification explores the key players and objectives behind codification revealing that traditional notions of codification are far removed from reality Following the deconstruction of some universal truths about codifications this volume offers fresh insights into the behind the scenes of the lawmaking machinery and an empirically based definition of codification

French Civil Liability in Comparative Perspective Jean-Sébastien Borghetti, Simon Whittaker, 2019-12-26 The French law of torts or of extra contractual liability is widely seen as exceptional For long it was based on a mere five articles of the Civil Code of 1804 but on this foundation the courts and legal scholars have constructed liabilities for fault and strict liability of an extraordinary breadth and significance While the rest of the general law of obligations including contract in the Civil Code was reformed in 2016 by executive ordinance this area was left aside being the subject in 2017 of a proposal by the French Government for the legislative reform of the law of civil liability a new legislative category to include both contractual and extra contractual liability This work considers important aspects of this developing area of French law in a series of essays by French lawyers and comparative lawyers working in French law and other civil law systems In doing so it provides insight into the doctrinal thinking and judgments of French lawyers as well as the possible directions in which this area of the law may be developed in the future

From Revolution to Chaos in Haiti (1804-2019)
 Rhodner J Orisma, 2020-01-13 Haiti is a failing state The country is still unable to provide basic needs such as employment food housing healthcare and education to a majority of its inhabitants in over two centuries after its revolution and Independence of 1804 Relatively incompetent both the nation s government and its opposition ignore moral politics and instead focus on corruption and fighting each other Though free from French rule the country remains tied to its slave past and violent history It seems like a socioeconomic and urban consensus cannot be achieved in order to carry out sustainable solutions for the people This book From Revolution to Chaos in Haiti 1804 2019 Urban Problems and Redevelopment Strategies is an attempt to analyze this situation from a historical perspective First the Haitian Revolution of 1804 is displayed to show the violent and bloody struggles of outstanding leaders and warriors against colonial powers for the making of a great political and independent nation Second Haiti s decline is analyzed starting from the assassination of its first leader Jean Jacques Dessalines in 1806 to the country s bottom rank in the global stratification during the 2010 s along with the impact of the catastrophic 2010 earthquake The main factors noted within this decline are linguistic agricultural urban and HIV AIDS TB healthcare issues and undercapitalization along with ideological confusions capitalism neoliberalism socialism social democracy and political instability

EU Mediation Law Handbook Nadja Alexander, Sabine Walsh, Martin Svatos, 2017-03-15 Mediation is rapidly becoming a norm in cross border dispute resolution among European Union EU Member States Accordingly an important question for legal advisers to ask themselves is Which jurisdiction offers the best legal framework to support a potential future mediation of my client s dispute This book responds to this question by examining the law on mediation in each Member State on a chapter by chapter basis Each country analysis applies the book s overarching principle of a specially designed Regulatory Robustness Rating System which is thoroughly explained in an introductory chapter This framework offers a highly effective way to analyse the quality and robustness of each of the EU s twenty nine national jurisdictions legal frameworks relevant to mediation including legislation case law practice directions codes of conduct standards and other regulatory instruments and factor such an analysis into choices about governing law in mediation clauses and other agreements Among the issues and topics covered are the following congruence of domestic and

international legal frameworks transparency and clarity of content of mediation laws standards and qualifications for mediators rights and obligations of participants in mediation access to mediation services access to internationally recognised and skilled mediators enforceability of clauses and mediated settlement agreements confidentiality and flexibility admissibility of evidence from mediation in subsequent proceedings impact of commencement of mediation on litigation limitation periods relationship and attitude of courts to mediation and regulatory incentives for legal advisers to engage in mediation This detailed analysis clearly allows users and other regulatory stakeholders to look closely and critically at regulatory regimes for mediation in order to make informed choices and develop appropriate strategies in relation to the law that governs their mediation This is the first book to consider authoritatively what makes good mediation law and what makes a jurisdiction attractive for cross border mediation purposes in terms of its regulatory framework As a resource that identifies potential strengths and weaknesses of each EU Member State s regulatory regime it has no peers and will be welcomed and put to use by the alternative dispute resolution community in Europe and beyond
