Hogan, 2001-10-01 THE KNIGHT IS A SAINT with a twist At least you might think so if you read his curriculum vitae You would swear in fact that this private eye of the future is honest paying for what he gets getting what he s paid for with somehow a little extra for everybody to go around Take this case involving a matter transmitter which the inventor tested on himself then found his bank accounts empty and his credit cards overflowing all done by someone whose DNA looks just like that of the rightful owner But that wasn t all There was also an archaeological expedition which had uncovered ruins that might solve the mystery of the Martian race that had vanished from the planet eons ago except that a greedy interplanetary corporation was all set to bulldoze them over in pursuit of the bottom line unless a gallant knight or Knight could come galloping up on his charger Then there were some people who were not amused at how the Knight had foiled a sure fire scheme worth billions and were looking for him with heavy muscle and heavier artillery People in trouble and people who are trouble just seem to populate his life and thank goodness because they are the very thing the Knight needs to keep his life from getting boring And the bad guys never seem to know what hits them At the publisher s request this title is sold without DRM Digital Rights Management Praise for James P Hogan Entertaining imaginative Readers will want to sign up for this ride Publishers Weekly fascinating notions and nonstop plot twists in a taut gripping narrative a bravura performance Kirkus Reviews cutting edge scientific approach truly fascinating and hugely enjoyable Starlog **Echoes of an Alien Sky** James P. Eighteen years have passed since the first manned mission to Earth arrived from Venus With the first colonists already establishing themselves across the bright sunny world of clear blue skies and wonderlands of towering mountains and ice deserts Kyal Reen arrives to join the Venusian scientific and archeological teams that are working to reconstruct the story of

the mysterious and enigmatic extinct Terran race that once flourished there Studies of Terran geology scientific works and ancient records show that Earth s early peoples witnessed terrifying cataclysmic cosmic events in skies very different from those seen today In his travels among the Terran ruins Kyal meets a biologist called Lorili who is attempting to explain certain baffling similarities between some Terran and Venusian life forms that are irreconcilable with the established fact that Venus is a far younger planet than Earth Formerly aligned with the Progressive activists back on Venus Lorili admires the qualities of tenacity and determination written through Terran history She constructs a theory of Venusians being descended from Terran ancestors However even allowing for the greatly exaggerated time scales that Terran science assigned to the processes of biological and planetary evolution further research shows that there could have been no overlap The Terrans were extinct long before life emerged on Venus But there is a different unexpected answer to the riddle Lorili and Kyal will have to fight for their theory and their lives At the publisher s request this title is sold without DRM Digital Rights Management

Hogan, 2010-05-01 The world of the past eventually died in the conflagration toward which it had been doggedly heading A more fragmented and diversified order has emerged from the ruins and technology has reappeared to a greater or lesser degree in some places and not at all in others Unique among them is the nation state of Sofi with an exceptional population that has rediscovered advanced science However as the old patterns that led to ruin before begin to reassert themselves across the rest of the world a scientific political movement within Sofi embarks on a years long project to build a generation starship that will enable them to create

their own world elsewhere The circumstances and thinking of future generations growing up in the totally unknown situation of a space environment cannot be known Accordingly the mission will include different groups of idealists reformers misfits and dissidents who are not satisfied with the world in miniature that constitutes the original mother ship to go out and build whatever they want Hence what arrives at the distant star generations hence will be a flotilla of variously run city states frontier towns religious monasteries pleasure resorts urban crushes rural spreads academic retreats and who knows what else The trouble began of course when all the old patterns that they thought they were getting away from started reappearing At the publisher s request this title is sold without DRM Digital Rights Management
