Individual Criminal Responsibility for the Financing of Entities involved in Core Crimes Laura Ausserladscheider Jonas, 2021-12-28 War crimes crimes against humanity genocide and the crime of aggression so called core crimes often could not be committed without financial assistance This book examines the basis for individual criminal liability under international law for persons who finance core crimes Despite the need for clear rules neither international courts nor scholars agree upon whether or not or under what circumstances such liability exists To determine the minimum standard of liability this work analyses the legal rules relating to complicity both under international criminal law and domestically in twenty selected jurisdictions in Africa Asia Europe Latin America North America and Oceania The aim of these analyses is to determine whether there are general principles of law recognised by the community of States regarding the minimum standard of liability for aiders and abettors This book proposes a comparative framework for assessing legal rules relating to complicity and it advances a normative claim as to how legal rules should be structured concerning the criminal responsibility of individuals who finance the commission of core crimes The analysis of the applicable international law and the comparative analysis of national jurisdictions lead to the conclusion that currently the minimum standard of knowledge for aiding and abetting is active knowledge However the author argues that this standard should be revised to include wilful blindness Regarding the intent requirement the analyses find that *dolus eventualis* is included in the definition of intent

Impending Challenges to Penal Moderation in France and Germany Kirstin Drenkhahn, Fabien Jobard, Tobias Singelnstein, 2023-07-27 This book investigates the penal culture in France and Germany how it is shaped in politics media and public opinion Although compared with the US or the UK France and Germany seem to place a strong emphasis on the ideal of rehabilitation that would block excessive punishment and other outcomes of punitive developments in society there is a steady increase in punitiveness over time for which the term strained restraint is proposed The book shows that the idea of penal moderation is deeply rooted in public opinion politics and the media and that it is renegotiated every day in a dynamic interplay between these spheres Punishment and society research has traditionally focused on the US and the UK In comparative research both are considered extreme in punitive developments with high rates of imprisonment and large groups of the population under penal control The other extreme in comparative research would be Scandinavia with the famous Nordic Exceptionalism marked by low prison population rates Germany and France are often considered to be the same when compared with each other and the other with reference to both of these extremes However this book shows that France and Germany are far from being the same when it comes to state organization centralistic vs federal criminal justice and the criminal law political traditions and the media Also research from both countries has looked at whether developments such as the punitive turn have occurred in Germany and France Research focused on the domestic situation concludes that punitiveness is on the rise and that both countries are indeed experiencing their own punitive turn How do we reconcile these contradictory findings Why do these two seem to follow the path of penal moderation in the overall outcome of punishment in society when we look at comparative research And how is it that from a domestic perspective punitive attitudes and desires are leading to more punitiveness By focusing on the meso level with a comparative perspective on the two countries and a dynamic analytical approach this book reconciles the fluidity of individual attitudes and opinions with the relative stability of societal discourse The authors posit that penal moderation comes at a price overall and in an internationally comparative perspective there is penal moderation but a closer look at the domestic situation and development reveals that it is nonetheless challenged by a slowly rising tide of punitiveness Going beyond the main tenets of punishment and society research with a dynamic analysis of two large societies in Europe this book is ideal reading for scholars and students of penology criminal justice and European studies

General Reports of the XXth General Congress of the International Academy of Comparative Law - Rapports généraux du XXème Congrès général de l'Académie internationale de droit comparé Katharina Boele-Woelki,Diego P. Fernández Arroyo,Alexandre Senegacnik,2020-12-17 This book explores convergences of legal doctrine despite jurisdictional cultural and political barriers as well as divergences due to such barriers examining topics that are of vital importance to contemporary legal scholars Written by leading experts from all continents its 26 chapters present a comparative analysis of cutting edge legal issues of the 21st century While each of the countries covered stands alone as a sovereign state in a technologically advanced world

their disparate systems nonetheless show comparable strategies in dealing with complex legal issues. Several of the chapters show how, in addition to state normative production and state adjudication, a growing panoply of non-state instruments and non-state adjudication are becoming more and more central to the legal field. This book is a key addition to the library of any scholar wanting to keep abreast of the major trends in contemporary law. Representing the current state of law in a vast range of areas, it covers each topic from a comparative perspective. Cet ouvrage en examinant des sujets d'une importance vitale pour les juristes contemporains traite des convergences de la doctrine juridique malgré les barrières juridictionnelles culturelles et politiques ainsi que des divergences dues à ces barrières critiquées par des minents universitaires de tous les continents. Ses 26 chapitres présentent une analyse comparative de sujets juridiques majeurs du 21^e siècle. Dans un monde technologiquement avancé, bien que chaque pays analysé dans cet ouvrage demeure autonome en tant qu'état souverain, l'ensemble des systèmes disparates présente néanmoins des stratégies comparables pour traiter des questions juridiques complexes. En outre, plusieurs chapitres montrent comment, en plus de la production normative et de la résolution des différends, la panoplie croissante de différents types d'instruments non étatiques et de résolution non étatique des différends devient de plus en plus centrale dans la sphère juridique. Cet ouvrage est un ajout essentiel à la bibliothèque de tout universitaire souhaitant se tenir au courant des principales tendances du droit contemporain. Il couvre un vaste domaine de sujets traités d'un point de vue comparatif et représente l'état actuel du droit dans chaque domaine.

Genetic Testing and the Governance of Risk in the Contemporary Economy Lara Khoury, Adelle Blackett, Lukas Vanhonnaeker, 2020-10-01. This book addresses emerging questions concerning who should bear responsibility for shouldering risk as well as the viability of existing and experimental governance mechanisms in connection with new technologies. Scholars from 14 jurisdictions unite their efforts in this edited collection to provide a comparative analysis of how various legal systems are tackling the challenges produced by the legal aspects of genetic testing in insurance and employment. They cover the diverse set of norms that surround this issue and share insights into relevant international, regional, and national incursions into the field. By doing so, the authors offer a basis for comparative reflection including on whether transnational standard setting might be useful or necessary for the legal aspects of genetic testing as they relate to the insurance and employment contexts. The respective texts cover a broad range of topics including the prevalence of genetic testing in the contexts of insurance and employment and policy factors that might affect this prevalence such as the design of national health or social insurance systems, of private insurance schemes, or the availability of low-cost direct-to-consumer genetic testing. Further, the field of genetics is gaining in importance at the international and regional levels. Relevant concepts, mainly genetic tests and genetic data information, have been internationally defined, and these definitions have influenced definitions adopted nationally. International law also recognizes a special status for human genetic data. The authors therefore also consider these definitions and the recognition of the

special status of human genetic data within regional and national legal orders They investigate the range of norms that specifically address the use of genetic testing in employment and insurance encompassing international sources including human rights norms that may be binding or non binding as well national statutory regulatory and soft law mechanisms Accordingly some of the texts examine general frameworks relevant to genetic testing in each country including those that stem from general anti discrimination rules and norms protecting rights to autonomy self determination confidentiality and privacy In closing the authors provide an overview of the efficiency of their respective legal regimes approaches specific and generalist to genetic testing or disclosure of genetic information in the employment or insurance contexts including the effect of lack of legal guidance In this regard some of the authors highlight the need for transnational action in the field and make recommendation for future legal developments
