

## Inpatient Neonatal and Pediatric Critical Care

- When a newborn becomes critically ill on the same day they have already received normal newborn care (99460, 99461, 99462), and the same individual or group assumes critical care, report initial critical care service (99468) with modifier 25 in addition to the normal newborn code.
- When a neonate, infant, or child requires initial critical care services on the same day the patient already has received hospital care or intensive care services by the same individual or group, only the initial critical care service code (99468, 99471, 99475) is reported.
- Time-based critical care services (99291, 99292) are not reportable by the same individual or different individual of the same specialty and same group, when neonatal or pediatric critical care services (99468-99476) may be reported for the same patient on the same day.
