Cognitive Behavioral Music Therapy In Forensic Psychiatry:

Cognitive Behavioral Music Therapy in Forensic Psychiatry Laurien Hakvoort, 2014 Many offenders with a psychiatric or psychological disorder respond positively to music which itself evokes emotions influences cognitive functioning and affects motivation and reward systems Could music be applied to regulate the emotions of forensic psychiatric patients train coping skills or used therapeutically to encourage patients to practice new positive behaviours Laurien Hakvoort builds on evidence based treatment in forensic psychiatry in this dissertation presenting case studies theories and the results of explorative empirical research to postulate how music therapy could reduce risk principles and address needs while tapping into patient responsiveness **The Clinician's Guide to Forensic Music Therapy** Stella Compton-Dickinson, Laurien

Hakvoort, 2017-04-21 Providing two clinically proven manuals for music therapy in forensic and other psychiatric settings this book offers clear and practical support to music therapists As the first of its kind it is a vital resource for music therapists especially those in forensic and other psychiatric settings *The Music in Music Therapy* Jos De Backer, Julie

Sutton, 2014-05-21 This text comprises of a wide range of thinking from across Europe stressing how essential the musician is within the identity of a music therapist With examples and clinical case material from across Europe the editors provide insight into the aspects of the therapeutic process which are enabled by music Exploring High-risk Offender Treatment

and the Role of Music Therapy Louise Sicard, 2021-07-05 Exploring High risk Offender Treatment and the Role of Music Therapy explores the treatment delivered to high risk offenders with complex needs focusing on sex and violent offenders The book advocates for the further use of less traditional and creative therapies in particular music therapy The higher the risk the greater the needs Offenders with complex needs have a range of factors impacting their abilities and well being including mental health and learning disorders Importantly high risk offenders commonly present with complex needs and therefore require treatment that is highly responsive Guiding this book is the existing literature and qualitative research conducted by the author that sought to gain the perspectives and experiences of practitioners in the field This included 38 interviews with those that deliver treatment to high risk offenders and music therapy This book examines the components of high risk offender treatment highlighting the effective elements and the limitations found within the literature and from the perspective of interviewed practitioners Offering insight into less traditional therapies the book presents literature surrounding mindfulness psychodrama and art therapy for high risk offenders It is argued that there has been a recent shift towards a creative corrections approach where less traditional therapies are gaining recognition within offender treatment as they offer unique and supportive benefits to traditional treatment This book focuses on examining the role of music therapy for high risk offenders mainly through a critical discussion on the relevant literature and qualitative practitioner data Advocating the further implementation of creative corrections approaches this book will be of great interest to academics and researchers within the fields of offender treatment and penology as well as forensic psychologists and those studying or
