CLARK Material Handling
Company

Truck Models Covered by this Manual

This manual contains a "free" model that pertains to all Clark models and other models that pertain only to specific models. Manuals shipped with the truck contain the free model and the model specific to the purchased truck.

You may, however, purchase specific models and request your manual to fully cover multiple models. To do so, order the desired model as you would any other Clark part.

Arrangement and Use of this Manual

Clark arranges parts and service procedures by standard and Groups. In this manual, Groups are similar to "chapters." Groups are listed in the indices on the next page.

Each Group begins with a table of contents that shows the sections contained within the Group. Lengthy sections also begin with a table of contents.

Each Group and Section has an identifying name and number, or "ID."

Each page also has a unique ID. The page ID consists of three numbers separated by hyphens. The three numbers represent the Group number, the Section number, and the page number. For example, "00-1-2" on the lower corner of the page indicates Group 00, Section 1, Page 2.

The Group number sometimes has a letter or letters added to it to differentiate it one or more variations of the Group name. For example, if the truck has a standard transmission, Group 00 is represented as "00(S)." If the truck has a hydrostatic transmission, Group 00 is represented as "00(H)." "

You can quickly locate a specific page in the manual by using the Section and Section that appear on every Section page. The following illustration points out these areas.

This manual is intended for the use of trained service personnel. Please read Group 04, "Safe Procedures," and the Operator's Manual before working on or operating the truck.
