Cuban Memory Wars Michael J. Bustamante, 2021-02-10 For many Cubans Fidel Castro's Revolution represented deliverance from a legacy of inequality and national disappointment For others especially those exiled in the United States Cuba's turn to socialism made the prerevolutionary period look like paradise lost Michael J Bustamante unsettles this familiar schism by excavating Cubans' contested memories of the Revolution's roots and results over its first twenty years Cubans' battles over the past he argues not only defied simple political divisions they also helped shape the course of Cuban history itself As the Revolution unfolded the struggle over historical memory was triangulated among revolutionary leaders in Havana expatriate organizations in Miami and average Cuban citizens All Cubans leveraged the past in individual ways but personal memories also collided with the Cuban state's efforts to institutionalize a singular version of the Revolution's story Drawing on troves of archival materials including visual media Bustamante tracks the process of what he calls retrospective politics across the Florida Straits In doing so he drives Cuban history beyond the polarized vision

seemingly set in stone today and raises the prospect of a more inclusive national narrative

Empathy and Performance Laura V. Sáñez, 2024-07-15 Empathy and Performance advances a study of empathy and enactments of power by examining works from author actors whose performances explore the boundaries between two kinship positions Author Laura V Sáñez studies the dramatized dilemma of cultural understanding in Our America a notion that refers first to a collective political identity marking a common belonging in the Spanish speaking America but also alludes to current struggles in the contemporary US This book sees empathy as an affective response grounded in subjectivity and kinship Sáñez argues that to conceptualize empathy one needs to understand how subjects organize classify and limit themselves not only as agents but also as interpreters What sort of affiliations do these performances promote How do they break reinforce or queer societal expectations about the Latinx body the white body or simply the staged body To survey different answers to these queries Sáñez studies Indigurrito Nao Bustamante Dominicanish Josefina B ez Bienvenidos Blancos or Welcome White People Alex Torra the apology delivered by the group Veterans Stand with Standing Rock during protests against the Dakota Access Pipeline and Kukuli Velarde s body of work from We the Colonized Ones to A Mi Vida In these artistic enactments which range from 1992 to 2021 the historical construct of boundaries and bodies becomes evident Following recent work on empathy by Lanzoni Maibom Calloway Thomas Bloom Hogan and Matravers among others Sáñez examines in group out group divisions the establishment of identity categories through performance and the exploration of subaltern identities

Dancing with the Revolution Elizabeth B. Schwall, 2021-04-06 Elizabeth B Schwall aligns culture and politics by focusing on an art form that became a darling of the Cuban revolution dance In this history of staged performance in ballet modern dance and folkloric dance Schwall analyzes how and why dance artists interacted with republican and later revolutionary politics Drawing on written and visual archives including intriguing exchanges between dancers and bureaucrats Schwall argues that Cuban dancers used their bodies and ephemeral nonverbal choreography to support and critique political regimes and cultural biases As esteemed artists Cuban dancers exercised considerable power and influence They often used their art to posit more radical notions of social justice than political leaders were able or willing to implement After 1959 while generally promoting revolutionary projects like mass education and internationalist solidarity they also took risks by challenging racial prejudice gender norms and censorship all of which could affect dancers personally On a broader level Schwall shows that dance too often overlooked in histories of Latin America and the Caribbean provides fresh perspectives on what it means for people and nations to move through the world **Cuba-EEUU: la hora del**

The Methuen Drama Companion to Performance Art Bertie Ferdman, Jovana Stokic, 2020-02-20 The Methuen Drama Companion to Performance Art offers a comprehensive guide to the major issues and interdisciplinary debates concerning performance in art contexts that have developed over the last decade It understands performance art as an institutional cultural and economic phenomenon rather than as a label or object Following the ever increasing institutionalization and mainstreaming of performance the book s chapters identify a marked change in the economies and labor practices surrounding performance art and explore how this development is reflective of capitalist approaches to art and event production Embracing what we perceive to be the oxymoronic status of performance art where it is simultaneously precarious and highly profitable the essays in this book map the myriad gestures and radical possibilities of this extreme

contradiction This Companion adopts an interdisciplinary perspective to present performance art's legacies and its current practices It brings together specially commissioned essays from leading innovative scholars from a wide range of approaches including art history visual and performance studies dance and theatre scholarship in order to provide a comprehensive and multifocal overview of the emerging research trends and methodologies devoted to performance art Latino Literature Christina Soto van der Plas, Lacie Rae Buckwalter Cunningham, 2023-03-31 Winner 2024 RUSA Outstanding Reference Award Offers a comprehensive overview of the most important authors movements genres and historical turning points in Latino literature More than 60 million Latinos currently live in the United States Yet contributions from writers who trace their heritage to the Caribbean Central and South America and Mexico have and continue to be overlooked by critics and general audiences alike Latino Literature An Encyclopedia for Students gathers the best from these authors and presents them to readers in an informed and accessible way Intended to be a useful resource for students this volume introduces the key figures and genres central to Latino literature Entries are written by prominent and emerging scholars and are comprehensive in their coverage of the 19th 20th and 21st centuries Different critical approaches inform and interpret the myriad complexities of Latino literary production over the last several hundred years Finally detailed historical and cultural accounts of Latino diasporas also enrich readers' understandings of the writings that have and continue to be influenced by changes in cultural geography providing readers with the information they need to appreciate a body of work that will continue to flourish in and alongside Latino communities Touched Bodies Mara Polgovsky Ezcurra, 2019-06-21 Shortlisted for the 2020 Association for the Study of the Arts of the Present Book Prize Winner of the 2019 Art Journal Prize from the College Art Association What is the role of pleasure and pain in the politics of art In Touched Bodies Mara Polgovsky Ezcurra approaches this question as she examines the flourishing of live and intermedial performance in Latin America during times of authoritarianism and its significance during transitions to democracy Based on original documents and innovative readings her book brings politics and ethics to the discussion of artistic developments during the long 1980s She describes the rise of performance art in the context of feminism HIV activism and human right movements taking a close look at the work of Diamela Eltit and Raúl Zurita from Chile León Ferrari and Liliana Maresca from Argentina and Marcos Kurtycz the No Grupo art collective and Proceso Penguino from Mexico The comparative study of the work of these artists attests to a performative turn in Latin American art during the 1980s that like photography and film before recast the artistic field as a whole changing the ways in which we perceive art and understand its role in society **Culture and the Cuban State** Yvon Grenier, 2017-11-08 Culture and the Cuban State examines the politics of culture in communist Cuba It focuses on cultural policy censorship and the political participation of artists writers and academics such as Tania Bruguera Jesús Díaz Rafael Hernández Kcho Reynier Leyva Novo Leonardo Padura and José Toirac The cultural field is important for the reproduction of the regime in place given its pretense and ambition to be eternally revolutionary and to lead a genuine cultural revolution

Cultural actors must be mobilized and handled with care given their presumed disposition to speak their mind and to cherish their autonomy This book argues that cultural actors also seek recognition by the main for a long time the only sponsor and patron of the art in Cuba the curator state The curator state is also a gatekeeper state arbitrarily and selectively opening and closing the space for public expression and for access to foreign currencies and the global market The time when everything was either mandatory or forbidden is over in Cuba The regime seems to have learned from egregious mistakes that led to a massive exodus of artists writers and academics In a country where things change so everything could stay the same the controlled opening in the cultural field playing on the actors ambition and fear illuminates a broader phenomenon the evolving rules of the political game in the longest standing dictatorship of the hemisphere
