Donald Tyson Sexual Alchemy:

Sexual Alchemy Donald Tyson, 2000 Chances are that you've heard of Tantra and Taoist sexual practices. Now, as a result of studying the inner mysteries of alchemy, Donald Tyson presents a Western system of sacred sexuality in *Sexual Alchemy*. Here you will learn how to have erotic relationships with loving spirits. That means the methods presented here can function as a Western alternative to Eastern sexual practices. They also can be used by a solitary person and need not depend upon the participation of a partner. The first part of this book presents a history of sex with spirits. It also goes into the secrets of Eastern internal alchemy and how the books of Western alchemy often made secretive references to sexual magick. You will also learn how to create a physical representation of the spirit you are going to use as a partner. The second part of the book includes the practices and techniques which the author found to be effective from other sources or developed himself. This includes techniques of diet, exercise, breathwork, banishings, purifications, and finally an invocation ritual to summon the spirit who is going to be your lover. Then you will learn the previously hidden secrets of having sex with a spirit lover. You'll learn how to prepare and recognize the signs that this is an actual occurrence and not simply a fantasy. And then, when you have accomplished your ritualized mating, you will learn how to collect and use the resulting highly charged fluids for magical purposes. Everything we are, everything we have, is a gift from the Divine. Doesn't it make sense that we use all of our abilities to honor the source from which they came? That means we can even make use of our sensual natures to honor the Gods. If you want to follow a system based on Western traditions, this book can be your guide.

Familiar Spirits Donald Tyson, 2004 For centuries familiars have assumed many forms: the heavenly lover of the shaman, the wise imp of the witch, and the elemental companion of the theurgist. But the time-honored practice of summoning a magical assistant has been mostly forsaken due to the false perception that it is both difficult and dangerous. Now, renowned occultist Donald Tyson shares his revolutionary system for safely and successfully summoning, directing, and dismissing a familiar. Accessible to dedicated beginners, these techniques do not require expertise in formal ritual astrology or the Kabbalah. Revealed here for the first time is Tyson's unique system for generating spirit sigils based on a set of symbols called Power Glyphs. Familiars summoned by this method become valuable assistants who will do everything in their power to fulfill your goals.

Taoist Yoga and Sexual Energy Eric Steven Yudelove, 2000 In *100 Days to Better Health, Good Sex, Long Life*, Eric Yudelove provided the foundation course in Taoist practice. Now he takes you to the next level, referred to as Beginning Internal Alchemy. Gather the energies from the five major internal organs, harmonize them, and change them from negative to positive. It's a process of refining yourself so you can absorb energy from nature and the cosmos, thus becoming a universe in miniature.

Three Books of Occult Philosophy Heinrich Cornelius Agrippa von Nettesheim, 1993 The *Three Books of Occult Philosophy*'s vast store of magical lore has been so influential that occultists have been drawing upon it for the past five centuries. This classic work was first published in 1531 and translated into English in 1651, but it has never since been reprinted in its entirety. Now, for the first

time in 500 years editor Donald Tyson presents these writings as Agrippa intended them to appear wholly complete and free from the hundreds of errors made in the original translation The Three Books of Occult Philosophy is the most complete repository of pagan and Neo platonian magic ever compiled This book is packed with material you will not find elsewhere including copious extracts on magic from obscure or lost works by Pythagoras Pliny the Elder Cicero Ptolemy Plato Aristotle and many other authorities Donald Tyson's detailed annotations clarify difficult references and provide origins of quotations even expanding upon them in many cases in order to make Agrippa's work more accessible to the modern reader As well as providing extensive insight into the foundations of the Western Esoteric tradition the Three Books of Occult Philosophy is the ultimate how to for magical workings It describes how to work all manner of divinations and natural and ceremonial magic in such clear and useful detail that it is still the guide for modern techniques And the extensive supplementary material including biographical and geographical dictionaries and appendices provides quick reference to many previously obscure matters in classical magic The Three Books of Occult Philosophy is an essential reference tool for all students of the history of ideas and the occult tradition back cover
