Double Consciousness An Autoethnic Guide To My Black American Experience:

Kendrick Lamar and the Making of Black Meaning Christopher M. Driscoll, Monica R Miller, Anthony B. Pinn, 2019-09-25
Kendrick Lamar has established himself at the forefront of contemporary hip hop culture Artistically adventurous and socially conscious he has been unapologetic in using his art form rap music to address issues affecting black lives while also exploring subjects fundamental to the human experience such as religious belief This book is the first to provide an interdisciplinary academic analysis of the impact of Lamar s corpus In doing so it highlights how Lamar s music reflects current tensions that are keenly felt when dealing with the subjects of race religion and politics Starting with Section 80 and ending with DAMN this book deals with each of Lamar s four major projects in turn A panel of academics journalists and hip hop practitioners show how religion in particular black spiritualities take a front and center role in his work They also observe that his astute and biting thoughts on race and culture may come from an African American perspective but many find something familiar in Lamar s lyrical testimony across great chasms of social and geographical difference This sophisticated exploration of one of popular culture s emerging icons reveals a complex and multi faceted engagement with religion faith race art and culture As such it will be vital reading for anyone working in religious African American and hip hop studies as well as scholars of music media and popular culture

Abstracts of the Annual Meeting American Anthropological Association, 2001 *Double Consciousness* William Lewis, 1970 The Soul-less Souls of Black Folk Paul C.

Mocombe, 2008-12-24 Since the 1960s there have been two schools of thought on the origins and nature of black consciousness the adaptive vitality school and the pathological pathogenic school The latter argues that in its divergences from white American norms and values black American consciousness is nothing more than a pathological form of and reaction to American consciousness rather than a dual both African and American counter hegemonic opposing identity in differential the term is Gayatri Spivak s to the American one Proponents of the adaptive vitality school argue that the divergences are not pathologies but African institutional transformations preserved on the American landscape The purpose of this work is to understand black consciousness by working out the theoretical and methodological problems from which these two divergent schools are constructed in order to arrive at a more sociohistorical rather than racial understanding of black consciousness Using a variant of structuration theory to account for the sociohistorical development of black consciousness formation within the American social structure author Paul Mocombe concludes that black American life is dual and pathological only in relation to a particular interpretive community the black bourgeoisie or liberal middle class

The Black Atlantic Modernity and Double Consciousness , 1993 **The Concept of Self** Richard L. Allen, 2001 The Concept of Self examines the historical basis for the widely misunderstood ideas of how African Americans think of themselves individually and how they relate to being part of a group that has been subjected to challenges of their very humanity Institutional racism has had a major impact on the development of African American self esteem and group identity

Through the years African Americans have developed strong tenacious concepts of self partially based on African cultural and philosophical retentions and as a reaction to historical injustices The Concept of Self examines the historical basis for the widely misunderstood ideas of how African Americans think of themselves individually and how they relate to being part of a group that has been subjected to challenges of their very humanity Richard Allen examines past scholarship on African American identity to explore a wide range of issues leading to the formation of an individual and collective sense of self Allen traces the significance of social forces that have impinged on the lives of African Americans and points to the uniqueness of their position in American society He then focuses on the results from the National Survey of Black Americans a national survey of African Americans on a wide range of political social and psychological issues to develop a model of African self Allen explores the idea of double consciousness as put forth by W E B DuBois against the more recent debates of Afrocentricity or an African centered consciousness He proposes a set of interrelated hypotheses regarding how African Americans might use an African worldview for the upliftment of Africans in the Diaspora The Concept of Self will interest students and scholars of African American studies sociology and population studies *Double Consciousness in African American Literature, Music, and Political Thought* Karsten Nölle, 2005 *Black Bodies, White Gazes* George Yancy, 2008-09-26 Click here to listen to George Yancy s radio interview with C S Soong on Against the Grain Black Bodies White Gazes The Continuing Significance of Race understands Black embodiment within the context of white hegemony within the context of a racist anti Black world George Yancy examines themes such as double consciousness invisibility and corporeal malediction that capture the lived reality of Black bodies under tremendous existential duress He demonstrates that the Black body is a historically lived text on which whites have inscribed their projections which speak equally forcefully to whites own self conceptions

Jackson and Jones Ray Andrew Delva, 2017 Author s abstract As a result of the increasingly popular notion that the United States of America has evolved into a post racial society most American discussions on race academic or not tend to be non comprehensive and oversimplified When assessing the current socioeconomic dilemmas unique to African Americans

scholars on both sides of the political spectrum often overlook a critical component of the African American condition the looming threat of black nihilism which Dr Cornel West defines as the lived experience of coping with a life of horrifying meaninglessness hopelessness and most important lovelessness West 14 By performing a close analysis on the activist George Jackson s book *Soledad Brother* this study illuminates key characteristics of the detrimental phenomenon In addition this study utilizes the revolutionary drama of poet and Black Arts Movement founder LeRoi Jones in order to bridge the gap between black nihilism and W E B Dubois s notion of double consciousness An evaluation of black nihilism in the works of Jackson and Jones adds a layer of understanding towards the African American condition by revealing the various societal and political factors that foster feelings of ineptitude and helplessness in the black American community The revelations of this study nullify any notion that America has become a post racial nation By bridging the theoretical gap between black nihilism and double consciousness this study will contribute to future research in Africana studies and black existentialism By expounding on one of Du Bois s most prominent conceptions this study becomes part of the Du Boisian body of research which is still growing

Reclaiming Our Voices Kenneth T. Washington, 2019 Several researchers have called for further research devoted to exploring positive psychology constructs among African Americans In the present study I addressed the aforementioned calls for African American positive psychology and existentialism research by utilizing the autoethnographic approach to explore the processes and resources that four African Americans accessed to critically think about and make sense of their lived experiences Given the current sociopolitical climate I wanted to intentionally use my academic and class privilege to amplify the voices and strivings of four African Americans for survival and meaning in life I utilized the autoethnographic approach to share my personal narrative of developing critical consciousness to explain the contextual factors influencing my worldview For this dissertation study I also conducted in depth interviews with three other African Americans over a series of interview sessions to explore what made their lives meaningful A thematic analysis of the participant data was conducted to analyze and identify emergent themes The thematic analysis produced six emergent themes and 18 subthemes to contextual powerful influences shaping their perceptions of meaning in life existence and critical consciousness development I am hopeful that readers will gain four different perspectives on how as African Americans the participants define and understand their existence facets of life that make their lives meaningful and how they have come to make sense of their worlds

Olaudah Equiano: A Rudimentary Double Consciousness Seda Canpolat, 2008 Seminar paper from the year 2007 in the subject American Studies Literature grade 1 3 Johannes Gutenberg University Mainz course Narratives in Colonial America SS 2007 23 entries in the bibliography language English abstract The very first look on the front cover of Olaudah Equiano s autobiography The Interesting Narrative of the Life of Olaudah Equiano or Gustavus Vassa the African presents an uncommon picture at least uncommon for the eighteenth century This frontpiece shows an indisputably African body in European dress Carretta Introduction xix This could be seen as a potential indication of a so called double consciousness as it was coined by William Edward Burghardt Du Bois 1868 1963 In his introduction to Olaudah Equiano s narrative Vincent Carretta states that Equiano possesses such a double consciousness Frank Kelleter also invokes this term in his discourse on Ethnic Self Dramatization and Technologies of Travel in order to describe Equiano s identity cf 73 Equiano was kidnapped as an eleven year old boy from Africa and sold into slavery Not only did he embark on several voyages across the Atlantic Middle Passage and traveled to different British colonies but what is more he embarked on a process of cultural assimilation which shaped his identity This paper will focus on the question if the notion of double consciousness which Du Bois coined in The Souls of Black Folk in 1903 can be applied unquestioningly to Equiano s

eighteenth century narrative Equiano may possess some kind of double consciousness but it is a less distinct one than described by Du Bois Equiano's double consciousness may flicker now and again and it certainly fulfills some of Du Bois's criteria but yet it lacks the essence of Du Bois's definition the irreconcilability of two antagonistic identities Therefore it will be crucial to see how Equiano escaped the dialectic two soul paradigm and came to terms with his ancestral past and his newly adopted *Black Culture and Black Consciousness* ,
