Doubles The Enigma Of The Second Self:

Doubles Rodney Davies,1998 Davies reveals that we have a spiritual form within us that can occasionally separate itself from our physical body and appear at a near or distant place where it is mistaken for our real self and examines this strange alter ego *The Borges Enigma* Cynthia Lucy Stephens,2021 Borges once stated that he had never created a character It s always me subtly disguised This book focuses on the ways in which Borges uses events and experiences from his own life in order to demonstrate how they become the principal structuring motifs of his work It aims to show how these experiences despite being heavily disguised are crucial components of some of Borges s most canonical short stories particularly from the famous collections Ficciones and El Aleph Exploring the rich tapestry of symmetries doubles and allusions and the roles played by translation and the figure of the creator the book provides new readings of these stories revealing their hidden personal emotional and spiritual dimensions These insights shed fresh light on Borges s supreme literary craftsmanship and the intimate puzzles of his fictions Is There Life After Death? Anthony Peake,2006-06-06 Peake s explanation of your immortality is the most innovative and provocative argument I have seen Bruce Greyson Carlson Professor of Psychiatry University of Virginia Do you occasionally have that strange feeling known as d j vu Do you sometimes feel that you know what is going to happen next Do you ever have a strong feeling that actions you are about to take are the right or wrong thing to do All these perceptions may be everyday clues to your immortality This book proposes a simply amazing theory a theory that states that personal death is a scientific impossibility Using the latest findings of neurology quantum physics and consciousness studies Anthony Peake suggests that we never die After reading this book you will understand the reason for your life and how you can make it better next time **N equals 1** Gerhard Mayer,2020-03 Single case studies have a long tradition in the field of parapsychology and anomalistics research Naturally thorough case studies do not usually provide hard evidence for the existence of paranormal effects However they demonstrate the dynamics of occurrence of such extraordinary phenomena and experiences in the living world This volume is intended to give an overview of the methodological peculiarities of anomalistic field research On the basis of historical and current case studies certain specific psychosocial dynamics and problems in this interesting and challenging field of research are presented and discussed *A Life of Philip K. Dick* Anthony Peake,2013-10-09 Philip K Dick was a writer who drew upon his own life to address the nature of drug abuse paranoia schizophrenia and transcendental experiences of all kinds More than 10 major Hollywood movies are based on his work including Blade Runner A Scanner Darkly Total Recall Minority Report and The Adjustment Bureau Born in 1929 just before the Great Crash Dick s twin sister died when she was a month old and his parents were divorced by the time he was three In his teens he began to show the first signs of mental instability but by then he was already producing fiction writing of a visionary nature *Time and The Rose Garden* Anthony Peake,2018-01-26 J B Priestley is considered by many to be an old fashioned playwright whose work is locked in a pre war world of provincialism and whose ideas are way

past their sell by date In Time and the Rose Garden internationally recognised author Anthony Peake re assesses the plays and novels of this fascinating writer In doing so Peake argues that Priestley should be recognised as one of the most prescient of all middle century playwrights and that his ideas on time consciousness and mortality can be found in hugely popular blockbusters such as The Matrix Vanilla Sky Deja Vu Sliding Doors Butterfly Effect and many others **Journal of the Society for Psychical Research** Society for Psychical Research (Great Britain),1997 *Doubles* Karl Miller,1985 This book examines a literary tradition that stretches from antiquity to last week s best seller list the alter ego the second self of doppelganger the imagination of two or more selves in one Miller studies literary masterpieces and real life cases and argues that literature itself is a duality that is the double who writes the novels and has been implicated from the first in the cultivation of uncertainty that distinguishes modern literature Opening with an account of one of the tradition s leading text James Hogg s Confessions of a Justified Sinner Miller goes on to treat the equivocal language of Romanticism the orphan delirium of the Gothic heritage the themes of isolation escape and the after life secrecy and literary anonymity then Anglo American dualistic consensus and the important role played by dual nationality in the tradition Included are essays on Poe Dickens Dostoevsky Henry James Edith Wharton Robert Frost Robert Lowell Sylvia Plath Norma Mailer and Saul Bellow and this fascinating study concludes with a discussion of recent first hand experiences of the divided self **Buried Alive** Rodney Davies,2000 Unfortunately the bodily signs exhibited by someone in a trance or coma are often indistinguishable from those occurring at death so they can therefore be mistaken for the real thing This examines the tragic consequences of such errors of premature burial or cremation **Double Vision** Darby Lewes,2008-01-01 Tremendous philosophical social technological and aesthetic revolutions overwhelmed those living in the eighteenth and nineteenth centuries This volume examines the manner in which writers employed the metaphor of the literary palimpsest to respond to the resulting disorientation and alienation of this period of great change Doubling in Don Quixote Iluminada L. The Freudian Reading Lis Møller, Lis Møller, 2016-11-11 Selected by Choice magazine as an Outstanding Academic Title In *The Freudian Reading* Lis Møller examines the premises procedures and objectives of psychoanalytic reading in order to question the kind of knowledge such readings produce But above all she questions the role of Freud as master explicator Although Freud has been seen as a great synthesizer Møller contends that his significance as a reader lies elsewhere For Møller this significance lies in the way Freud presses his inquiry to the point where he encounters something he cannot explain or that he can only explain at the risk of overthrowing previous conclusions Such moments of crisis occur repeatedly in Freud's work causing him to swerve from his original train of thought or even to call into question the theoretical foundation of his interpretation The dominant line of argument therefore is frequently punctuated with problems and questions If we concentrate on these Møller argues we are forced to reconsider the traditional conception of a Freudian reading and to reassess our perceived notions of just what kind of reader Freud was While *The Freudian Reading* is based on a wide range of Freud's writings it concentrates on four central texts *Delusions and Dreams in Jensen's Gradiva* *From the History of an Infantile Neurosis* *The Uncanny* and *Constructions in Analysis* The discussion does not progress chronologically Rather it explores the ways in which these texts interact how they reflect comment on and contradict one another *The Freudian Reading* is a concentrated subtle analysis of Freud's interpretive practice with special reference to his interpretations of literary texts It will be of interest to scholars and students of literary theory and criticism as well as to readers in the field of psychoanalysis

Out of Order, Out of Sight Adrian Piper, 1996 Adrian Piper joins the ranks of writer artists who have provided much of the basic and most reliable literature on modern and contemporary art *Out of Order Out of Sight* is an artistic and intellectual autobiography and an occasionally scathing commentary on mainstream art art

criticism and American culture of the last twenty five years Piper is an internationally recognized conceptual artist and the only African American in the early conceptual art movement of the 1960s The writings in *Out of Order Out of Sight* trace the development of her thinking about her artwork and the art world and her evolving awareness of herself as a creative racial and gendered subject situated in an often limiting and always absurd cultural and social context
