Emil Nolde German Max Sauerlandt:

German Expressionist Painting, 1957 *German Expressionist Painting* Peter Selz, 2023-04-28 Published in 1957

German Expressionist Painting was the first comprehensive study of one of the most pivotal movements in the art of this century. When it was written, however, German Expressionism seemed like an eccentric manifestation far removed from what was then considered the mainstream of modern art. But as historians well know, each generation alters the concept of mainstream to encompass those aspects of the past which seem most relevant to the present. The impact of German Expressionism on the art and thought of later generations could never have been anticipated at the time of the original writing of this book. During the subsequent years, an enormous body of scholarly research and an even larger number of popular books on German expressionist art has been printed. Numerous monographs and detailed studies on most of the artists exist now, and countless exhibitions with accompanying catalogues have taken place. Much of this new research could have been incorporated in a revised edition, and the bibliography certainly could have been greatly expanded to include the important writings which have been published in Germany, the United States, and elsewhere since this book was originally issued. The author, however, was faced with the choice of reprinting the original text with only the most necessary alterations, such as updating the captions to indicate present locations of the paintings or the preparation of a revised text and bibliography. Desirable as a revision appeared, present printing costs would have priced the paperback out of reach for students. It is for this reason that I decided to reissue the original text, which stands on its own as a primary investigation of German Expressionist Painting.

Emil Nolde Robert A. Pois, 1982. A Freudian analysis of Emil Nolde within the context of German cultural history.

Max Liebermann and International Modernism Marion Deshmukh, Françoise Forster-Hahn, Barbara Gaehtgens, 2011-05. Although Max Liebermann 1847-1935 began his career as a realist painter depicting scenes of rural labor, Dutch village life, and the countryside, by the turn of the century his paintings had evolved into colorful images of bourgeois life and leisure that critics associated with French impressionism. During a time of increasing German nationalism, his paintings and cultural politics sparked numerous aesthetic and political controversies. His eminent career and his reputation intersected with the dramatic and violent events of modern German history, from the Empire to the Third Reich. The Nazis' persecution of modern and Jewish artists led to the obliteration of Liebermann from the narratives of modern art, but this volume contributes to the recent wave of scholarly literature that works to recover his role and his oeuvre from an international perspective.

The Visual Arts in Germany, 1890-1937 Shearer West, 2000. This work provides an introduction to the visual arts in Germany from the early years of German unification to World War II. The study is an analysis of painting, sculpture, graphic art, design, film, and photography in relation to a wider set of cultural and social issues that were specific to German modernism. It concentrates on the ways in which the production and reception of art interacted with and was affected by responses to unification, conflict between left and right political factions, gender concerns,

independent art movement in Hamburg influenced by French impressionism Drawing on an extensive amount of archival research and combining both historical and art historical approaches Kay examines Lichtwark s cultural politics their effect on the Hamburg bourgeoisie and the subsequent changes to the cultural scene in Hamburg Kay focuses her study on two modern art scandals in Hamburg and shows that Lichtwark faced strong public resistance in the 1890s winning significant support from the city s bourgeoisie only after 1900 Lichtwark s struggle to gain acceptance for impressionism highlights conflicts within the city s middle class as to what constituted acceptable styles and subjects of German art with opposition groups demanding a traditional and pure German culture The author also considers who within the Hamburg bourgeoisie supported Lichtwark and why Kay s local study of the debate over cultural modernism in Imperial Germany makes a significant contribution both to the study of modernism and to the history of German culture *Emil Nolde* Peter

Widrich, 2015-10-16 Does participatory art and architecture shape social reality or is it shaped by it Shifting the ground of this debate which tends to assume one or other direction of influence this innovative book explores the inherently dialectic relationship between society and the built environment At the same time it strives for a historically conscious discussion of a very contemporary issue Chapters rethink the top down model of participation and audience activation of high modernism from Alexander Dorner's immersive museum to Mies van der Rohe's rooms for play investigate participation in spaces under political pressure from exhibitions in bombed out buildings in besieged Sarajevo 1992-5 to the art and organizing of revolution in Egypt 2012-13 draw historical parallels between modes of participation and the exercise of power that are seldom compared with one another from sites of occupation in 1968 Mexico and 2011 Spain finally creating links between cartography and feminism and between tourism and internet surveillance With these juxtapositions of the aesthetic and the everyday and the built and the mediated new questions arise is space formed once and for all or is it the changeable product of changeable patterns of use Does the aesthetic always correspond to the political or might an aesthetically authoritarian space be conducive to social justice In exploring these questions this book looks at how participants themselves exert power rather than being victimised or liberated from it **Catalogue of the Harvard University Fine Arts Library, the Fogg Art Museum** Harvard University.
