Vazquez, 2012-12-06 Accelerated Ecological Psychotherapy ETT Applications for Sleep Disorders Pain and Addiction describes a number of therapeutic breakthroughs for a diverse array of conditions The means for accomplishing these advances are specific attachment based interpersonal processes that are radically amplified by using precise elements of the client s visual ecology Forms of visually initiated brain stimulation include 1 an innovative form of eye movement 2 a specialized type of peripheral eye stimulation 3 Spectral Resonance Technique that uses intense color and 4 a tunable light device from which hundreds of precise wavelengths of light can be selected to emit into the client s eyes The method is called Emotional Transformation Therapy ETT This approach consistently relieves disturbing emotions in seconds alleviates physical pain in minutes and frequently evokes states of extreme wellbeing This book offers a new process theory of emotion focused on the nature and progression patterns of emotions The book describes an entirely different treatment for seasonal affective disorder SAD that offers a radical new level of treatment outcome Since external light controls the brain s biological clock that dictates sleep and waking patterns ETT can be used to treat a variety of sleep disorders One of the most stunning applications of ETT concerns its use for chronic physical pain Migraines lower back pain arthritis fibromyalgia and many other forms of pain are usually alleviated in the first session and extinguished long term after a brief series of sessions

One of the most unique discoveries of the ETT method concerns the rapid long term elimination of substance addictive craving Revolutionary treatment outcomes for sex addiction and other behavioral addictions offers a new advance ETT can be applied to couple psychotherapy in such a way that it facilitates radical changes in emotional dysfunctions in couple relationships Impasses in conflict and alleviation of severely distressed couples can be resolved surprisingly fast Of all of the breakthroughs brought forth by ETT its impact on spiritual phenomena may be the most dramatic ETT includes processes to either alleviate a religious spiritual block or to facilitate states of extreme wellbeing verified by brain scans *Slow Down, I'M Getting Well Too Fast* Dr. Iren Fellegvari,2014-11-14 Our eyes are involved in most of our experiences and in forming our memories It seems logical that we can use our eyes to change hurtful memories Emotional Transformation Therapy ETT was developed with this concept in mind Emotions play an extraordinary role in our lives Every event is labeled with a corresponding emotion in our brains An experience can be characterized as pleasant or dangerous or by any other identifier that influences our thoughts and actions or determines whether we want to remember a particular occurrence Events do not change if the emotional labels are altered but we think and react differently to different labels People can go from feeling victimized to becoming proud survivors if the labels are changed A crisis situation can become either a tragedy or a new beginning based on a persons emotional evaluation ETT does not change facts but it can help transform shame fear loneliness emptiness and other often paralyzing feelings opening up a person to the possibility of more realistic and empowering mind sets ETT offers quick goal oriented treatment for severe psychological problems like PTSD abuse and eating disorders and everyday situations such as stress in ones professional life anxiety that hinders achievement and more Learn more about this revolutionary new treatment method designed by a licensed clinical psychologist and unlock the secret to fast effective recovery Spiritually Transformative Psychotherapy Steven R. Vazquez,2016-12-08 Spiritually Transformative Psychotherapy offers fresh insights into counseling people with diverse spiritual and religious philosophies Grounded in theory and research this text focuses on building contemplative methods like meditation into practice and provides valuable applications to help clients work toward forgiveness resolving spiritual conflicts between partners and ultimately achieving spiritual and emotional wellbeing The Comprehensive Resource Model Lisa Schwarz, Frank Corrigan, Alastair Hull, Rajiv Raju,2016-10-04 Traditional methods employed in psychotherapy have limited effectiveness when it comes to healing the psychological effects of trauma in particular complex trauma While a client may seem to make significant breakthroughs in understanding their feelings and experiences on a rational level by talking with a therapist this will make no difference to their post traumatic symptoms if the midbrain is unable to modulate its activity in response The Comprehensive Resource Model argues for a novel therapeutic approach which uniquely bridges neuroscience and spirituality through a combination of somatic therapy traditional psychotherapy and indigenous healing concepts to provide effective relief to survivors of trauma The Comprehensive Resource Model was developed in response to the need for a

streamlined integrative therapeutic model one which engages a scaffolding of neurobiological resources in many brain structures simultaneously in order for clients to be fully embodied and conscious in the present moment while processing their traumatic material All three phases of trauma therapy resourcing processing and integration are done simultaneously Demonstrating a nested model and employing brain and body based physiological safety as the foundation of healing chapters describe three primary categories of targeted processing implicit and explicit survival terror Little T Truths and Big T Truths all of which contribute to thorough healing of complex trauma and an expansion into higher states of consciousness and embodiment of the essential core self This book describes the development and benefits of this pioneering new approach to trauma therapy As such it will be of key interest to academics researchers and postgraduate students in the fields of psychiatry psychotherapy psychology and trauma studies It will also appeal to practising therapists psychiatrists psychologists psychiatric nurses and to others involved in the treatment or management of patients with complex trauma disorders
