Empathy Imperiled Capitalism Culture And The Brain Springerbriefs In Political Science:

Empathy Imperiled gary olson, 2012-12-12 The most critical factor explaining the disjuncture between empathy's revolutionary potential and today's empathically impaired society is the interaction between the brain and our dominant political culture. The evolutionary process has given rise to a hard-wired neural system in the primal brain and particularly in the human brain. This book argues that the crucial missing piece in this conversation is the failure to identify and explain the dynamic relationship between an empathy gap and the hegemonic influence of neoliberal capitalism through the analysis of the college classroom, the neoliberal state, media, film, and photo images, marketing of products, militarization, mass culture, and government policy. This book will contribute to an empirically grounded dissent from capitalism's narrative about human nature. Empathy is putting oneself in another's emotional and cognitive shoes and then acting in a deliberate, appropriate manner. Perhaps counter-intuitively, it requires self-empathy because we're all products of an empathy-anesthetizing culture. The approach in this book affirms a scientific basis for acting with empathy and it addresses how this can help inform us to our current political culture and process and make it of interest to students and scholars in political science, psychology, and other social sciences.

Adopting the Tune of Term: An Emotional Symphony within **Empathy Imperiled Capitalism Culture And The Brain Springerbriefs In Political Science**

In a world used by displays and the ceaseless chatter of fast conversation, the melodic splendor and emotional symphony developed by the prepared word frequently diminish in to the back ground, eclipsed by the constant noise and distractions that permeate our lives. Nevertheless, situated within the pages of **Empathy Imperiled Capitalism Culture And The Brain Springerbriefs In Political Science** an enchanting literary treasure overflowing with raw thoughts, lies an immersive symphony waiting to be embraced. Crafted by an outstanding musician of language, that charming masterpiece conducts viewers on an emotional trip, well unraveling the concealed songs and profound affect resonating within each carefully constructed phrase. Within the depths of this emotional assessment, we will explore the book is key harmonies, analyze its enthralling writing style, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
