The material is presented from the perspective that the human resource professional is the employer's representative and is therefore responsible for protecting the employer's interests and reducing the employer's exposure to litigation through monitoring activities and viable employee policies. Block, 1996 *Employment Law* examines the relevant statutes judicial decisions executive orders and administrative policies that shape the respective rights of managers and workers at the workplace. It goes well beyond simply stating what is legal and what is illegal. Stone, 2004-07-26 *From Widgets to Digits* is about the changing nature of the employment relationship and its implications for labor and employment law. For most of the twentieth century employers fostered long term employment relationships through the use of implicit promises of job security well defined hierarchical job ladders and longevity based wage and benefit schemes. Today's employers no longer value longevity or seek to encourage long term attachment between the employee and the firm. Instead employers seek flexibility in their employment relationships. As a result employees now operate as free agents in a boundaryless workplace in which they move

across departmental lines within firms and across firm borders throughout their working lives Today s challenge is to find a means to provide workers with continuity in wages on going training opportunities sustainable and transferable skills unambiguous ownership of their human capital portable benefits and an infrastructure of support structures to enable them to weather career transitions
