local struggles over diverse modes of injustice *Technology Education for Sustainable Youth Empowerment in Nigeria* Nigerian Association of Teachers of Technology. Conference,2005 **Curriculum, Syllabus Design, and Equity** Allan Luke,Annette Woods,Katie Weir,2013 Advancing a unified principled approach that aims for high quality high equity educational outcomes this book offers clear realistic guidelines for the tasks of writing curriculum documents and designing official syllabi and professional development programs at system and school levels *The Primary Curriculum* Linda Hargreaves,Janet Moyles,2002-09-11 This book is concerned with the relationships and tensions in education between children s needs and societies demands questions which primary teachers everywhere face on a daily basis such as how does society s view of children and childhood affect teaching and learning how do the dictates of the education system including a national curriculum shape teaching practice how do the conventions of classroom practice fit with teachers own beliefs and values The first part of the book offers a basic framework for thinking about primary curricula from the perspectives raised by these questions whilst the second part presents a range of international views on the primary curriculum from Australia New Zealand South East Asia Europe and the USA **Resources in Education** ,2001 Information Communication Technologies: Concepts, Methodologies, Tools, and Applications Van Slyke, Craig,2008-04-30 The rapid development of information communication technologies ICTs is having a profound impact across numerous aspects of social economic and cultural activity worldwide and keeping pace with the associated effects implications opportunities and pitfalls has been challenging to researchers in diverse realms ranging from education to competitive intelligence Empowerment for Teaching Excellence Through Virtuous Agency Hennie Lötter,2021-08-31 This books offers new ways to think about teaching excellence in higher education and presents a definition of the concept of teaching excellence It offers a fresh interpretation of Boyer s famous account of scholarship as the foundation of university teaching To fully understand the nature of teaching excellence in higher education the book gives an account of the various dimensions of the domain of university teaching and the core drivers required to bring those domains to life The idea of empowerment underlies the journey to excellence in teaching The book argues that university lecturers aspiring to become excellent should be active agents strongly pursuing the development of their perfectible abilities required for high quality teaching The work draws on recent developments in virtue theory to set out the qualities of character requisite for guiding and driving university lecturers to grow and develop into excellent teachers *Developing the Credit-Based Modular Curriculum in Higher Education* Mick Betts,2005-08-12 This text provides guidance for building curriculum structures and examines the models that can be used Options such as accreditation of prior and experiential learning incompany accreditation work based learning Handbook of Research on Implementing Inclusive Educational Models and Technologies for Equity and Diversity Escudeiro, Paula,Escudeiro, Nuno,Bernardes, Oscar,2023-06-29 Despite the increased adoption of digital education materials during the pandemic there is a persistent issue of educational inequity and exclusion especially for students in rural areas and those with diverse

disabilities Digital technologies have the potential to expand and liberate education but their inconsistent history raises questions about their effectiveness in addressing these challenges Implementing Inclusive Educational Models and Technologies for Equity and Diversity offers a comprehensive and timely reference source that aims to provide an opportunity for reflection on the crucial issue of inclusion and equity in the context of educational improvements This research book provides relevant academic work empirical research findings and an overview of this relevant field of study It also covers recommended topics such as mobile and blended learning teaching and learning strategies technological concerns and ethical and sociological concerns such as accessibility for users with diverse disabilities and addressing individual differences By providing a platform for research opportunities and increasing understanding of inclusion and equity in education the book can contribute to the development of effective strategies and tactics to create inclusive educational environments that leverage digital technologies

The Science, Technology, Society Movement Robert Eugene Yager, 1993 *Student Empowerment in Higher Education. Reflecting on Teaching Practice and Learner Engagement* Anjoom A. Mukadam ,2020-05-04 Student Empowerment in Higher Education brings together the accumulated knowledge and experience of many accomplished teachers and students from higher education institutions around the world and has much to offer those who are engaged in higher education as students teachers or support staff The authors offer personal reflections in teaching learning mentoring assessment hands on activities course design and student identities in higher education across the globe supported by academic research and scholarship Readers are provided with a window into tried and tested empowering practices in varying contexts enabling them to see what works and what does not alongside the challenges and possibilities A distinctive feature of this book and its paramount strength is that it explores best practices in student empowerment whilst reflecting on matters of teaching and learning that are familiar to students and teachers alike and also explores practices in a variety of disciplines The intention of these volumes therefore is not only to inform readers about the diverse learning and teaching approaches of the authors but most importantly to facilitate processes of student empowerment and promote reflection on teaching and learning practices In recent decades higher education policy discourse has persistently implied that a university education is delivered to students under the impersonal banner of the student experience Not only does this commodify the diverse individual experiences of students into one marketable product it also creates false barriers and power dynamics between students and their teachers In Student Empowerment in Higher Education the students and lecturers who collaborated to write this important volume have literally blown such misleading notions out of the window I highly recommend each varied and autonomous chapter to learn what really inspires confidence and success in university students Professor Sarah Hayes Professor of Higher Education Policy University of Wolverhampton The two volumes of Student Empowerment in Higher Education offer the reader rich and varied examples and understandings of student empowerment from around the world The authors provide reflective accounts of learning and

teaching from diverse perspectives and disciplines which focus on many different areas of practice in higher education It is this variety that will appeal to many readers as the source of ideas and inspiration for numerous possible routes to empowerment With many chapters co authored by students and staff the book models the collective responsibility students and staff have for enhancing student empowerment Dr Catherine Bovill Senior Lecturer in Student Engagement University of Edinburgh Fulbright Scholar Elon University North Carolina USA Visiting Fellow Knowledge Exchange University of Winchester
