Encounter With Japan:

Encounter with Japan Herbert Passin, 1982 The author depicts his experiences as a student at an American Army Japanese language school and as part of the occupation forces in Japan

America encounters Japan William L. Neumann, 1963

The African American Encounter with Japan and China Marc Gallicchio, 2003-06-19 In the first book to focus on African American attitudes toward Japan and China Marc Gallicchio examines the rise and fall of black internationalism in the first half of the twentieth century This daring new approach to world politics failed in its effort to seek solidarity with the two Asian countries but it succeeded in rallying black Americans in the struggle for civil rights Black internationalism emphasized the role of race or color in world politics and linked the domestic struggle of African Americans with the freedom struggle of emerging nations of color such as India and much of Africa In the early twentieth century black internationalists including W E B Du Bois and Marcus Garvey embraced Japan as a potential champion of the darker races despite Japan s imperialism in China After Pearl Harbor black internationalists reversed their position and identified Nationalist China as an ally in the war against racism In the end black internationalism was unsuccessful as an interpretation of international affairs The failed quest for alliances with Japan and China Gallicchio argues foreshadowed the difficulty black Americans would encounter in seeking redress for American racism in the international arena

Encounters with Japan Richard Tames, 1991 The experiences of British and Americans in Japan between its opening up in 1850 and the ending of the Japanese Anglo alliance in 1923 mostly told in the words of the visitors themselves

Japan Encounters the Barbarian Emeritus Professor W G Beasley, William G. Beasley, 1995-01-01 For over a hundred years the Japanese have looked to the West for ideas institutions and technology that would help them achieve their goal of national wealth and strength In this book a distinguished historian of Japan discusses Japan s cultural borrowing from America and Europe W G Beasley focuses on the mid nineteenth century when Japan s rulers dispatched diplomatic missions to the West to discover what Japan needed to learn sent students abroad to assimilate information and invited foreign experts to Japan to help put the knowledge to practical use Beasley examines the origins of the decision to initiate direct study of the West at a time when western countries counted as barbarian by Confucian standards Drawing on many colourful letters diaries memoirs and reports he describes the missions sent overseas in 1860 and 1862 in 1865 1867 and in the years after 1868 in particular the prestigious embassy led by Iwakura in 1871 1873 The book also tells the story of the several hundred students who went overseas in this period It concludes by assessing the impact of the encounters on the subsequent development of Japan first by examining the later careers of the travellers and the influence they exercised they included no fewer than six prime ministers of the late nineteenth and early twentieth centuries and then by considering the nature of the ideas they brought home

The Norwegian-American Lutheran Experience in 1950s Japan Kate Allen, John E. Ingulsrud, 2015-12-15 Stepping Up to the Cold War Challenge The Norwegian American Lutheran Experience in 1950s Japan describes the events that led to the Evangelical Lutheran Church ELC an American Christian denomination to respond to General MacArthur's call for missionaries This Church did not initially respond but did so in 1949 only after their missionaries had been expelled from China due to the victory of communist forces on the mainland Because they feared Japan would also succumb to communism in less than ten years the missionaries evaded ecumenical cooperation and social welfare projects to focus on evangelism and

establishing congregations Many of the ELC missionaries were children and grandchildren of Norwegian immigrants who had settled as farmers on the North American Great Plains Based on interview transcripts and other primary sources this book intimately describes the personal struggles of individuals responding to the call to be a missionary adjusting to life in Japan learning Japanese raising a family and engaging in mission work As the Cold War threat diminished and independence movements elsewhere were ending colonialism missionaries were compelled to change methods and attitudes The 1950s was a time when missionaries went out much in the same manner that they did in the nineteenth century Through the voices of the missionaries and their Japanese coworkers the book documents how many of the traditional missionary assumptions begin to be questioned *Encounters and Positions* Susanne Kohte, Hubertus Adam, Daniel Hubert, 2017-03-20 Now as before Japanese architecture is very popular in Europe and the western world This publication provides an overview of its many design concepts and cross references Using design examples and interviews the book presents thirteen current positions The publication focuses on young architects who take up extremely independent positions within Japanese architecture as well as on Pritzker Prize winners Toyo Ito and Fumihiko Maki Six essays by European specialists on Japan provide supplementary insights into the aesthetics and space concepts of Japanese architecture making cross references to Japan's architectural history and explaining current lines of development The book thus combines a self reflective approach with an outsider's analytical view

Murphy, 2004-08-02 Explores the interactions of 19th century American merchants with the Japanese in the treaty port system how the Japanese leadership manipulated them and how the merchants themselves defined the limitations of American business in Japan

Global Japan Roger Goodman, Ceri Peach, Ayumi Takenaka, Paul White, 2005-06-27 The Japanese have long regarded themselves as a homogenous nation clearly separate from other nations However this long standing view is being undermined by the present international reality of increased global population movement This has resulted in the establishment both of significant Japanese communities outside Japan and of large non Japanese minorities within Japan and has forced the Japanese to re conceptualise their nationality in new and more flexible ways This work provides a comprehensive overview of these issues and examines the context of immigration to and emigration from Japan It considers the development of important Japanese overseas communities in six major cities worldwide the experiences of immigrant communities in Japan as well as assessing the consequences for the Japanese people's view of themselves as a nation

The West's encounter with Japanese civilization 1800-1940, 2000 **Meeting with Japan** Fosco Maraini, 1960 Interpretive description of modern Japan by an Italian linguist and photographer who spent many years there as teacher and traveler Includes over 150 photographs 36 in color
