Emotional Ethics of The Hunger Games Tarja Laine,2021-05-17 Emotional Ethics of The Hunger Games expands the ethical turn in Film Studies by analysing emotions as a source of ethical knowledge in The Hunger Games films It argues that emotions incorporated in the thematic and aesthetic organization of these films reflect a crisis in moral standards As such they cultivate ethical attitudes towards such phenomena as totalitarianism the culture of reality television and the society of spectacle The focus of the argument is on cinematic aesthetics which expresses emotions in a way that highlights their ethical significance running the gamut from fear through guilt and shame to love anger and contempt The central claim of the book is that these emotions are symptomatic of some moral conflict which renders The Hunger Games franchise a meaningful commentary on the affective practice of cinematic ethics The Hunger Games movies have become iconic symbols for resistance across the globe Tarja Laine proposes that this is not caused by their status as exciting cinematic spectacles but by their engaging our emotions Laine uses The Hunger Games as key texts for understanding our world demonstrating that ethics do not originate from rational considerations far removed from those mucky things called emotions But rather that emotions are at the core of cinematic ethics William Brown Author of Supercinema Film Philosophy for the Digital Age In this elegantly written exploration of the relationship between aesthetics and emotion in The Hunger Gamestrilogy Tarja
