Williamson, Frederike Hofmann-van de Poll, Adina Șerban, Zara Lavchyan, Miriam Teuma, 2025-04-01 What is a youth work strategy why is it needed and how is it done These questions lie at the centre of this manual Youth work plays a modest part in many young people s lives and arguably a much more critical part for others Youth work is about supporting the spaces where young people can have autonomy and develop their voice and about building bridges for young people to make positive steps to the next part of their lives Over the past two decades a significant resource base for youth work has been established and this manual provides a comprehensive catalogue of accessible material to support reflection and action across the stepping stones that will need to be pursued The manual thereby moves from theory to action Why is youth work important Where does it fit within wider youth policy How do we strengthen its presence and performance in supporting young people who face an increasingly tough repertoire of challenges in contemporary Europe This manual considers how to advocate for youth work at the local and national levels It starts by outlining a conceptual understanding of youth work strategy within the frameworks of youth work policy and wider policies affecting the lives of young people It then considers the stepping stones for the development of a youth work strategy why it is needed where and how it should start who to involve how do you establish and maintain momentum and eventually how can you give it teeth and ensure impact and how do you make it happen Of course nothing is ever guaranteed but this manual is designed to give youth work advocacy its best chance A case study of the emergence of a more professionalised framework for youth work in Malta shows just what can be

achieved Further resources on approaches methods instruments and examples are shared in the last chapter
