Moderation and the Mean in the Literature of Spain's Golden Age Richard Rabone, 2023 A sustained analysis of the reception of the Aristotelian golden mean in early modern Spanish literature Studying works of three canonical authors Garcilaso Calder n Graci n it argues that the ethical credo of moderation was an important part of the classical inheritance on which Golden Age authors frequently drew

**The Chivalric World of Don Quijote** Howard Mancing, 1982 The purpose of this book is to examine the characters style themes structure and narrative technique of that chivalric world I hope to show among other things that Don Quijote begins to retreat from his chivalric fantasy and to reach an accord with reality in part I of the novel rather than in part II as is generally believed that Sancho Panza both undermines and sustains his master s fantasy from the start that the priest and the barber are not as first presented Don Quijote s friends but rather his greatest enemies and that Cide Hamete Benengeli becomes increasingly unreliable as a narrator and increasingly comic as a character in the second part of the novel

*The Palgrave Handbook of Literature and the City* Jeremy Tambling, 2017-02-17 This book is about the impact of literature upon cities world wide and cities upon literature It examines why the city matters so much to contemporary critical theory and why it has inspired so many forms of writing which have attempted to deal with its challenges to think about it and to represent it Gathering together 40 contributors who look at different modes of writing and film making in throughout the world this handbook asks how the modern city has engendered so much theoretical consideration and looks at cities and their literature from China to Peru from New York to Paris from London to Kinshasa It looks at some of the ways in which modern cities whether capitals shanty towns industrial or rust belt have forced themselves on people s ways of thinking and writing

Così fan tutte, An Opera of Mimetic Revelation Isabel Díaz-Morlán, 2025-09-01 Isabel D az Morl n reads the characters of Cos fan tutte an opera by Mozart and Da Ponte through the lens of Ren Girard s theory of unconscious mimetic desire The opera features couples who resemble those from classical literature including Ovid s Collatinus and Lucretia Cervantes s Anselmo and Camila and Shakespeare s Leonatus and Imogen The book explores the sources of the libretto comparing them with each other and with the libretto itself to detect the themes that reveal the mechanism of mimetic desire This offers the groundwork for the analysis of key moments of the opera in which the combined action of words dramatic action and above all music show how Ferrando and Guglielmo as well as Fiordiligi and Dorabella fall into mimetic rivalry an incitement to desire and hypocrisy always within a m connaissance that prevents them from recognizing what is happening to them until the truth is finally unmasked

Venturing beyond the traditional picaresque canon Fuchs traces Mediterranean itineraries of diaspora captivity and imperial rivalry in a corpus of texts that employ picaresque conventions to contest narrative authority By engaging the picaresque not just as a genre with more or less strictly defined boundaries but as a set of literary strategies that interrogate the mechanisms of truth telling itself Fuchs shows how self consciously fictional picaresque texts effectively encouraged readers to adopt a critical stance toward the truth claims implicit in the forms of authoritative discourse proliferating in Imperial Spain

*Nominalism and Literary Discourse*, 2021-11-01 Influential accounts of European cultural history variously suggest that the rise of nominalism and its ultimate victory over realist orientations were highly implemental factors in the formation of Modern Europe since the later Middle Ages but particularly the Reformation Quite probably this is a simplification of a state of affairs that is in fact more complex indeed ambiguous However if there is any truth in such propositions which have after all been made by many prominent commentators such as Panofsky Heer Blumenberg Foucault Eco Kristeva we may no doubt assume that literary texts will have responded and in turn contributed in a variety of ways to these processes of cultural transformation It seems of considerable interest therefore to take a close look at the complex precarious position which literature as basically a symbolic mode of signification held in the perennial struggles and discursive negotiations between the semiotic twin paradigms of nominalism and realism This collection of essays many of them by leading scholars in the field is a first comprehensive attempt to tackle such issues by analyzing representative literary texts in terms of their underlying semiotic orientations specifically of nominalism but also by studying pertinent historical theoretical and discursive co n texts of such developments in their relation to literary discourse At the same time since literary nominalism and realism are conceived as fundamentally aesthetic phenomena instantiating a genuinely literary debate over universals consistent emphasis is placed on the discursive dimension of the texts scrutinized in an endeavour to re orient and consolidate an emergent research paradigm which promises to open up entirely new perspectives for the study of literary semiotics as well as of aesthetics in general Historical focus is provided by concentrating on the English situation in the era of transition from late medieval to early modern c 1350 1650 but readers will also find contributions on Chr tien de Troyes and Rabelais as well as on the aftermath of the earlier debates as exemplified in studies of Locke and post modern critical altercations respectively which serve to point up the continuing relevance of the issues involved A substantial introductory essay seeks to develop an overarching theoretical framework for the study of nominalism and literary discourse in addition to offering an in depth exploration of the nominalism realism complex in its relation to literature An extensive bibliography and index are further features of interest to both specialists and general readers
