Dialogues in Urban and Regional Planning 6 Christopher Silver, Robert Freestone, Christophe Demaziere, 2017-08-24 The Dialogues in Urban and Regional Planning series offers a selection of some of the best scholarship in urban and regional planning from around the world The internationally recognized authors of these award winning papers take up a range of salient issues from the theory and practice of planning This 6th volume incorporates essays that explore the salient issue commonly referred to as The Right to the City This theme speaks to a growing new movement within planning theory and practice with multiple aims and strategies but with the common objective of advancing a more just and equitable world The right to the city functions as a manifesto advancing academic explorations of the opportunities for and barriers to expanding human and environmental justice At the same time it extends beyond academic inquiry to engage directly with the policy legal and political dimensions of human rights The right to the city has been invoked by global bodies such as United Nations Habitat and the United Nations Educational Scientific and Cultural Organization to bolster not only their agendas around fundamental human rights but advance urban policies promoting inclusion sustainability and resilience Dialogues 6 offers engaging explorations into the academic expeditions by the global planning community that have helped to

energize this movement The papers assembled here through processes of peer review represent an invaluable collection to untangle the complexities of this dynamic new approach to urban and regional planning The Dialogues in Urban and Regional Planning DURP series is published in association with the Global Planning Education Association Network GPEAN and its member national and transnational planning schools associations **Les Annales de l'économie collective**, 1913 Les Annales de la r gie directe **L'économie urbaine en Afrique** Emmanuël Seyni Ndione, 1994-01-01 *Intégration à la ville et services urbains au Maroc* Programme de recherche urbaine pour le développement, Claude de Miras, 2005
