Literature and Politics in the Central American Revolutions John Beverley,Marc Zimmerman,2014-02-19 This book began in what seemed like a counterfactual intuition that what had been happening in Nicaraguan poetry was essential to the victory of the Nicaraguan Revolution write John Beverley and Marc Zimmerman In our own postmodern North American culture we are long past thinking of literature as mattering much at all in the real world so how could this be This study sets out to answer that question by showing how literature has been an agent of the revolutionary process in Nicaragua El Salvador and Guatemala The book begins by discussing theory about the relationship between literature ideology and politics and charts the development of a regional system of political poetry beginning in the late nineteenth century and culminating in late twentieth century writers In this context Ernesto Cardenal of Nicaragua Roque Dalton of El Salvador and Otto Ren Castillo of Guatemala are among the poets who receive detailed attention **Latina/o Discourse in Vernacular Spaces** Michelle A. Somos de Una Voz provides the most current work examining the vernacular voices of Latinas. The editors of this diverse collection structure the book along four topics: Locating Foundations, Citizenship and Belonging, The Politics of Self Representation, and Trans National Voces that are guided by the organizing principle of voz voces, voice voices. Voz voces resonates not only in intellectual endeavors but also in public arenas in which perceptions of Latinas as being of one voice circulate. The study of voz voces proceeds from a variety of sites including cultural myth, social movement, music, testimonios, a website, and autoethnographic performance. By questioning and addressing the politics of voz voces, the essays collectively underscore the complexity that shapes Latina/o multivocality. Ultimately, the contours of Latina/o vernacular expressions call attention to the ways that these unique communities continue to craft identities that transform social understandings of who Latinas/os are to engage in forms of resistance that alter relations of power and to challenge self and dominant representations.

Honduras in Dangerous Times James J. Phillips, 2015-10-16 Honduras in Dangerous Times: Resistance and Resilience explores how the people of Honduras use cultural resources to resist and to change the conditions of their society, to critique those conditions, and to create the pieces of a better future in the midst of a dangerous present. The book explores ideas and practices which support systems of dominance and submission in Honduras and the ways in which people have slowly developed a broad culture of resistance and resilience. This culture includes struggling for land and environmental preservation against extractive industries, promoting natural local food and sustainable technology to replace foreign agribusiness, bringing a corrupt legal and political system to account by invoking concepts of human rights and laws routinely ignored, bending institutional religion to issues of social justice, and expressing protest and visions of a better society through popular culture. The book highlights the special contribution of the country's indigenous peoples in resistance; it also discusses the powerful role of the United States in shaping Honduran economic, political, and military life and what people-to-people solidarity with Hondurans means for citizens of the United States. The book concludes by presenting Honduran popular resistance in a context of late neoliberalism in Honduras and in relation to other Latin American social movements. Honduras in Dangerous Times shows that Hondurans resist in the face of violence and oppression not only because they are resilient but also that they are resilient because they resist. Resistance keeps hope alive and change possible.
