enriching experience Elizabeth Gaskell Patsy Stoneman, 1987 When Patsy Stoneman's Elizabeth Gaskell first appeared in 1987 it was welcomed as the first major full length feminist study of Gaskell Victorian Studies Though long out of print it is still widely used and cited in university contexts making it certain that this augmented edition will be equally welcome This pioneering study described as a model of feminist criticism The Year's Work in English Studies reveals Gaskell as an important social analyst who deliberately challenged the Victorian disjunction between public and private ethical values maintaining a steady resistance to aggressive authority and advocating female friendship rational motherhood and the power of speech as forces for social change Since 1987 Gaskell's work has risen from minor to major status Despite a wealth of subsequent gender oriented criticism however Stoneman's combination of psychoanalytic and political analysis which Choice found thought provoking in 1987 remains challenging in its use of modern motherhood theories This new edition therefore presents the original text unchanged except for bibliographical updating together with a new critical Afterword Patsy Stoneman's extensive new Afterword offers detailed evaluation of all the Gaskell criticism published between 1985 and 2004 which has a bearing on her subject and thus provides both a wide ranging debate on the social implications of motherhood and an invaluable survey of Gaskell criticism over the last twenty years This edition with an updated bibliography and index will bring a well known classic to a new audience while also offering a uniquely comprehensive overview of current Gaskell studies Book jacket

The Doom of the Griffiths, the Original Classic Novel Elizabeth Gaskell, 2015-05-03 I have always been much interested by the traditions which are scattered up and down North Wales relating to Owen Glendower Owain Glendwr is the national spelling of the name and I fully enter into the feeling which makes the Welsh peasant still look upon him as the hero of his country There was great joy among many of the inhabitants of the principality when the subject of the Welsh prize poem at Oxford some fifteen or sixteen years ago was announced to be Owain Glendwr It was the most proudly national subject that had been given for years Perhaps some may not be aware that this redoubted chieftain is even in the present days of enlightenment as famous among his illiterate countrymen for his magical powers as for his patriotism He says himself or Shakespeare says it for him which is much the same thing *Elizabeth Gaskell* Nancy S.

The Split Subject of Narration in Elizabeth Gaskell's First Person Fiction Anna Koustinoudi, 2011-12-16 The Split Subject of Narration in Elizabeth Gaskell's First Person Fiction analyzes a number of Elizabeth Gaskell's first person works through a post modern perspective employing such theoretical frameworks as psychoanalytic theory narratology and gender theory It attempts to explore the problematics of Victorian subjectivity bringing into focus the ways in which both her realistic and Gothic texts undercut and interrogate post Romantic assumptions about an autonomous and coherent speaking and or narrating subject The essential argument of the book is that the mid nineteenth century narrating I in its communal voyeuristic and Gothic manifestations emerges as painfully divided lacking unstable ailing and hence unreliable pre figuring at the same time later forms of self conscious narration in fiction Furthermore it is also exposed as performative one that can be seen as a simulacrum without an original and consequently at odds with post Romantic empiricist assumptions about the factuality centrality and rationality of the human subject while at the same time clinging to illusions of autonomy Plagued by its own self awareness the narrating I is alienated both from itself as well as from those it attempts to represent including its own narrated counterpart To this effect it argues that throughout a trajectory of configurations psychic investments and imaginary identifications embedded in and conditioned by the workings of desire and ideology both of which underpin

discursive and representational practices narrative subjectivity in Gaskell's first person fiction manifests itself as the product of a misrecognized encounter between the subject who narrates and that which is being narrated Both are essentially unable to see their split character and the alienating chasm opened up between them for the former on the level of narration and for the latter on a thematic level

Dickerson, 1996 An interesting rereading of familiar texts by Emily and Charlotte Bronte Elizabeth Gaskell and George Eliot recovering the historical and literary roots of the supernatural as it appears in each women's work Dickerson English Rhodes College makes interesting observations about women's changing roles in the 19th century when scientific advancements relegated women to the home as arbiters of the spiritual while men occupied themselves with rational invention Through close readings she demonstrates how the Brontes Gaskell and Eliot resisted this division and simultaneously created a spiritual genre of writing traditionally denigrated by critics Annotation copyrighted by Book News Inc Portland OR

Elizabeth Gaskell's Smaller Stories Carolyn Lambert, 2021-08-26 This book re locates Elizabeth Gaskell's smaller stories in the literary and cultural context of the nineteenth century While Gaskell is recognised as one of the major novelists of her time the short stories that make up a large proportion of her published work have not yet received the critical attention they deserve This study re claims them as an indispensable part of her literary output that enables us to better contextualize and assess her achievement holistically as a highly skilled woman of letters The periodicals in which Gaskell's shorter pieces were published offer a microcosm of nineteenth century society and Gaskell took full advantage of the medium to apply a consistent and barbed challenge to cultural and gendered constructs of roles and social behaviour Although her eminently readable prose still flows easily in her short stories it is less likely to elide the sharp corners of domestic violence the disabling experiences of women the pain of death and loss and the complications of family life
