Truth and Transitional Justice Alice Panepinto,2022-02-24 With a unique transitional justice perspective on the Arab Spring this book assesses the relocation of transitional justice from the international paradigm to Islamic legal systems The Arab uprisings and new and old conflicts in the Middle East North Africa and other contexts where Islam is a prominent religion have sparked an interest in localising transitional justice in the legal systems of Muslim majority communities to uncover the truth about past abuse and ensure accountability for widespread human rights violations This raises pressing questions around

how the international paradigm of transitional justice and in particular its truth seeking aims might be implemented and adapted to local settings characterised by Muslim majority populations and at the same time drawing from relevant norms and principles of Islamic law This book offers a critical analysis of the relocation of transitional justice from the international paradigm to the legal systems of Muslim majority societies in light of the inherently pluralistic realities of these contexts It also investigates synergies between international law and Islamic law in furthering truth seeking the formation of collective memories and the victims right to know the truth as key aims of the international paradigm of transitional justice and broadly supported by the shari ah This book will be a useful reference for scholars practitioners and policymakers seeking to better understand the normative underpinnings of potential transitional truth seeking initiatives in the legal systems of Muslim majority societies At the same time it also proposes a more critical and creative way of thinking about the challenges and opportunities of localising transitional justice in contexts where the principles and ideas of Islamic law carry different meanings

The Two Faces of Justice Jiwei Ci, 2006-05-15 Justice is a human virtue that is at once unconditional and conditional Under favorable circumstances we can be motivated to act justly by the belief that we must live up to what justice requires irrespective of whether we benefit from doing so But our will to act justly is subject to conditions We find it difficult to exercise the virtue of justice when others regularly fail to Even if we appear to have overcome the difficulty our reluctance often betrays itself in certain moral emotions In this book Jiwei Ci explores the dual nature of justice in an attempt to make unitary sense of key features of justice reflected in its close relation to resentment punishment and forgiveness Rather than pursue a search for normative principles he probes the human psychology of justice to understand what motivates moral agents who seek to behave justly and why their desire to be just is as precarious as it is uplifting A wide ranging treatment of enduring questions The Two Faces of Justice can also be read as a remarkably discerning contribution to the Western discourse on justice re launched in our time by John Rawls

*Law and Neuroscience: Justice as a Challenge for Neurorights, Neurolaw, and Forensic Psychology* Eric García-López, Eduardo Demetrio Crespo, Cristina Nombela Otero, Federica Coppola, 2025-05-29 Justice is one of the most complex issues in the study of Law Philosophical sociological and religious studies have attempted to articulate this value central to human coexistence throughout history More recently specialised sub disciplines such as Legal Psychology have significantly contributed to refining the relationship between Law and Justice by enriching the study of these normative domains with empirical knowledge about social interactions In more recent developments the discipline of Neurolaw has begun to offer new insights into the analysis of the longstanding and disputed issues surrounding Law and Justice Neurolaw can be defined as the analysis of Law and Justice from the perspective of Neuroscience and involves an understanding of human behavior through the study of the brain s interactions with the environment Neuroscience appears to provide a more up to date understanding of human behavior focussing on the legal and forensic implications Yet neuroscientific studies of crime fail to grasp the impact of broader socio contextual contingencies on human conduct including institutional failures gender dynamics and cultural power Such a failure evidences the limits of neuroscience as a complete epistemological tool It is too narrow to provide a complete understanding of complex human conduct like crime as it involves a careful examination of the variegated interactions between various social and biological levels This Research Topic addresses the need for developing a holistic theoretical framework that considers not only the biological nature of human beings but also the social cultural and political influences on human behavior Such a holistic approach is necessary to clarify some foundational philosophical questions including subjectivity and consciousness as well as the role that these concepts play within the notion of criminal liability and punishment In addition to these unresolved philosophical questions there is also the need for a revised legal and forensic approach that grasps a more nuanced and complex understanding of human conduct Topics for contributions include but are not limited to the following Neuroscience Law and Criminal Justice Neuroscience Law and Social Justice Neuroscience Law and Racial Justice Neuroscience and Restorative Justice Neurorights Neuroethics Criminal responsibility Decision making Juvenile Criminal Law and Punishment Free will Ethical legal and social repercussions of the neurotechnologies currently available as well as of those that are currently being developed We welcome submissions from authors with backgrounds in law justice philosophy forensic neuropsychology forensic cognitive social psychology forensic psychiatry criminology sociology addressing theoretical

methodological or empirical issues related to these topics and other related ones Cross inter and multidisciplinary contributions are of course welcome

Edward White,1995-11-16 By any measure Oliver Wendell Holmes Jr led a full and remarkable life He was tall and exceptionally attractive especially as he aged with piercing eyes a shock of white hair and prominent moustache He was the son of a famous father Oliver Wendell Holmes Sr renowned for The Autocrat of the Breakfast Table a thrice wounded veteran of the Civil War a Harvard educated member of Brahmin Boston the acquaintance of Longfellow Lowell and Emerson and for a time a close friend of William James He wrote one of the classic works of American legal scholarship The Common Law and he served with distinction on the Supreme Court of the United States He was actively involved in the Court s work into his nineties In Justice Oliver Wendell Holmes G Edward White the acclaimed biographer of Earl Warren and one of America s most esteemed legal scholars provides a rounded portrait of this remarkable jurist We see Holmes s early life in Boston and at Harvard his ambivalent relationship with his father and his harrowing service during the Civil War he was wounded three times twice nearly fatally shot in the chest in his first action and later shot through the neck at Antietam White examines Holmes s curious childless marriage his diary for 1872 noted on June 17th that he had married Fanny Bowditch Dixwell and the next sentence indicated that he had become the sole editor of the American Law Review and he includes new information on Holmes s relationship with Clare Castletown White not only provides a vivid portrait of Holmes s

life but examines in depth the inner life and thought of this preeminent legal figure There is a full chapter devoted to The Common Law for instance and throughout the book there is astute commentary on Holmes's legal writings Indeed White reveals that some of the themes that have dominated 20th century American jurisprudence including protection for free speech and the belief that judges make the law originated in Holmes's work Perhaps most important White suggests that understanding Holmes's life is crucial to understanding his work and he continually stresses the connections between Holmes's legal career and his personal life For instance his desire to distinguish himself from his father and from the soft literary culture of his father's generation drove him to legal scholarship of a particularly demanding kind White's biography of Earl Warren was hailed by Anthony Lewis on the cover of The New York Times Book Review as serious and fascinating and The Los Angeles Times noted that White has gone beyond the labels and given us the man In Justice Oliver Wendell Holmes White has produced an equally serious and fascinating biography one that again goes beyond the labels and gives us the man himself
